ANNUAL SCHOOL JOURNAL 2021-22

JUNIOR SCHOOL

CONFLUENCE OF ART AND IDEAS OF OUR STUDENTS

Dear Children,

Happiness is never owed but we owe you a lot for the happiness you spread. As children, you always find a way to be happy. In this, you are our school. In this, you are our teachers. Whatever means you adopt to stay happy in any situation or circumstance, is our curriculum.

No virus can keep you from laughing, gleefully shouting, singing, playing and talking nonstop. No mask can mask your emotions, feelings, reactions and sentiments.

You teach us to live from moment to moment and day to day.

You teach us how the vacant lockdown time can be made to shrink and dwindle away.

You teach us that while today's doors close, tomorrow's portals bring hope and faith.

So, keep laughing, stay happy and play to your heart's content.

When this goes away, we wouldn't have missed a thing, because with you around, nothing changes.

Your happiness keeps the world the way I have always known it.

May God bless you and keep you safe!

LN Goel

Chairman

Dear Suncitizens

The lockdown is a paradox.

How? You may ask. To begin with, it is more extraordinary than the virus. It is significant simply because under the lockdown you can unlock a lot of other things, for example, your potential.

On the face of it, the virus may have confined you 'in', that is, within the four walls of your homes but, actually, it calls you 'out'. It calls you 'out' to discover, explore who, what and of how much worth you were, are and will be. Don't wait for the time when things would simmer down.

Change when change has you in its grip.

The lockdown is an opportunity because it is only a physical cage. The inner universe is open. Discover it. The possibilities of finding your true worth are of far greater significance than what you may become in the peripheral realm.

The outward journey is off but the inward jourey is on. There are no gift shops on the way in. No hotels. No resorts. No shopping arcades.

Make this journey. Find the forest. The oceanfront. The desert.

The mountains and the valleys.

And when you get 'lost' there, that's when you would be 'found'.

And that's the paradox of the lockdown.

All the best!

Ankit Goel

Vice Chairman

YIN and YANG

Nobody who grew up in the times I did, will forget the droning and the very endearing sound of Doordarshan with a black and white interlocked insignia, displayed on the screen before the programme started. It would go on for a good five to fifteen minutes, depending on when the TV was turned on. It was so gyrating to the ears then but today, it brings back nostalgic memories of those bygone days. But this is not what I want to highlight. I want to highlight the black and white spinning wheel, as it would appear to the novice's eyes then. In actuality, it was the YIN and the YANG. If you search uncle GOOGLE, you would find that 'In ancient Chinese philosophy, yin and yang was a concept of duration, describing how seemingly opposite or contrary forces may actually be complementary, interconnected and interdependent in the natural world' and how they evoke each other's growth as they inter-relate to one another. The world is composed of many different, sometimes opposing forces but these can coexist and even complement each other like darkness and light, female and male and so on.

The YIN and YANG balance is important in life as it exists in everything including the current unprecedented times - the pandemic. The harsh truth is that Nature needs to balance itself from time to time.

Charles Darwin's theory of evolution focuses on 'natural selection'. According to it, 'Survival of the Fittest' leads to the struggle for existence. All beings must face and suffer pain and destruction in their lifetime, both as individuals and as communities. This tests our grit and perseverance just like a diamond. It is considered a symbol of endurance since it is made tough by intense heat and pressure. Likewise, according to the theory of the survival of the fittest, we become resilient and radiant.

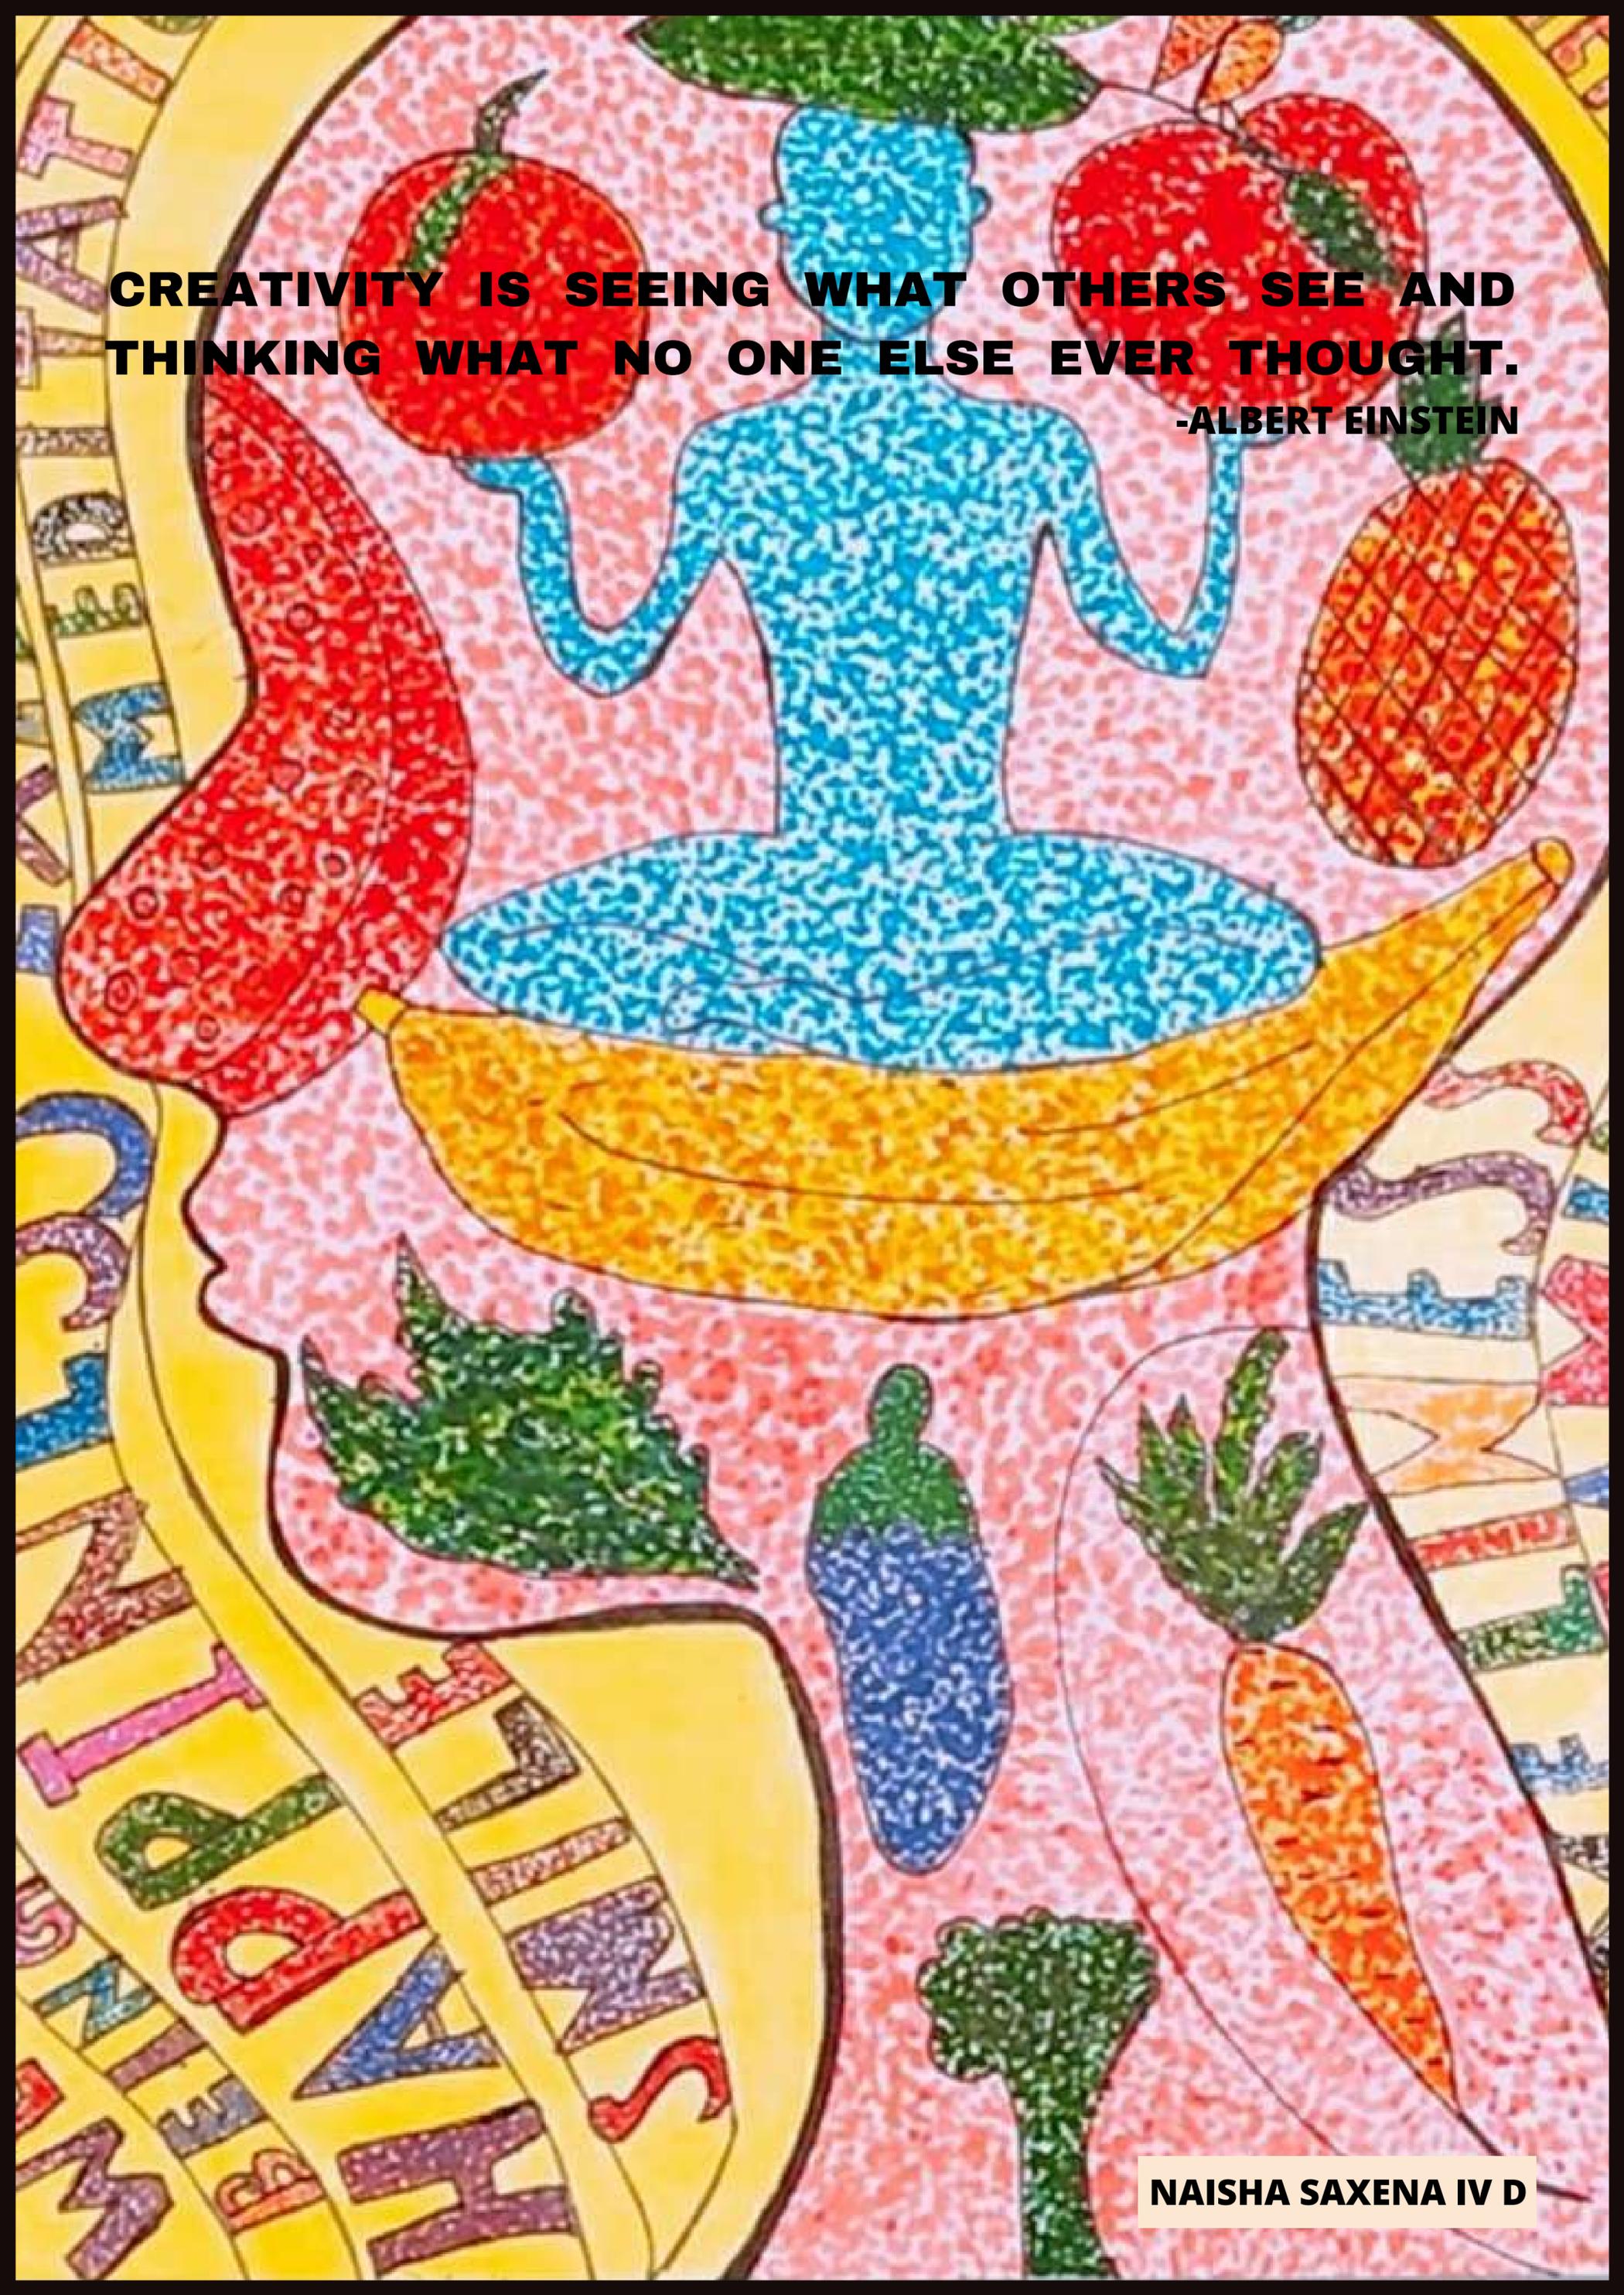

This is how the theory works: During unprecedented times when failure, pain or death come knocking on the door, it is actually the theory of natural selection at work. The YIN blends with the YANG. YIN being the 'downward movement' in preparation for 'building up' energy for transforming into the rising YANG.

"We rise only when we fall" like the PHOENIX rising from its ashes. It tells us that loss of hope is temporary.

In the natural world, this phenomena is rightly depicted in the changing of the seasons: the cold of the winter yields to the warmth of the spring. Similarly the harmony of our body, mind, and spirit needs to be adjusted and re-adjusted to the circumstances in life. Life seeks to then create a balance and thus harmony, even through death.

We are only pawns at the micro level, unable to see the macro level, wherein a gigantic energy force is creating, balancing and harmonizing itself. To introspect and be aware of this churning of energy is what we need to do. This will help us to illuminate ourselves with the YANG energy which encompasses receptiveness, resilience and thereafter resurgence.....

**Rupa Chakravarty
Director, Suncity Schools**

**CREATIVITY IS SEEING WHAT OTHERS SEE AND
THINKING WHAT NO ONE ELSE EVER THOUGHT.**

-ALBERT EINSTEIN

FROM THE DESK OF THE HEADMISTRESS

PRIMARY: MS.KAVITA LAL

They say that in school we learn and then we are given a test. But in life we first get tested and then we learn.

“Be careful!” is a phrase much on the lips of both parents and teachers. But what if the child learns to be careful on his own? Is the warning really effective? Or, does it stop children from adventure and freedom to think differently?

New opportunities or situations allow children to think and analyse critically. Too many checks stop the child from exploration and innovation. Our aim thus should be to teach them how to think, not what to think. Education cannot be confined to textbooks! Education is not just reading or writing but also about how to cope in life, how to make a living and how to interact with each other.

Education is also about restraint and self- discipline which can be found in the ancient practice of yoga and meditation. It comes naturally to children who are involved in sports or learning music or dance. The need for regular and at times arduous practice and rigor, not only prepares children for challenges but also gives them the confidence that they can achieve what they set out to do. Mostly education is about adapting to change. We have all recently witnessed the metamorphosis of teachers and parents into technology savvy individuals who continued to provide a platform for learning without letting students miss a single day of school during the inhibiting days of the Pandemic. Just like classmates and teachers change every year, children need to be prepared that nothing is constant and embracing new ideas and challenges are the key to the road ahead.

It is time to change societies by accepting others and sharing spaces without judging or complaining. We only have control over our own self and hence, we must constantly change to stir ourselves into action for self-improvement.

MS.KAVITA LAL

FROM THE DESK OF THE HEADMISTRESS

ELEMENTARY YEARS PROGRAMME JUNIOR AND SENIOR **MS.SANGEETA BAGCHI**

Enthusiasm is the yeast that makes your hopes shine like stars. It is the spark in your eyes, the swing in your gait. The grip of your hand, the irresistible surge of will and energy to execute your ideas. We truly believe and feel that if one turns their fears into excitement, and anxieties into enthusiasm, the path to learning and exploring is paved. It is very important to arouse enthusiasm in children than teaching the facts. The facts may change but the enthusiasm for exploring the world will remain with them the rest of their lives. As we bid farewell to this academic year and prepare ourselves for the next, a spirit of exuberant and infectious enthusiasm seems to be omnipresent. So, let us come together with 'VERVE' to imbibe good values and 'sanskars' in our children. Let us teach them the importance of the five vitamins: Vitamin A for Action, Vitamin B for Belief, Vitamin C for Confidence, Vitamin D for Discipline and Vitamin E for Enthusiasm, and encourage them to remember to take them. These five vitamins, values and 'sanskars' will help them to become responsible human beings.

As adults, we need to spend quality time with them to adequately facilitate their physical, social and emotional development, especially during these unprecedented times. As we take cautious steps to normalcy, let us together ensure that the enthusiasm to learn, explore, adapt and to make the best use of each moment, is entrenched in the minds and hearts of our little ones with VERVE.

EDITORIAL

Years may wrinkle the skin, but to give up verve and enthusiasm wrinkles the soul.

MS.REENA DATTA

The word 'Verve' goes back to old French, but in the seventeenth century, it acquired its modern sense of high spirits, animation and enthusiasm. At this crucial juncture when the tidal wave of transition is sweeping across the world, old is collapsing and new is struggling to be born, this year has been all about dualities— looking up while looking in. How is one to reconcile these?

We may not always have a comfortable life or the requisite tools to solve our problems; but history has shown us that verve and courage can be contagious, and hope can take on a life of its own. Thus, keeping our yearly theme of 'Verve' in mind, Junior Synergy taps the enthusiasm of the students, reflects their accomplishments, and provides them an opportunity to showcase their latent creative potential.

Helen Keller rightly said that the world moves not only by the mighty shoves of its heroes, but also by the aggregate of the tiny pushes of each honest worker. The herculean task of editing the magazine would not have been possible without the support of the Editorial Board, our dear student editors and many members of the teaching faculty who went beyond their comfort zones and embraced the digital components that are now a new companion to the print publication.

Here's wishing all of you to keep the spirits up as we approach the endemic phase of Covid19. Shrug off the apathy, and relook at life with verve and vivacity to craft your own success story! Nothing is perfect—that's why pencils have erasers.

EARTH DAY

It is time to return the favour of Mother Earth and express our gratitude by planting more trees, by controlling pollution and by making it a greener planet. With this thought in mind, the little ones celebrated Earth Day on the virtual platform on Thursday, 22nd April 2021. The children of all three grades, Pre-nursery, Nursery and Kindergarten, were involved in various activities to raise awareness to save the planet.

LABOUR DAY

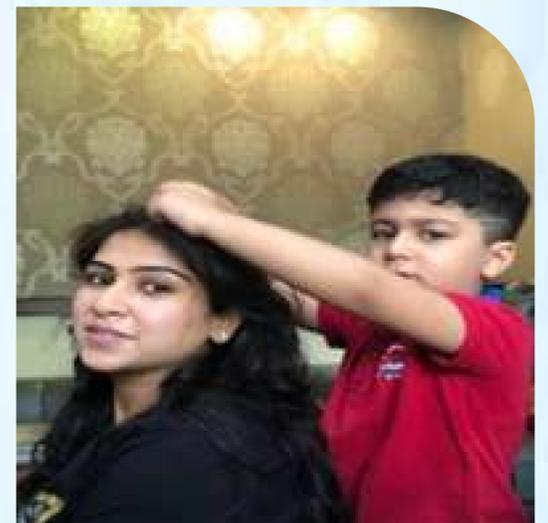

All labour that uplifts humanity has dignity and importance, and hence should be undertaken with painstaking excellence. To celebrate this painstaking effort of the labour force, which works tirelessly, Labour Day was celebrated on Friday, 30th April 2021, with great zeal and enthusiasm. The children made cards and paper flowers for Labour Day with a thank you message written on them. The little ones gave them to the security guards, drivers and house help

MOTHER'S DAY

"A mother is she who can take the place of all others but whose place no one else can take." -Cardinal Meymillod

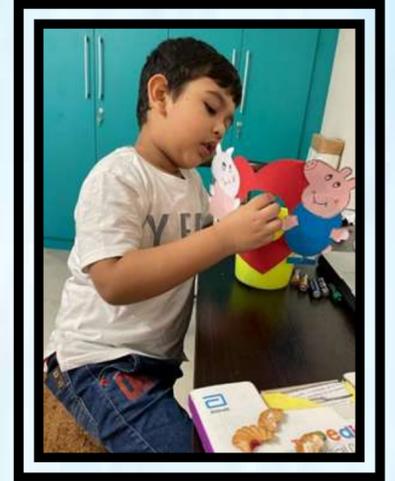

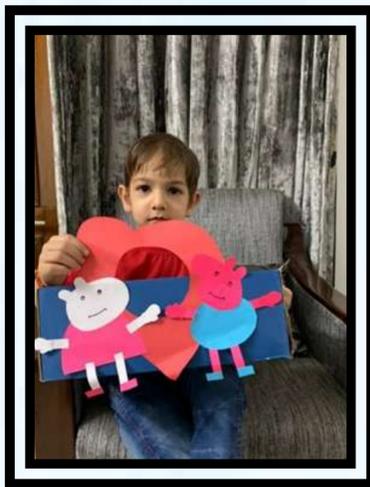

A mother's love does not set with the sun. It blankets you all through the night. No language can express the power and beauty of a mother's love. To celebrate this bond of love and affection that is everlasting, the children of the Elementary Years Programme celebrated Mother's Day on the virtual platform on Friday, 14th May 2021. The little ones expressed their love for their mothers by reciting rhymes, singing songs and dancing. They made their mothers feel special by pampering them, giving them a head massage, making a necklace by stringing beads and preparing delicious snacks for them. It was followed by a message and a beautiful poem on mothers and various activities. The mothers were overwhelmed looking at their children's performance.

FRIENDSHIP DAY

**“Friendship is the only cement that will ever hold the world together.”
-Woodrow Wilson**

The little ones of the Elementary Years Programme celebrated Friendship Day on Friday, 30th July 2021. The children discussed the importance of friends in their lives. A plethora of activities were conducted to promote the value of peaceful friendship and to honour the bond of friendship we form through the course of our lives that enrich us and make us happier.

RAKSHA-BANDHAN

Rakhi is not merely a silken thread but a tradition that binds brothers and sisters beautifully in a relationship forever. To celebrate and strengthen this bond of love, the little ones celebrated Raksha-Bandhan on Friday, 20th August 2021. They made 'Rakhis' and tied them on their siblings' wrists as a symbol of love, affection and care towards them. They enjoyed the day by singing, dancing and playing games.

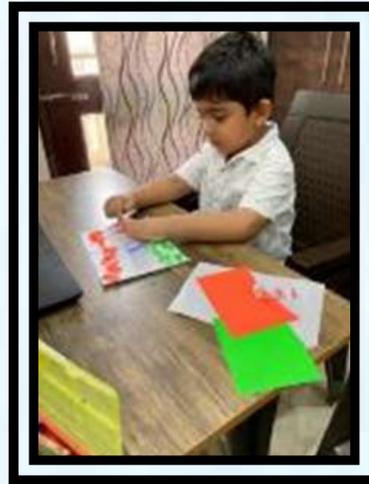

INDEPENDENCE DAY

"A nation's culture resides in the hearts and in the soul of its people."

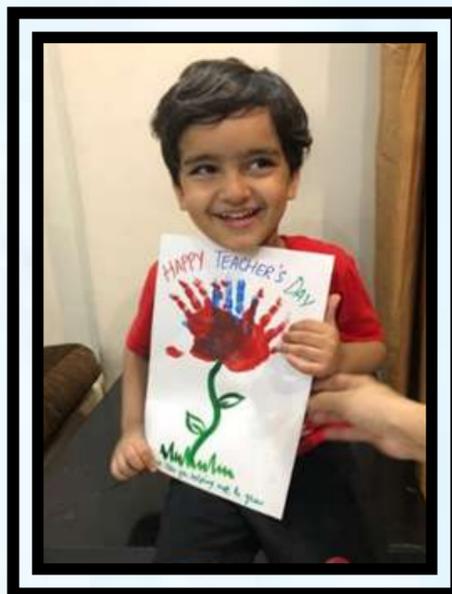

-Mahatma Gandhi

To commemorate the 75 years of Independence, the children celebrated Independence Day with great pride and patriotic fervor, on the virtual platform. They were involved in myriad activities to enhance their various skills and participate in the celebration.

TEACHERS' DAY

Teachers' Day was celebrated on the virtual platform on Friday, 3rd September 2021. The children expressed their love for their teachers in various ways. They shared heart-warming messages for their teachers through pre-recorded videos that were played during the virtual session. Some of the children shared beautiful quotes, some of them sang songs and danced. It was a pleasure to see some of the children chant the shloka, 'Guru Brahma Guru Vishnu', for their teachers and expressed gratitude towards them.

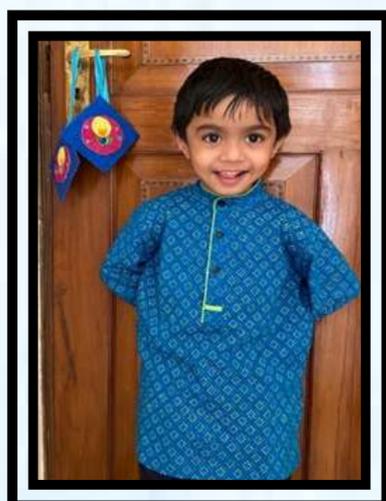

HALLOWEEN

The students of Elementary Years Programme celebrated Halloween on the virtual platform. The idea behind celebrating a festival like Halloween is to create awareness of the festivals celebrated across the world. The little ones were super enthusiastic and came dressed up as superheroes, spooky cats, witches, ghosts, goblins, vampires and other interesting characters flaunting their scary nails, masks and teeth.

DIWALI

Diwali is the festival of lights which is celebrated with great zeal and enthusiasm. It marks the celebration of togetherness, love and sharing. It signifies the victory of light over darkness, good over evil and knowledge over ignorance. To make the children understand the importance of the festival, Diwali was celebrated on the virtual platform on Friday, 29th October 2021. Children dressed up in traditional costumes and enjoyed a fun-filled day with their friends and participated in myriad activities that were specially planned for the day.

CHILDREN'S DAY

To remember Pandit Jawahar Lal Nehru and his love for children, Children's Day was celebrated on the virtual platform on Friday, 12th November 2021.

The children thoroughly enjoyed the day by watching a special assembly presented by the teachers. The little ones had a day full of fun as they were engaged in activities like story session, fireless cooking, art and craft, music and dance.

CHRISTMAS

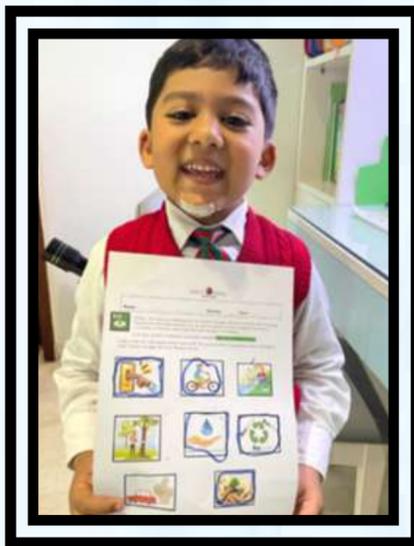

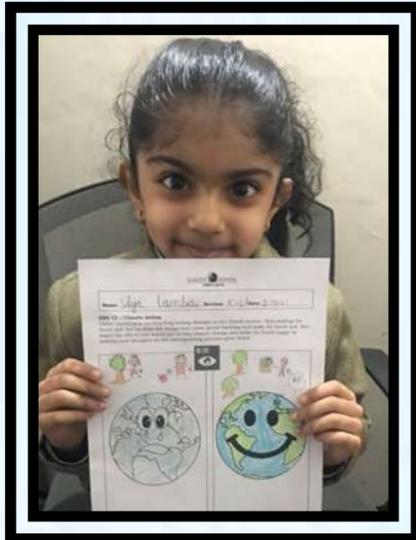

The students of the Elementary Years Programme celebrated Christmas on Friday, 24th December 2021, on the virtual platform with great zeal and excitement. The boundless joy of celebrating this festival was quite evident on the faces of the children. They enjoyed listening to the Nativity story, singing Christmas carols, playing games, making a Christmas card, and preparing a yummy dessert and snacks, to celebrate the festival.

SUSTAINABLE DEVELOPEMENT GOALS

Learning about Sustainable Development Goals is an important aspect of education. It helps students develop insights into issues around the world, such as lack of access to clean water, poverty, hunger, quality education and gender equality. These issues are inseparable from culture, and to truly understand the SDGs, students need to learn about the world around them.

To make the children aware of the Sustainable Development Goals, the theme of the month was amalgamated with SDG. Children were explained about the goal through digital media, Power Point Presentations, activities and discussions. They participated enthusiastically in all the activities.

BIRTHDAY CELEBRATIONS

The children at Elementary Years Programme celebrate the birthdays of their peers, who were born during the month, at the end of each month. The objective of a birthday celebration is to make the children understand social behaviour, decorum, good manners and the use of magic words in a social gathering. The little ones dress up in coloured clothes and enjoy the day with their friends by participating in activities like art and craft, fireless cooking and show and tell.

VIRTUAL ASSEMBLIES

Assemblies are the gateway to exposing the talent of every child and also to imbibe values in them. The objective of preparing the children for class assemblies is to give them stage exposure leading to confidence, to provide a platform for honing multi-faceted talents, to develop their oratorical skills and to help them shed their inhibition. The students of the Elementary Years Programme presented their class assemblies on taking care of the environment, conserving natural resources, eating healthy and a balanced diet and Sustainable Development Goals, in the session 2021-2022.

INTER-SCHOOL COMPETITION

Competitions offer a chance for participants to gain substantial experience, showcase skills, analyze and evaluate outcomes and uncover personal aptitude.

The students of the Elementary Years Programme participated in an Inter-School Virtual Competition, 'The Talent Buzz', organized by The Maurya School.

Ashwin Kubba of Nursery participated in 'Depiction of Baal Gopal' and Riaan Khosla of Nursery participated in 'Ad-Mad Show'.

Yashika Yadav of Kindergarten participated in 'Hasya Kavita' and Ritvi Rathor of Kindergarten participated in 'Chucklesome Story'.

All the students performed with great zeal and enthusiasm. Their performances were laudable.

The little Suncitizens made us proud by winning prizes.

- Riaan Khosla stood as the 1st Runner Up in 'Ad-Mad Show'.
- Ritvi Rathor stood as the 1st Runner Up in 'Chuklesome Story'.
- Ashwin Kubba stood as the 2nd Runner Up in 'Depiction of Baal Gopal'.

INTER-SCHOOL COMPETITION

A virtual Inter-School Competition, 'Utsav - E- Hind', was organized by Adarsh Public School on Saturday, 4th December 2021.

Anaaya Sharma of Nursery participated in the category, 'Fruity Flavours on the Floor'. She won the consolation prize for her performance.

Misha Khetrapal of Kindergarten participated in the category, 'Call of the Wild'. She also reminded the audience of the Sustainable Development Goal 15- Life on Land. Her confident performance made her win the first position.

INTER-SCHOOL COMPETITION

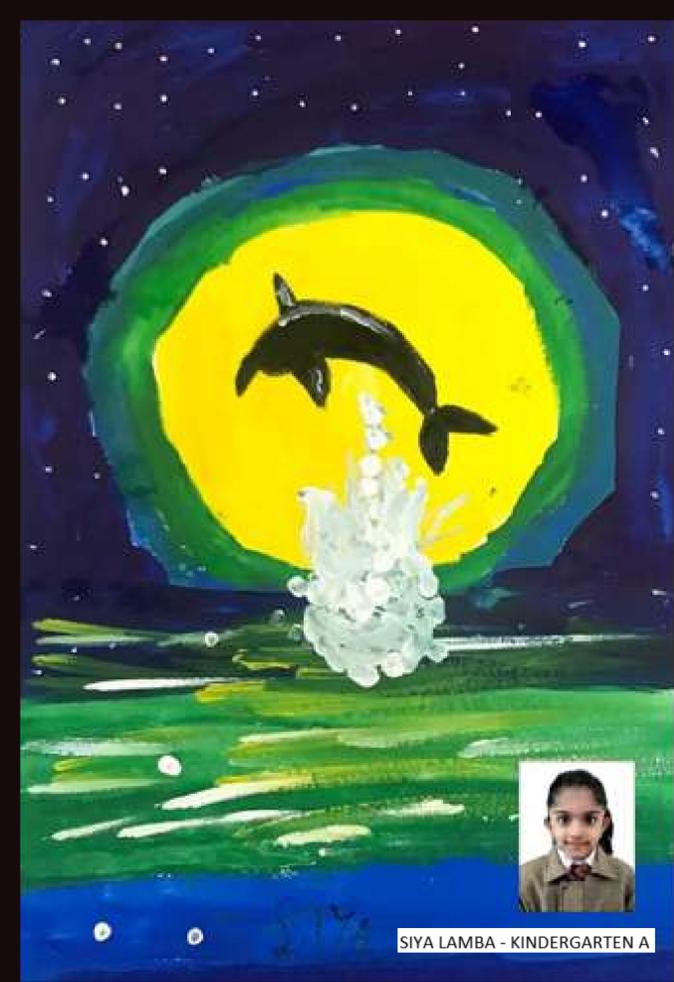

The students of the Elementary Years Programme participated in an Inter-School Virtual Competition, 'Emergence Series VII', organized by **Cambridge International, DAV Public School**.

Parshv Jain of Nursery participated in the 'Build a Pyramid' event. He stacked 21 paper cups in the correct order, starting from number 1 to 21, to make the pyramid. **He completed the task with great zeal and won the third prize.**

Harshita Saha of Kindergarten participated in the 'Shapes Muncher' event. She used various food items to make a sandwich, depicting a lion. She spoke about the nutritional value of the ingredients used to prepare the sandwich and also briefed the audience about Sustainable Development Goal 15- Life on Land.

Her confident performance made her win the first prize.

MY LITTLE BROTHER

I have a brother. His name is Muffin.
With him, I share everything.
He has four legs, but he doesn't like eggs.
Can you guess who he is?
Oh yes, he is a cute little dog who loves playing with a log.
His favourite toy is a ball, but he scratches our walls.
When I play with him, he wags his tail.
At his grooming session, we trim his nails.
Oh no! He is not edible, but he is the most adorable.
I love my brother. His name is Muffin.

SOMETHING TO PONDER ABOUT

Are we all flowers in God's garden?
He plucks us out when it's our time to go!
Are we the same as everyday flowers?
Do we pluck plants for no purpose?
Maybe it's like taking a life!
If we start thinking this way,
Would we become kinder to nature?

MY TRIP TO SHIMLA

This winter vacation, we went to Shimla. We wanted to see snow over there. It took us nine hours to reach Shimla. On our way, we saw beautiful views and ate hot and yummy Maggi. We stayed at Cecil Hotel which was built in 1884. We saw snowfall on the very first night. I was excited to see snowfall for the first time. The next morning, we saw that the whole place outside was white with snow. After this, we went to Mashobra in a car that had chain-tyres so that the car does not slip. I played in the snow with my sister and parents. We had snowball fights. I made a snow castle and a snowman. We also went for a snow trek and after that had tasty hot chocolate. We stayed there for 4 days and enjoyed ourselves a lot. I will always remember the first time I saw snowfall and the fun we had as a family.

BAROG TUNNEL AND ITS MYSTERY

In December of 2021, my parents took me on a trip to Himachal Pradesh. I was looking forward to this trip as my parents had promised to take me on a toy train ride. Dharampur station was the start of the toy train ride. From Dharampur, we went to a beautiful station called Barog. Before we reached Barog, there was a long tunnel called 'The Barog Tunnel'. It is a 1.14km long tunnel. An interesting story behind the Barog tunnel is that in July 1900, Col. Barog ordered his team to dig a tunnel from both sides of a mountain. However, the tunnels didn't meet and hence, it was a wasteful exercise. The British government penalized Col. Barog. It is believed that the tunnel is haunted by the ghost of Col. Barog who had committed suicide inside the tunnel.

THE MAGIC SHOE

On a winter morning, my family and I decided to go for a picnic. We all quickly packed up all the things we would have required. We went to Barnyard and had planned to spend our day there. We were enjoying ourselves, feeding the animals and doing all the activities. When I saw white swans in the pond, I rushed to the pond to feed them and enjoyed playing with them. My elder brother also rushed with me. While we were spending our time there, I saw a little baby swan playing with a tiny shiny thing. I was curious and wanted to check it out, but, my brother stopped me from doing so. He took me away and got me engaged in activities like camel cart ride, tractor and bullock cart ride, pottery making, and portrait painting. I also experienced a head massage, henna tattoos, the Burma Bridge activity, the Commando net jumping, and much more, but my mind was stuck to that little thing in that pond when all were busy, I quickly went to that pond and found a little silver shoe. I was so happy! I got that little thing home that evening. Just after a few days, when I was holding that little shoe in my hands and was trying to fit them on my doll's feet, I saw a poor dog on the street with so many injuries. I thought I should treat the dog as it must be in pain. Then, the magic happened and the dog was fine. Yes, it was the magic shoe. I promised myself that I was going to help everyone using the magic. This thought was just getting stronger in my mind, when my mother woke me up saying, "Dear, we have reached Barnyard! It's time to wake up!"

ALL ABOUT FRIENDSHIP

Once upon a time, there were two friends named Dany and Dew. They used to fight with each other. As time passed, they started fighting more and more. Their parents saw them fighting and decided to go on a mountain hiking picnic. They reached the picnic spot and started climbing. There was a rock nearby. Dew fell on the rock and started rolling. Dany saw Dew and started running to catch him. Finally, he caught him, but, they kept on fighting with each other. Now again they started walking, but, then Dew saw a huge snowball approaching Dany. Dew punched that snowball and saved Dany. Then, they finally reached the picnic spot, where their parents appreciated them because they helped each other. They all lived happily ever after without any fight.

Moral- A friend in need is a friend indeed.

KESHAV AGARWAL

I F

VERVE: THE PATH OF LIFE

**'Verve' means living our lives with excitement,
To fill all moments with pleasure and enjoyment.**

Learning and exploring is a thrill,

Living well is God's will.

Chase a butterfly, play in the park, go up a hill,

Enjoy nature like Jack and Jill.

To be good and kind to others

Always have a happy and positive mind.

Respect your parents and teachers,

Be loving and kind to all creatures.

AYAANA KAPUR

I G

MONKEY LAND

Once upon a time, there was a forest where only monkeys lived. It was called Monkey land. They were all happy eating fruits, jumping on trees, and playing with friends. One day, they noticed some noises, like booms, crashes, and bangs. They were confused and went to see what was happening. They were surprised to find some hairless monkeys walking on two legs and wearing something colorful on their bodies (they were humans, obviously, but in Monkey land, they didn't know). These strange people built buildings all around the forest. The young monkeys were intrigued and decided to inspect them. They slowly crept in. They saw a shop full of strange, shiny packets called Cheetos. Mr. Mackey tried the orange bananas inside it, and they were scrumptious. He told all his friends, and together they ate all the orange bananas they could find. They were all overjoyed to return to Monkey land. "We had fun today", they thought. This should be done on a regular basis. But soon, their stomachs started to hurt. Their mothers were very cross with them and made them eat regular bananas in order to recover. They all vowed never to go back again.

LEGOS

Legos are my best friends.
We enjoy together till playtime ends.
It all started with my first kit,
now it's so difficult to quit.
I happily play around,
without making a sound.
To make our life fun and fuller,
Legos come in different shapes and colours.

My lego journey started with easy ones,
now I have moved on to difficult ones.

MY VIST TO AMRITSAR

Last year, I went to Amritsar with my family. We started our journey in the morning and I was very excited about this long journey by road. We reached a hotel late in the evening. The staff of the hotel welcomed us in the customary Punjabi manner.

The next morning, we had our breakfast and went sightseeing. We visited Jallian Wala Bagh and got to know about its history. Then, we went to see the Golden Temple and learned about the rituals of Sikhism. We also visited Raja Ranjit Singh Fort, where we learned about the life history of Raja Ranjit Singh through his fort's 4D film. We concluded our day by indulging in some delectable street food. My last day was quite exciting since we were travelling to the Wagah Border. It was extremely crowded, and the entire audience was ecstatic and chanted Jai Hind. The Beating Retreat was the most anticipated event I have ever witnessed, and I was a part of it. It was indeed one of the most memorable trips I have ever had.

WALK AT THE ZOO

**I visited the zoo,
To see the animals, do the zig-zag zoo.
I saw the monkeys waving at me,
And the elephants splattered water on me.
Kangaroos hopped and hopped,
Crocodiles flopped their jaws.
Suddenly, a lion roared at me,
The Pandas appeared delighted to see me.
All of the animals zig-zagged the zoo,
When I went to the zoo.**

**PAKSHIL VINIT

SAVE EARTH

**Our Planet Earth which we have to SAVE, plant more trees until the end of time.
Avoid PLASTIC and make Earth FANTASTIC.
Recycle and REUSE, and don't MIS-USE.
Turn off the LIGHTS, until it's NIGHT.
Let's REUNITE, for Earth's DELIGHT.**

**MYSHA MAHI MISHRA
II F**

SAVE TIGERS

**Tiger, tiger, majestic and tough,
Mighty, stealthy, and smart enough.
Gleaming stripes of orange and black,
Let's try to bring them back!**

**It's a thrill to watch them growl,
Don't just kill them, but let them prowl.
Let's all have the greatest pleasure,
To save and cherish this wild treasure.**

**Don't hunt them,
Don't give them stress.
Let's have some mercy,
Their population has been less.**

**Think it over!
And stop killing them.
Extinction is forever!
Let's save them.**

**SOHAM ANAND
II F**

ONE...TWO...THREE... LETS PLANT A TREE

Earth is a gift from God,
We shall protect it for the sake of all.
I put my foot down,
Not to make Mother Earth frown.
Earth is home to us,
Where all the birds sing in chorus.
It's our duty to conserve the Earth's beauty,
Global warming and melting ice.
Our future generations will pay the price!
Please follow your intuition and stop the pollution.
Because there is no other solution.
Trees are green, which makes the air clean,
So, one, two, and three...and plant a tree to make Mother Earth free!

KHUSHMITA KHANNA

II D

I AM THE SAVIOUR

I love my Mother Earth,
This is my place of birth.
Earth is very beautiful,
It makes us cheerful.
But we all are destroying it,
And I don't really like it!
Air pollution, water pollution and noise pollution!
All this is causing a lot of tension.
It's high time we do something,
Mother Earth is our everything.
Let us grow more trees,
And get lots of breeze.
Don't waste water,
Become a waste fighter.
Stop honking your car,
Walk or cycle when you don't need to go far.
Let us all come together,
And save our planet forever.

DIVIT GUGNANI

II D

THE DEEP SEA

I always wanted to explore underwater life and corals. So, this summer, my friends and I decided to take diving lessons. It was our last day at the diving school when our instructor, Ms. Sheetal, gave us a final challenge. We needed to find an oyster in the sea. Yipee! We were so excited! My friends Kuhu, Stuti, Reyansh, and I revised all the tips shared by Ms. Sheetal during the course. We wore our diving gear and quickly jumped into the cool blue sea. The sea was quiet on the outside but full of colour and energy on the inside. We passed various small fish and tiny sea creatures. They were so wonderful! I even saw 'Nemo' and 'Dory'.

After some time, we reached the sea bed, where we finally spotted an oyster shell. We were so excited! However, just as Stuti reached out to pick it up, I saw a shark coming towards us! My friends quickly picked the oyster, and all of us swam as fast as we could.

We soon found a small tunnel and hid inside it till the shark went away. We were safe but didn't know our way back and it was very dark. We didn't know what to do! Then, all of a sudden, the oyster opened and a bright light came out. We were startled and didn't know what to do. Kuhu shouted and told us to just follow the light. We did as she said, and soon, the light led us back to sea level. We finally made it back to the shore and told the whole story to Ms. Sheetal, but she didn't believe us! In fact, no one did. I still think about going back to the sea to thank the oyster. Someday, I surely will!

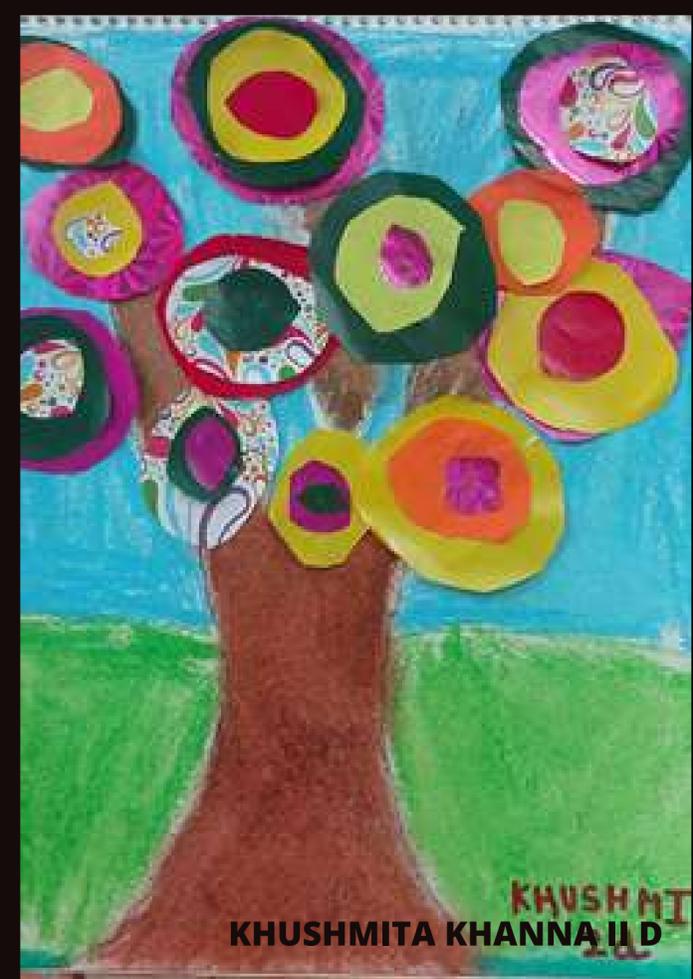

MEHER NARULA
II D

MOTHER

A mother is the one who gives us life.
Only because of our mother did we survive.
She loves us, takes care of us, and embraces us very tightly.
So my dear friends, don't take her lightly.
My mother is the whole world to me.
She protects and guides us all the time, you see.

MATHS AND PERFORMING ARTS WEEK

The Maths and Performing Arts Week was conducted from 23rd August to 27th August 2021. With the purpose of integrating Performing Arts and Mathematics, all seven multiple intelligences were infused with the mainstream logical/mathematical intelligences, which helped facilitate a more comprehensive and inclusive learning environment for the students. To further make the event more interesting and engaging, different activities were conducted keeping in mind the learning, involvement and curiosity of our little ones.

DANCING SUDOKO

23rd - 24th August 2021

Children solved a logic based educational puzzle integrated with performing arts which helped develop their critical thinking, logical and analytical skills.

MUSIC FOR BRAIN POWER

25th -26th August 2021

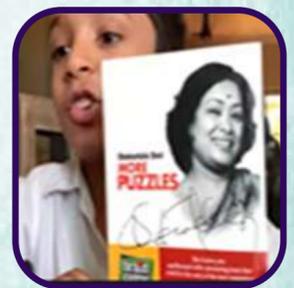

A musical session was organized in order to provide our children with all the benefits that come with exposure to music.

MARVELLOUS MATHS

26th August 2021

The importance of Maths and its use in our daily life was discussed in an assembly, titled 'Marvellous Maths'.

MEET THE SCIENTIST SERIES-2: ALBERT EINSTEIN

27th August 2021

The students were introduced to the famous German-born mathematician and physicist, Albert Einstein who excelled at Maths from an early age. They were introduced to the world of this extraordinary genius through an engaging presentation and a series of enjoyable activities.

SOCIAL SCIENCE AND SPORTS WEEK

The Social Science and Sports Week was celebrated with great fervour by the students of Grades I and II from 13th November 2021 to 18th November 2021. A host of activities were conducted to inculcate important values in the children such as teamwork, fairness, discipline and respect. Children inspired everyone by sharing their views about the role of sports in peace building and how sports bring harmony and unity along with a lot of fun.

VIRTUAL OUTING

13th November, 2021

To acquaint children with the glorious history of India, an exciting virtual tour to some of the famous monuments of India.

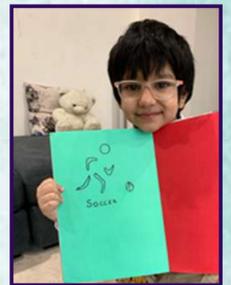

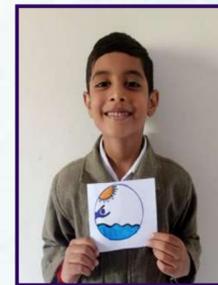

MONDAY, 15th November 2021

SDG 16 - PEACE JUSTICE AND STRONG INSTITUTIONS

An audio visual session was conducted to help the students understand the importance of SDG 16.

LOGO MAKING ACTIVITY (Grade I)

The students used their divergent thinking skills to create amazing Olympics logo of their favourite sport.

POSTER MAKING ACTIVITY (Grade-II)

Children tried their hands at poster making for Olympics to promote peace, justice and equality.

SOCIAL SCIENCE & SPORTS WEEK ASSEMBLY

18th November, 2021

A virtual assembly was conducted by the students of Grade-II F on the topic, 'The Prince and the Seedlings'. The children amalgamated the Social Science and Sports week by sharing some of the teachings of the Father of the Nation, Mahatma Gandhi, the former president, late Dr. Abdul Kalam and a famous sportsperson Rahul Dravid in the assembly.

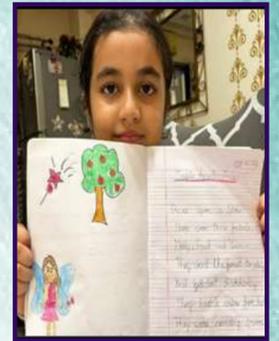

ENGLISH AND ICT WEEK

The virtual 'English and ICT Week' was celebrated from 25th to 29th October 2021 by the students of Grades I and II. Many activities were conducted to encourage out of the box thinking in children. The fun-filled activities greatly helped students to hone their English language skills.

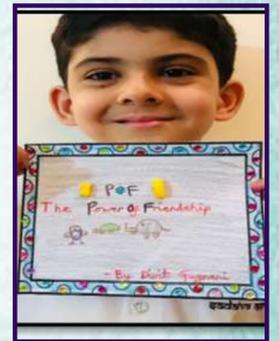

'BUDDING AUTHORS' (GRADE-I)

Students were asked to don their thinking caps and pen down a short story that involved characters like dragons, mermaids, unicorns, fairies or an imaginary/real friend.

'A BOOK COVER'(GRADE I)

Students gave wings to their imagination and designed interesting book covers. They drew impressive characters with illustrations to depict their story.

FUN GALORE! (GRADE-1)

Children dressed up as their favourite story character such as Cinderella, Rapunzel, Hansel, Gretel, Pied Piper, Winnie-the-Pooh etc.

POEM RECITATION -'I AM A SAVIOUR' (GRADE-I)

Children used their thinking skills to recite a self-composed poem to save planet Earth.

ENGLISH & ICT WEEK ASSEMBLY(GRADE-I)

Thursday, 29th October 2021

Students of Grade -1 presented a virtual assembly on the topic "Father of English Literature". They discussed about Geoffrey Chaucer, the Father of English Literature as well as other notable authors such as Shakespeare, J.K. Rowling, Enid Blyton and their significant contribution to the English language.

(GRADE-II)

A virtual assembly was conducted by the students of Grade-II on the topic, 'Elements of a Story'. They shared the important ingredients that are required to make up a good story like a normal setting, a couple of everyday characters- a protagonist and an antagonist, a conflict, a climax and a resolution.

हिंदी दिवस -कला गतिविधि

छात्रों को हिंदी दिवस के बारे में जानकारी देते हुए एक मातृभाषा के गीत से सत्र की शुरुआत की गई। छात्रों को वर्णमाला के सही उच्चारण के लिए मुख के कुछ विशेष अंग कंठ, तालु, दाँत, होठ और नासिका के नाम और उच्चारण स्थान बताये गए। अंत में छात्रों का जोश जगाने के लिए हिंदी दिवस पर सुंदर चित्र दिखाया गया।

छात्रों ने भी उत्साह से अपने चित्रकारी को स्वयं रचनात्मक तरीके से बनाया और सांझा किया।

हिंदी दिवस कविता गायन गतिविधि - कक्षा १

हिंदी दिवस पर कक्षा १ में वीर रस पर कविता गायन गतिविधि का आयोजन किया गया। छात्रों ने बारी-बारी से वीरता पर अपनी-अपनी कविता जोश (वर्च) के साथ सुनाई।

हिंदी दिवस आशुभाषण गतिविधि - कक्षा २

हिंदी दिवस पर कक्षा २ में आशुभाषण गतिविधि का आयोजन किया गया। जिसके लिए छात्रों को नवीन व जोश से भरे हुए विषय दिए गए। छात्रों ने विषय के अनुसार कभी उत्साह से भर कर तो कभी विषम परिस्थितियों से निकलने के उपाए स्वयं सोच कर अपने विचार सांझा किये। इस प्रकार छात्रों के वाचन कौशल का विकास हुआ।

SPECIAL ASSEMBLIES

The students of Grade II-A conducted the Virtual Parent Assembly on 12th August, 2021. The theme of the assembly was Independence Day. The students presented a small skit on India's relentless struggle for freedom and how our freedom fighters sacrificed their lives to free India from the British rule. They enthralled everyone with their excellent performance. The National Anthem was played towards the end as a mark of respect for the country and to pay tribute to the fallen soldiers.

A special assembly was conducted by the students of Grade II -C on Thursday, 16th September 2021. The title of the assembly was "The Leap Year". The central aim of the assembly was to introduce and teach the concept of a leap year and how they were formed. The concept was taught in an age appropriate and child friendly manner with the help of various props in order to make the learning process fun and fruitful. The assembly concluded with a quiz and a splendid dance performance by the students.

The talent of the vivacious students of Class I-D was showcased through their special assembly on Thursday, 20th January 2022. The theme of the assembly was 'Life below Water'. The assembly demonstrated the 14th Sustainable Development Goal, "Life below Water", which is one of the 17 Sustainable Development Goals established by the United Nations in 2015. The children performed a skit on blast and bomb fishing followed by a scintillating dance performance.

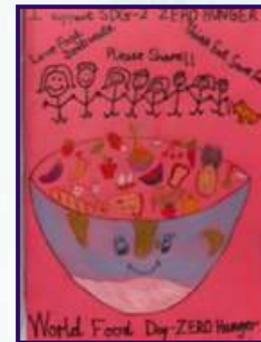

SPECIAL EVENTS

The Sustainable Development Goals (SDG) are a collection of 17 interlinked global goals adopted by the United Nations in 2015, which are to be achieved by 2030. Since today's children are the future of tomorrow, it is imperative that they should be aware of these sustainable goals. This will enable them to be part of a sustainable future. Keeping this thought in mind, various activities were conducted to make students aware of these sustainable goals.

SDG 2 - ZERO HUNGER

The children were introduced to the Sustainable Development Goal -2 in an interesting and playful manner. A poster-making activity was conducted wherein students shared different ways to overcome the 'Zero Hunger' challenge in the country.

SDG 13 - CLIMATE ACTION

The children were apprised of SDG 13 - Climate Action. Children were asked to share ways in which they can help achieve this goal and they depicted the same artistically by making posters.

UNITED NATIONS DAY

The United Nations (UN) Day was celebrated by the students of Grades 1 and 2 on Monday, 25th October 2021. Children were informed of what United Nations stands for and how it came into existence. They were also briefed about all the Sustainable Development Goals established by the United Nations.

CHRISTMAS CELEBRATION

To celebrate the spirit of Christmas, an array of activities were organized for the children. They enthusiastically participated in all the activities and many students demonstrated their musical talents by singing their favourite Christmas carols. The story of the birth of 'Jesus Christ' and the legendary character, 'Santa Claus' was shown through multimedia channels in order to help them understand the importance of Christmas.

CHRISTMAS SPECIAL FIRELESS COOKING ACTIVITY

No festival is complete without preparing special delicacies, so the students donned the cap of a chef and made a healthy fruit Santa using fruits, marshmallows, gems etc. They savoured the Fruit Santa and also shared it with their family members.

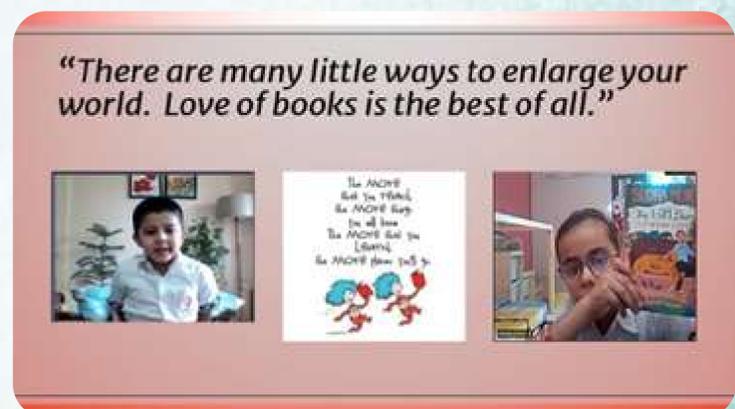

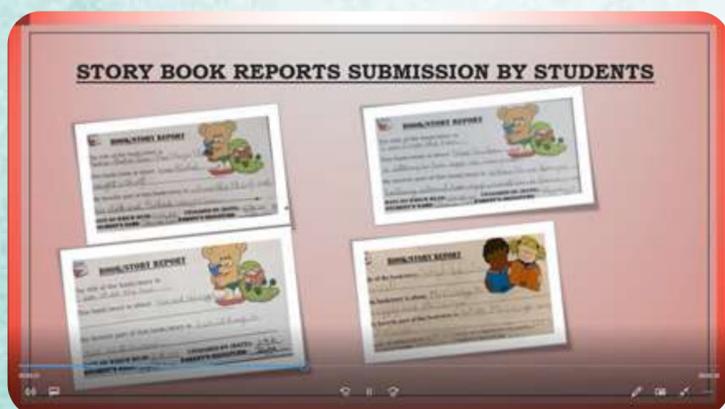

REPUBLIC DAY CELEBRATION

To celebrate the patriotic fervour and to invigorate creativity, a virtual Republic Day was celebrated on Tuesday, 25th January 2022. The students were encouraged to present an act/ song /dance /poem etc. for the special occasion. Children dressed up in tricolour attires and gave wonderful performances.

READING GRAND PRIX

To reinforce the reading habit in children, a month long reading drive, the 'Reading Grand Prix' was conducted in the month of August. Children were asked to read every day from the collection of short stories that were mailed to them. They were also given the option to read from books of their own choice. A half an hour slot was allocated on a daily basis for them to read under the supervision of a teacher.

INTER-SCHOOL COMPETITIONS

Nyra Khandelwal of Grade I participated in an Inter-School Virtual Competition, 'Emergence Series VII', organized by Cambridge International, DAV Public School. She participated in the 'Onomatopoeic Words' event and won the first position.

Dhruv Dawar of Grade I participated in 'XIX Brem Dutt Memorial Pan India Inter School Competition 2021' organized by Cambridge Foundation School. He performed in the 'Yin and Yang', a live event, and presented a humorous enact depicting the presence of both the male and female gender in one human body. He gave a commendable performance and brought laurels for the school by securing the first position.

Tiyasha Saha of Grade II participated in an Inter School Solo Singing Competition 2021, GSP FEST, 'Utsav -E - Hind'. She captivated the audience with her rendition of a patriotic song. She brought laurels for the school by securing the third position.

Preesha Shrivastav of Grade II participated in an Inter-School Virtual Competition, 'Let's Investigate', organized by Cambridge International, DAV Public School. She gave a wonderful presentation on the different properties of wood, glass and rubber. She did the school proud by securing the first position in the event.

RISHABAYYAN IVC

THE BEST USE OF IMAGINATION IS CREATIVITY

Save Nature's Verve

Once the earth was quite different. Woolly mammoths roamed around freely - that is, when they were not being chased by saber tooth tigers. Back then, the sea levels were higher, making it a perfect habitat for giant octopuses. Thousands of years later, the first humans began to appear, and the earth began to change. Sea levels shrank and ice started building up in the poles. Meanwhile, slowly humans got smarter. We built things and started inventing amazing stuff to make life better. In the process, we generated harmful gases like carbon dioxide that trapped heat from the sun and kept it close to the earth. Giant ice sheets started to melt, adding more fresh water to the oceans. The earth started getting warmer. Very soon, some places will get hotter and drier, while others will experience more rain and floods. Yes, we are making our lives more comfortable, but at a huge cost. We are spoiling the earth's biodiversity - nature's verve.

Imagine how dull life would become without the colours of nature. We are already losing the magic of the oceans as the coral reefs are turning white. This also means that many ocean creatures are losing their homes. Our forests are being cut down at such a rate that we will hardly have any trees left where once thick forests stood. We can really think about how every small step to save the earth can have a big effect in saving nature's verve.

**ISHAAN SENGUPTA

My Birthday Month

Birthdays are always very exciting! I started planning for mine one month before my birthday. I ordered some clothes. I made a ten-day schedule to plan before my birthday. I started inflating balloons so that I could put them on the wall one day before my birthday. We made a chocolate cake. I invited my family and friends. I invited them on the second of June, but my birthday was on the twenty-fifth of June. We ate cake, chips, potato bites and rice, I was excited to play with my friends and cousins after the lock down. It was my twin brother's birthday also on the same day. I am already waiting for my next birthday!

**Rannvijay Singh Jakhar
III F**

My Holi Celebrations

One day before Holi, I woke up and got ready to go to my grandmother's house. Then I sat in the car and went to my grandmother's house. My father dropped me there, and when we reached, my grandmother opened the door and I went inside the house. I stayed there for a night and the next day my grandmother made halwa for breakfast. I filled my water gun and my cousin sister also came down to play and we all played happily. Festivals are really enjoyable when celebrated with grandparents!

**Rajdeep Singh Jakhar

Summer

**Summer has arrived
It is time to have
fun in the sun and
be cool in the pool!!
Out of all the seasons,
Summer season is supreme coz
we get to eat ice cream!!
The sun goes late,
so, we play till eight!! BINGO!!
It is time to eat MANGO!!
It is time to enjoy coz
we play a lot with toys!!
Oh dear! I wait for this time every year
coz this is the most fun time of the year!**

**MANSH KHETARPAL
III-D**

It's Summer!

**It's Summer! It's Summer!
The sun shines bright and hot,
Drink chilled water from a clay pot.
Time to switch on the AC and fan,
Drink chilled juice from a can
It's Summer! It's Summer!
Eat juicy mangoes and watermelon,
Make lemonade from lemon.
Don't step out without sunscreen,
Enjoy tasty ice cream.
It's Summer! It's Summer!
If you want to get cool,
Go and splash in the swimming pool.
Have fun in summer vacation,
Go to a hill station.**

**Swasti Verma
III-F**

Life- The Most Priced Possession

Have you ever sat and thought about what your most prized possession is? Is it a toy, or an electronic device, but you may not have thought of 'life' as the most prized possession? If life ends, you cannot get another life unlike everything. Even the touch of a virus can lead to loss of life within days. So even a small mistake can do so much harm, thus this shows that life is very fragile.

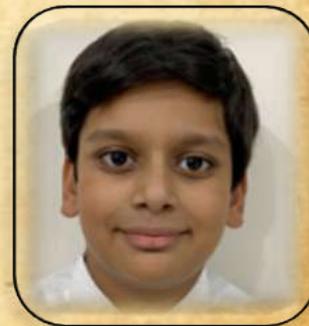

So, we should live each moment with happiness. Let me share with you everything that transports me to my happy space.

Running- my inspiration for running is from a movie called 'Sonic the Hedgehog' (the movie is about a supersonic hedgehog) so these days I want to run from the second I wake up to the second I sleep.

Arts- I love to draw, that helps me feel good plus I am enhancing my hand and eye coordination.

Music- Music makes me feel so alive so I engage in dancing, listening to lots of different genres of music, singing. You too can find your favourite things to do, so that you can live with joy and gratitude.

Live your life with happiness and forget the rest.

**YUAN CHOUKIKER
IV D**

IT'S LIFE

Life is an odd thing. It can throw whatever it wants at you, anytime! Though, the funny thing is that everyone has a different story to tell. Some people wear their heart on their sleeve, while others could have a chip on their shoulder they cannot let go. Who knows, someone might just be the elephant in the room!

These days, we all have lost more than half of our hope.

Oh, it is like being stuck in never ending traffic.

You can't go forward or backward, but you know ...

YOU WILL GET THERE SOMEDAY!!!!

Now a good deed equals a good treat!

We might not be able to stop the bad, or save every life

But we can make a tiny change to someone's life.

I donated some of my things to people who need them more than I do. Feeling I get when I do this is unbeatable!

Kindness is like confetti; you need to spread/throw it around!

Life like I said is VERY odd, but you are the only one who can make it worthwhile!

Nature

Nature is always bright, colourful and right!

While some are plants, others are animals,

together they make a beautiful sight.

Everything is dependent on each other,

Sons and daughters are planted with great mothers.

**Geet Gera
IV A**

**PULKIT JAIN
IV D**

Anne of Green Gables

Recently, I've read a lot of books, like Sinbad and Gulliver's Travels. Even though these are very well written, I felt as if Anne of the Green Gables book has a lot more meaning for us as humans and as a society. Anne is very different with freckles and carrot red hair. I had already read this book in the past, but there's just something about it that keeps making me read it again and again. One of my favourite parts of the story is when Anne renames some places in Avonlea. Anne is such a dear character, and her limitless enthusiasm is one of the best perspectives of the story! She has spent so long in the horrible orphanage; she is really brave after everything she has been through. Though it was a great read, sometimes I feel that Anne can be too emotional. It was amazingly written, sometimes bringing a grin on my face, or making me feel as if the whole book was heartbreaking! That is the magic of the writer's pen!

**NAAMYA WALI
V E**

JUSTICE IS SERVED

**Con artist Adrian,
Was a man with no thought,
When he spoke he said
he wouldn't get caught.**

**But little did he know
Someone knew his game
He never bothered,
Racking his brain.**

**That 'someone' knew something was wrong
When she rattled the container
And no sound came out.**

**One day she asked
"Where are the products, Mister?"
"Mind your own business, little sister."
Then she found,
Someone to assist her.**

**Soon after,
Adrian was caught
The police threw him in jail
And never gave him another thought.**

**AHANA CHATURVEDI
V A**

Water is precious

**Life below water is precious,
Don't destroy it, don't get ferocious!
Oceans give us hydroelectricity,
We pollute them with toxicity.
You eat many fishes,
Though they get many stitches.
We make medicines out of fishes,
They are tired of the stitches.
Fishes give us oil,
We hurt them with a coil.
Life below water is precious,
Don't destroy it, don't get ferocious!**

**SIDDHARTH GUPTA
V G**

Destiny

**Let's stand up for life under the sea
We have to face reality
Save the oceans, save the seas
Or the sea creatures have no destiny.
This is our planet that we all share
With other living creatures
Who need love and care!
They swim free
They live their life
But we cause them grief and strife
Goopy water, smoke and tar
That's all we can see so far!
Save the oceans, save the seas
Let's give the sea creatures a destiny.**

**NAAMYA WALI
V E**

Nature's Beauty

Everything is nature,
God gave us this feature
Birds fly in the sky,
The mountains are so high.
Natural beauty is so enticing,
It's so mesmerizing.
The vivid oceans and the sky,
They look so good and high.
The rivers look so calm and inviting,
Diving into them is just as exciting
The trees are there every day,
And under them you can play.
The mountains act as a strong barrier,
Just as strong as a mighty warrior
Nature is everywhere you go,
Everything in it lives and grows.

AARNA TANEJA
VI D

Up in the sky

When you look up in the sky,
You'll see the birds fly.
Do you want to know why?
Because they have wings to fly,
Up in the sky.
Because they have wings to fly,
Up in the sky.
They have little blue eyes,
But they can see the worldwide.
Do you want to know why?
Because they have wings to fly
Up in the sky
Because they have wings to fly
Up in the sky.

BANAJ BANSAL
V G

Get Ready

**Wear your shoes,
And get ready for the day
Take your racket,
And start to play.
Now take the serve,
And do a smash,
And if the opponent gives it back,
Then drop the shuttle with a little tap.
When your opponent hits the shot,
Then hit that shuttle,
With a lot of power,
Like a hot tea kettle.
Play Badminton with a lot of concentration,
And soon you can play for the nation!**

**KESAR MALIK
V B**

Verve

**Sitting by the window, I couldn't understand what
was verve, as I was thinking,
I saw a boomerang coming back in a curve,
It shattered my window
Like an arrow, invisible to my eyes,
It made me blink twice.
I thought about the boomerang,
Something in my mind just rang.
I went hopping around my house,
My heart thumping, I think it is verve
It is the spirit, and enthusiasm
So, we must preserve...
Life is full of challenges,
Verve and enthusiasm are what brings it all.**

**ANVI SOMANI
V F**

Importance of trees

**A giver of life,
A provider of food.
A home for monkeys,
That are often rude.**

**Nurtures like a mother,
Laden with flowers.
Provider of oxygen,
Twenty-four hours.**

**Tall, leafy, friendly,
Green, bushy, kind.
A home for many,
Which they find.**

**DIYA SARAF
V E**

Verve

**Enthusiasm for studies,
Enthusiasm for sports,
Makes a child healthy and stealthy.
Verve took a down-curve with Covid,
But technology has made things
possible,**

**For nothing is impossible with verve
and courage.**

**We all need to fight this wave of Covid,
With enthusiasm and courage.**

**We should stay at home and be safe,
For we don't know what is unsafe.**

**Once Covid is over,
We can follow our enthusiasm and be
successful.**

**SIDDHARTH GUPTA
V G**

Beautiful Nature

**Nature is so beautiful,
We are the ones who make it look
like a demon.**

**Come on, why do we make the
earth suffer?**

**Because the earth will make us
suffer one day!**

**Just discard that plastic
Let the environment be clean and green.
Days are now a rat race for existence,
We are harming the environment.
Urbanization hasn't helped anyone,
That's why all the demons have won.**

**DEVANSH GHOSH
VI A**

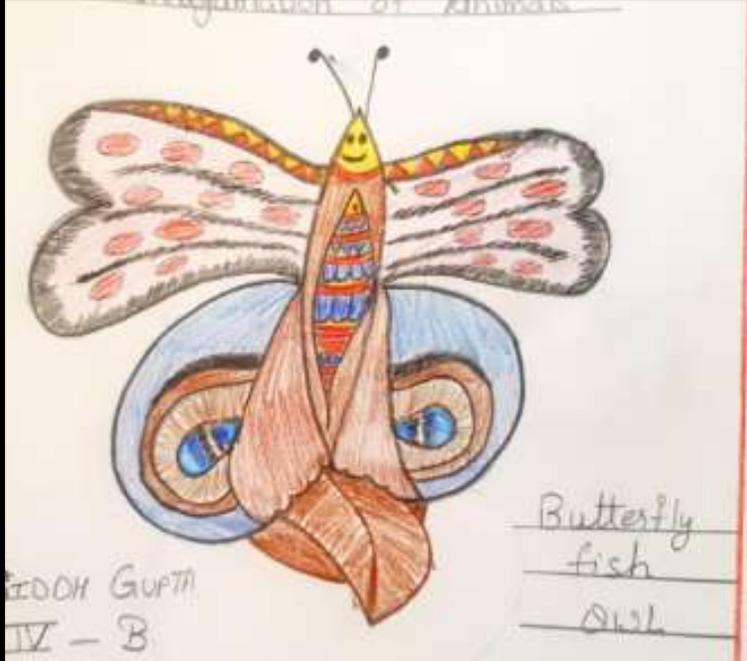

Vim and Verve

**I was walking by the street and
saw a little girl
Full of enthusiasm and verve.
I loved her smiling little curve,
Everything you do should be
with verve.**

**MAHIRA MARWAH
VI F**

**Life gives you happiness,
because that's what you deserve.
Love hard and enjoy every moment,
Stay happy because nothing is
permanent.**

संपादिका की कलम से 0000000000

आप सभी के समक्ष प्रस्तुत है इस वर्ष की पत्रिका | पिछले वर्षों की तरह यह साल भी हमारे ज्ञान, समझ और भावों में नई ऊर्जा को विकसित करने में सफल रहा है | बच्चों के नन्हें मन की उड़ान जहाँ एक ओर खुले आसमान में विचरण करती है, वहीं हिंदी शब्दों का जादू इन्हें पंख देता है फिर चाहे समाज की अच्छाई हो या बुराई कुछ भी इनकी कलम से अछूता नहीं रहा है | नई रचनात्मक सोच, नए ख्याल, नए उद्देश्य तथा अपनी बात कहने की सरलता इनकी रचनाओं को एक अलग ही स्तर पर पहुँचाता है | उम्मीद है इन नन्हें रचनाकारों का प्रयास आपको पसंद आएगा |

शुभकामनाओं सहित !

ज़मी को जादू आता है....

पानी बाढ़ का झटपट सोख लेती है
कभी कुएँ, कभी नदियाँ सभी निचोड़ लेती है
ज़मी को जादू आता है
सहनशीलता हो, चाहे बाँटना हो रस पेड़ों को
सभी कामों में अपना तनमन डाल देती है
ज़मी को जादू आता है
फसलों का लहलहाना हो या बीज से अंकुर बनाना हो
चिपचिपे कीचड़ में या फिर कमल को उगाना हो
सभी कुछ तो सरलता से जुगाड़ लेती है
ज़मी को जादू आता है
यहीं नहीं जब लेती है विकराल रूप
समा लेती है पूरा गाँव, नगर ही अपने अंदर
इसे छिपाना भी तो आता है
इंसानों को दफना दो ये उसे भी पचा लेती है
ज़मी को जादू आता है
न करो खिलवाड़ इससे तुम
क्योंकि इसे बदला लेना भी तो आता है
ज़मी को जादू आता है
ज़मी को जादू आता है ||

मेरा परिवार

सब मिलकर जहाँ हैं रहते, उसको प्यारा घर हैं कहते
सबके दिल जहाँ मिलकर रहते, उसे परिवार हैं कहते
दादाजी हैं सबसे बड़े, सबसे आगे जो हैं खड़े
कभी भी कोई मुश्किल आए, दादा जी उसे सुलझाएँ
दादी जी भी करती खूब दुलार, देती सबसे अधिक
प्यार

जब भी उनकी याद आए, वह फट से घर आ जाएँ
पापा- मम्मी सबसे प्यारे, दुनिया में हैं सबसे न्यारे
करते सारी इच्छा पूरी, कभी न हो इनसे दूरी
भाई होता है वरदान, मेरा भाई है मेरी जान
ऐसा परिवार मिला हैं मुझको, दिल से शुक्रिया है उस
रब को ||

जीवन

जीवन का हर पल हर्ष से जी
हर गम का प्याला क्षमता से पी
न जीवन से तू इतना डर
जोश अपने दिल में भर
एक दिन तो हार भी मानेगी हार
हौसला और साहस तुझे लगाएगी पार
तेरी उमंग और उत्साह के तराने होंगे
बस तुझे अच्छी ऊर्जा के स्रोत बनाने होंगे
तेरी प्रफुल्लता तेरी ताकत है आज
यह छोटी-सी बात समझ ले समाज ||

तीन - इ

नए देश की खोज

मैं जहाज़ी लेकर निकला अपना जहाज़ उत्साह के साथ
और मिला मुझे क्षमता से भरे दोस्तों का हाथ
निकल पड़ी थी नाव अपनी खोजने नया देश उमंग के साथ
साहस से लड़ रहे थे हम ताकतवर लहरों के साथ
कभी लहरें डराती थी, कभी मौसम बिगड़ता था
बस चारों ओर अँधेरा ही अँधेरा था
उस विराने में केवल क्षमता और साहस ही तो मेरा था
हवा को चीरता ये जहाज, कहाँ है आ पहुँचा
नई ज़मी, नया आकाश, नया संसार अपना है
खोज डाला है हमने जो नया देश अपना है
तिरंगा लहराया अपना नई ऊँचाई हमने पाई है
देखो यारों हमारी एकता से की मेहनत आज रंग लाई है
तारों की बारात स्वागत करने धरती पर आई है ||

तीन - इ

उमंग

नया वर्ष है नई उमंग है
नया जोश है जीवन में
कठिनाइयों को भगाने का हौसला भी है मन में
साहस से हम बढ़ते जाएँगे
अपनी ताकत और क्षमता से
जग में नया सवेरा लाएँगे
हर्ष, विश्वास और प्यार की बहार
जग में फिर से लाएँगे
मिलकर दुनिया में फैले
कोरोना वायरस को हम हराएँगे
अपनेपन और दयाभाव से
विश्व में नई क्रांति का तेज़ फैलाएँगे
मिलकर दुनिया में फैले
कोरोना वायरस को हम हराएँगे ||

नन्हें-मुन्हें

नन्हें-मुन्हें प्यारे बच्चे हम
रोज़ सवेरे उठते हैं
जल्दी-जल्दी फिर उत्साह से सारे काम हम करते हैं
सबसे पहले अपनी क्लास है
मैडम की बातों को जोश से सुनते हैं
स्कूल की सारी पढ़ाई
बड़ी ही उमंग और ऊर्जा के साथ करते हैं
रोज़ सुबह सवेरे तितलियों को उड़ते देख
फूलों को खिलते देख मुझे मिलता है साहस
मम्मी, पापा और बहन के संग मस्ती करते हैं
जब होती है गरमी की छुट्टियाँ
हर्ष और उल्लास से भरते हैं
नन्हें-मुन्हें प्यारे बच्चे हम
रोज़ सवेरे उठते हैं ||

काव्या पुलुगुरति
तीन-स

मन में उत्साह

दुनिया में कोविड आया है
साहस और जोश से जिसने हमको लड़ना सिखलाया है
इस बीमारी को दूर हम भगाएँगे
कदम से कदम मिलाकर इस जंग को जीत जाएँगे
धीरे-धीरे ही सही दुनिया को फिर से जीने योग्य बनाएँगे
आकाश की शुद्धता और पानी की स्वच्छता फिर से लौटाएँगे
बिगड़े सभी कामों को फिर से बनाएँगे
बच्चों के नन्हें कदमों को स्कूल की राह दिखाएँगे
बाज़ारों की रौनक लौटाकर फिर से खुशहाली फैलाएँगे
कदम से कदम मिलाकर इस जंग को जीत जाएँगे
धीरे-धीरे ही सही दुनिया को फिर से जीने योग्य बनाएँगे ||

वाह रे ! बचपन

वाह रे ! बचपन, वाह रे ! बचपन
कितना प्यारा, कितना सुंदर
जोश और उमंग से भरपूर
जैसे हो बारिश की धूम
मैं खुशी से झूम-झूम
कभी न जाने देंगे बचपन का जोश
क्योंकि यही तो है जीवन का कोश ||

शनाया सुनेजा
तीन-स

हौसला

मंज़िल पर पहुँचना है
तो हौसला बुलंद कर लो
राह में काँटे हैं
तो साहस को संग कर लो
मंजिलें उसी की होती हैं
जिनमें उत्साह होता है
मंज़िल पर पहुँचना है
तो हौसला बुलंद कर लो ||

संकल्प खजूरिया
तीन-स

हौसला

आज है समय हौसला रखने का
उत्साह से जीवन में आगे बढ़ने का
आएगा समय फिर से उमंग भरा
मिलना-जुलना होगा फिर से हर्ष भरा
ऊर्जा से होंगे काम सभी
विद्यालय जाएँगे बच्चे तभी
जोश से पढ़ाई पर ध्यान देंगे
प्रफुल्लता से यात्रा करेंगे वायुयान में
फिर से आएगा नवयुग
खत्म होगा ये कलयुग ||

वर्षा ऋतु

टप-टप गिरता पानी भूमि पर
ज़मीन को छूता कीचड़ से मिलकर
काले बादल से बूँदें टपकती
सब लोगों के छाते खुलते
मोर नाचते भीगते-भीगते
बच्चे सारे कीचड़ में कूदते
जहाँ बूँदें पत्ती को छूती
वहाँ हरे-भरे पेड़ खुश होते
किसान आसमान को धन्यवाद देता
फूल खिलकर मुस्कुराएँ
बहुत दिन बाद वर्षा आई थी
पृथ्वी पर लोगों ने दीये जलाए
नदियाँ वापस बहने लगी
धरती पर सुंदरता वापस आई ॥

ऊर्जा (वर्ष)

सूरज की किरणें ऊर्जा के साथ आती हैं
सारी कलियाँ जोश से खिल जाती हैं
तेज़ अंधकार से सब खो जाता है
उमंग से सब जग सुंदर हो जाता है
चिड़ियाँ साहस और ताकत से गीत गाती हैं
हर्ष से ठंडी -ठंडी हवा सुहानी चलती है जैसे मस्तानी
यह प्रातः की सुख बेला है
धरती का सुख अलबेला है
नई ताज़गी, नया हौसला, नई क्षमता पाते हैं प्राणी
खो देते हैं आलस सारा
उत्साह से करते हैं काम अपना
अगर सुबह भी अलसा जाए
तो क्या जग सुंदर हो पाए
सूरज की किरणें उर्जा के साथ आती हैं
सारी कलियाँ जोश से खिल जाती हैं ॥

वर्षा

वर्षा आती है
बड़ी मस्ती फैलाती है
काले बादल आए
खूब पानी बरसाए
मोर नाच दिखाए
सारे छाते खुल जाए
वर्षा आती है
बड़ी मस्ती फैलाती है
मस्त पकौड़े खाए
बिजली चली जाए
हवा तेज आए
हरियाली फैलाए
वर्षा आती है
बड़ी मस्ती फैलाती है
टप-टप बूँद बादल गिराए
घर में सब बंद हो जाए
मेंढक शोर मचाए
सब को मज़ा आए
वर्षा आती है
बड़ी मस्ती फैलाती है ॥

सभी के लिए स्वच्छ पानी और स्वच्छता

एक सुबह एक समूह खुशी-खुशी यमुना नदी के किनारे चल रहा था। तभी उन्होंने एक महिला के रोने की आवाज सुनी। समूह ने उस तक पहुँचने की कोशिश की लेकिन, वे नहीं कर सके क्योंकि महिला नदी के दूसरे छोर पर थी और कोई पुल नहीं था। इसलिए उन्होंने तैरने का फैसला किया लेकिन जैसे ही उन्होंने पानी में कदम रखा एक तेज आवाज ने उन्हें रोक दिया। यह वह महिला थी जिसने कहा था " यह नदी प्रदूषित है और यह आपको नुकसान पहुँचाएगी"। वे तुरंत रुक गए और उससे पूछा, "तुम कौन हो और क्यों रो रही हो?" महिला ने उत्तर दिया मैं यमुना देवी हूँ। हर कोई किसी न किसी तरह से मुझे प्रदूषित कर रहा है। बच्चों ने कहा - "आप एक पवित्र नदी हैं हर कोई आपको प्रदूषित क्यों कर रहा है?" देवी बोली, "वे मुझे अपनी जरूरत के अनुसार इस्तेमाल करते हैं। जैसे नहाने, कपड़े धोने, कचरा फेंकने सभी औद्योगिक प्रदूषक भी सीधे डाल जाते हैं, मैं मर रही हूँ।"

बच्चों ने कहा, "चिंता न करें हम वादा करते हैं, कि अभियान चलाकर और जागरूकता फैलाकर आपको बचाने की पूरी करेंगे।" देवी यमुना ने सकारात्मक आशा के साथ उनका धन्यवाद किया। कुछ दिनों बाद लोगों की एक टीम हर दूसरे दिन खुशी-खुशी यमुना की अनमोल नदी की सफाई के लिए आने लगी। कई होर्डिंग लगाए गए। अब लोगों ने यमुना को प्रदूषित करना बंद कर दिया।

टप-टप गिरता पानी

टप-टप गिरा पानी
लीकेज हुआ भारी
हुआ यह पानी बेकार
जब कि हो सकता था पौधों में इस्तेमाल
लोगों को यह नहीं समझ आता
कि पानी पेड़ों पर नहीं उगता
पानी जीवन का है एक अनमोल रतन
तो फिर हम मनुष्य, इसको बचाने के लिए क्यों नहीं करते जतन ?

दीया सराफ़

हाथी दादा

एक बार हाथी दादा ने
खूब मचाया हल्ला
चलो तुम्हें मेला दिखला दूँ
खिलवा दूँ रसगुल्ला
मेला देख उन्हें लगा एक झटका
आश्चर्यचकित हो गए वो
जैसे उनके सर पर फूटा हो मटका
दादा को देख हम हँसने लगे
खूब आया मज़ा
जब हमने खिलाया रसगुल्ला
उन्हें भी आया मज़ा
अब हाथी दादा शोर नहीं मचाते थे
और रोज़ एक रसगुल्ला खाकर जाते थे।।

खेलकूद

हमें चाहिए, आज चाहिए
खेल-कूद की आज़ादी
हमको टोको न, हमको रोको न
क्रिकेट खेलेंगे, बैडमिंटन खेलेंगे
भाग-भाग के भवरों को भी पकड़ेंगे
नीली, पीली, लाल, गुलाबी साइकिल पर गुनगुनाते हुए
हम गाड़ियों के पीछे अपनी साइकिल की घंटी बजाएँगे
हमको रोको न, हमको टोको न
हमको खेलने दो जी भर के अब
हम अपना सारा काम पूरा करते हैं
बस दो घंटे की छुट्टी दो
बस दो घंटे की छुट्टी दो
हमको रोको न, हमको टोको न।।

जलीय जीवों की सुरक्षा

मछली जा चढ़ी पेड़ पर
बोली अब न नीचे आऊँगी
पहले साफ कराओ पानी
नहीं तो मैं मर जाऊँगी
बना घोंसला पेड़ों पर
वनसुगों संग रह जाऊँगी
गंदे कचरे वाले जल में
बोलो कैसे जी पाऊँगी
सुंदर-सुंदर पंखों वाली
कीचड़ से मैं, सन जाऊँगी
गंदे पानी में रह कर
जल की रानी कैसे कहलाऊँगी |

माँ प्रकृति

एक ही माँ है एक प्रकृति
देती आई सदा हमें
बिन माँगे कुछ हमसे वापस
दिया जीवन का उपहार हमें
मानव ही ना, वृक्ष, जीव और
जंतु भी उसके बच्चे हैं
लेकिन हमें न उसकी चिंता
उनके घर तोड़े खुद के लिए
माँ का आँचल मैला कर के
हम खुद यूँ मुस्काते हैं
वन, नदियाँ, पर्वत, हरियाली
सब सूना करते जाते हैं
पक्षी चहके न आँगन में
ये कैसा सन्नाटा है ?
सागर के जंतु त्राहिमाम
प्लास्टिक में लिपटे जाते हैं
धुएँ का आलम ऐसा है
साँसों का आना मुश्किल है
पेड़ों को तो हम काट चुके
अब ऑक्सीजन मशीन लगाते हैं
बस बहुत हुआ अब, संभल भी जाओ
खुद के लिए और सबके लिए
आने वाली पीढ़ी जान ना पाए
जो सुख हमको उस माँ ने दिए
आओ मिलकर वृक्ष लगाएँ
वापस खुशहाल मौसम बनाएँ
उस मुस्कान को वापस लाएँ
अपनी माँ को फिर से मनाएँ
धरती को फिर स्वर्ग बनाएँ ||

बेटियाँ

माँ दुर्गा की शक्ति हूँ
मैं भी पढ़-लिख सकती हूँ
बेटी के प्यार को कभी आजमाना नहीं
वह फूल है कभी रुलाना नहीं
बेटी एक वरदान है
वही तो देश की शान है
घर में खुशियाँ वो बरसाएँगी
हर दुःख को दूर भगाएँगी
बेटियों की तो बात ही निराली
तभी तो वो लगती है प्यारी
जब इनकी मुस्कान खिले तो
लगती है खिली है फुलवारी
घर की शान होती हैं बेटियाँ
पिता का गुमान होती हैं बेटियाँ
देवी का रूप देवों का मान होती हैं बेटियाँ
घर को जो रोशन करें वो चिराग होती हैं बेटियाँ ॥

माँ

माँ की तो हर बात है निराली
अपने बच्चों की शरारतें लगती हैं उसे प्यारी
फूलों सी उसकी मुस्कान
बढ़ा देती है हमारी शान
अपने सपनों को त्यागकर, दिन रात काम
करती वो
हमारी हर ख्वाहिश पूरी करने में हमेशा जुटी
रहती वो
बिना बताए सब कुछ जानती वह
मेरी हर तकलीफ़ को पहचानती वह
मेरे हर दुःख में उसे अपना दुःख दिखता है
मेरा हँसना उसके हँसने का कारण बनता है
जब तक है थामा उसने मेरा हाथ
तब तक नहीं छोड़ेंगी सफलता मेरा साथ ॥

पानी में डर-सा लगता है

अंतरिक्ष

बचा लो मुझे दम घुटता है
पानी में डर- सा लगता है
वो घर था मेरा सुनहरा भला- सा
ज़हर घुल गया सा क्यों लगता है
पानी में डर- सा लगता है
एक समय था
जीवन की लहर सजती थी पानी में
किया क्या, अचानक से ये क्या हुआ ?
प्लास्टिक का दानव हर पल
मुँह खोले डसने को खड़ा-सा रहता है
जीवन का रंग ही बदला-सा लगता है
पानी में डर सा लगता है
पानी के जीवन की रक्षा करो माँ
प्रभु दो सहारा हमें भी कहीं से
ये इंसान नहीं सोचते खुद के आगे
कोई तो आए बचाने कहीं से
शहरों का कूड़ा, धुआँ या ज़हर भी
यूँ ही फेंक देते पानी में ऐसे
पता ही नहीं जैसा जीवन यहाँ है
मछली के बच्चे प्लास्टिक में लिपटे
दम तोड़ देते हैं मासूम कितने
इंसानों को क्यों ना ये दिखता है ?
पानी में डर-सा लगता है
पानी में डर- सा लगता है ||

आरव गुप्ता
छह-ड

रात है ऊपर देखें आसमान में
तो दिखते तारे ,काले से संसार में
यही काला संसार अंतरिक्ष है
कोई बिना कवच न जा पाए
पृथ्वी है यहाँ साथ, है अन्य ग्रह भी
सूरज, धूमकेतु, क्षुद्रग्रह का घर है यह भी
आग और पानी सब बहता है यहाँ
तारे आकाशगंगा, नैबुला सब समाते हैं यहाँ
सौर आँधी भी सर-सराती है इसमें, काला बिन वायु
आकाश है यह सब कुछ है यहाँ, इसलिए खज़ाने की
तरह खास है यह
अंतरिक्ष में धूल-मिट्टी है काफी
क्योंकि कुदरत ने अंतरिक्ष में धूल-मिट्टी भी बनाई
पर धरती की है अलग ही कहानी
प्रदूषण ने धरती की बदली है सूरत सुहानी
आसमान में बादल छोड़ते है ऐसिड की धारें
जागो हाथ मिलाओ, आओ धरती को फिर से सँवारे
मानव का कर्तव्य है धरती को बचाना
हमें भविष्य को सही मार्ग है दिखाना ||

संयम का फल

एक बार एक गाँव में कृष्ण नाम का किसान रहता था | उसके पास तीन बैल थे। उसमें से दो शांत रहते थे और तीसरा थोड़ा गुस्सैल था।

इस साल कृष्ण अपनी फसल पर ज़्यादा काम कर रहा था क्योंकि इस साल एक प्रतियोगिता थी कि साल के अंत में जिसकी सबसे ज्यादा फसल होगी वही विजेता होगा।

एक दिन कृष्ण को गुस्सैल बैल पर इतना गुस्सा आया कि उसने बैल को मार कर भगा दिया | उसने एक और बैल को खरीदने की कोशिश कि पर प्रतियोगिता की वजह से उसे कोई और बैल नहीं मिला। साल का अंत आने ही वाला था और कृष्ण के हिसाब से उसकी खेती की तैयारियाँ अच्छी चल रही थी। इसलिए उसने एक और बैल की कोई परवाह नहीं की। साल के अंत में जब विजेता घोषित हुआ, तो कृष्ण हार गया और जो जीता उसके पास वही गुस्सैल बैल था जो अब शांत हो गया था। अब कृष्ण को अपनी गलती समझ आई कि अगर किसी पशु से अच्छे से पेश आएँगे | तो वह भी हमारी सहायता करेगा। उस दिन से उसने किसी पशु को परेशान नहीं किया और सभी का अच्छे से ध्यान रखा।

हिंदी दिवस प्रतिवेदन

सनसिटी विद्यालय में ७ सितंबर २०२१ को संचार संपर्क के माध्यम से हिंदी दिवस का रंगारंग आगाज़ हुआ | दो दिवस तक चलने वाले इस समारोह में न केवल छात्रों को अपनी प्रतिभाओं को परिलक्षित करने का स्वर्णिम अवसर प्राप्त हुआ बल्कि छात्रों के भविष्य के लिए आवश्यक **कौशलों** को भी आत्मसात करने का मौका मिला | हिंदी दिवस में नवाचार, वूका, सतत विकास लक्ष्य और योग्यता आधारित शिक्षा जैसे शिक्षा प्रणाली के स्तंभों को बखूबी प्रदर्शित किया गया |

**Fais toujours de ton mieux même si
personne ne regarde**

**Always do your best even if no one
is watching.**

FRENCH ARTISTS

Chers lecteurs, « Petit à petit , l'oiseau fait son nid » A force de patience et de persévérance on finit par accomplir une tâche complexe. C'est un dicton que nous ici à Suncity suivre.

La pandémie a changé notre vie et les choses autour de nous, en particulier le système éducatif. Cependant nous avons essayé de le rendre intéressant et les jeunes apprenants de Suncity school nous ont aidés à y parvenir. En parcourant les pages électroniques vous serez étonné du nombre des activités, des événements et des idées qui ont rendu cette année unique.

Mon souhait pour vous est que vous voyiez les aspects positifs de la vie, soyez fier de vos réalisations et remplissez votre cœur de rire. Vous devez sourire souvent.

"Little by little, the bird makes its nest" By virtue of patience and perseverance, we end up accomplishing a complex task. This is a saying we follow at Suncity .

The pandemic has changed our lives and things around us, especially the education system. However, we tried to make it interesting and the young learners from Suncity school helped us achieve this. As you browse through the electronic pages you will be amazed at the number of activities, events and ideas that have made this year unique.

My wish for you is that you see the positive aspects of life, be proud of your accomplishments, fill your heart with laughter and you must smile often.

Les plantes

Les plantes sont incroyables. Nous ne pouvons pas vivre sans les plantes parcequ' elles nous donnent de l'air pour respirer. Les plantes réduisent la pollution et nous donnent de l'oxygène. Elles nous aident vivre. Donc nous devons respecter la nature et cultiver plus de plantes et d' arbres . Elles sont notre vie, notre santé et notre planète.

Mon école

Bonjour! Je m'appelle Roy Kriti. J'ai dix ans. Je vais à l'école Suncity. Je suis en cinquième. Mon école est grande et jolie. Elle a trois étages. Au premier étage il y a le laboratoire de chimie. Au deuxième étage il y a la bibliothèque. Au troisième étage il y a la salle d'informatique. Nous avons une salle de sport aussi. J'aime mon école.

**KRITI ROY
GRADE - V-F**

Mon super-héros

Mon super-héros préféré est Flash. Il est mon préféré car il court vite que l'éclair. Avec sa vitesse, il peut sauver le monde des méchants deux fois plus vite que les autres super-héros ! Il est difficile pour les monstres de le tuer. Il a un cœur très gentil pour sauver les autres. Il connaît l'importance du travail d'équipe et avec ses amis sauver le monde est très facile pour eux. J'adore Flash.

Nicht um meine Sprache zu verlernen, lerne ich andere Sprachen, sondern ich gehe bloß durch fremde Gärten, um für meine Sprache Blumen zu holen.

I don't learn other languages in order to unlearn my language, I just walk through strange gardens to get flowers for my language.

HARIKA MALHOTRA IV A

GERMAN JEWELS

“Die Grenzen meiner Sprache bedeuten die Grenzen meiner Welt.”

Liebe Leserinnen und Leser,

Die Deutschlernenden der Grundschule hatten ein erlebnisreiches Jahr, um die deutsche Sprache und Kultur Deutschlands kennenzulernen. Die Lernenden füllten den Unterricht mit ihrer Neugier und Neugierde, mehr über Deutschland zu erfahren.

Unter anderem bastelten sie Grußkarten, Lesezeichen und schrieben Slogans auf Deutsch. Mit Begeisterung schrieben sie Gedichte und einige Artikel für das Synergy-Magazin. Ich hoffe, Sie genießen es, ihre Arbeit zu lesen und unsere jungen Suncitizens zu motivieren, die mit einer aufregenden Reise zum Erlernen einer Fremdsprache begonnen haben.

Viel Vergnügen !

“The limits of my language mean the limits of my world.”

Dear readers,

The German learners of the Junior school had a fun-filled year getting to know the German language and the culture of Germany. The learners infused the lessons with their curiosity and inquisitiveness to know more about Germany. Among other activities, they made Greeting cards, bookmarks and wrote slogans in German. They wrote poems, essays and articles for the Synergy magazine very enthusiastically. I hope you enjoy reading their work and motivate our young Suncitizens who have embarked on an exciting journey of learning a foreign language.

Happy Reading!

**Kanika

Was ist Verve ?

Was ist "Verve" ?

"Verve" ist der Schwung oder die Ausdruckskraft.

In dieser Coronazeit ist es sehr wichtig, alles mit „Verve“ zu machen.

Sonst wird alles schon langweilig und uninteressant für uns.

Um unser Leben voller und bunter zu machen, sollten wir alles mit viel Energie machen.

Ich versuche, alle meine Sachen mit ganzem Herz zu machen.

Wenn ich spiele, spiele ich mit voller Energie.

Wenn ich online lerne, lerne ich total fokussiert.

Wenn wir alle Dinge mit Verve machen, wird bald alles besser. Unser Leben macht mehr Sinn und wir werden erfolgreicher.

Geburtstage und Harry Potter

Guten Tag! Ich werde über Geburtstage und meine Besessenheit von Harry Potter sprechen.

J.K. Rowling schreibt fantastische Bücher mit einer sehr guten Geschichte. Meine Lieblingsfigur ist Hermione Granger. Ich habe mich zu meinem zehnten Geburtstag als Hermione verkleidet. In zehn Tagen werde ich 12 und bin immer noch von Harry Potter besessen. Mein Geburtstag plane ich mit großem Elan! Dieses Jahr (wieder) habe ich meine Geburtstagsparty online. Ich werde Spiele mit meinen Freunden spielen und Spaß haben! Ich bin gespannt, welche Geschenke ich bekomme! Ich möchte einen Apple Pencil und Spotify Premium zu meinem Geburtstag. Ich kann meinen Geburtstag kaum erwarten! Danke schön!

**AISHWARYA RISHI
GRADE - VI E**

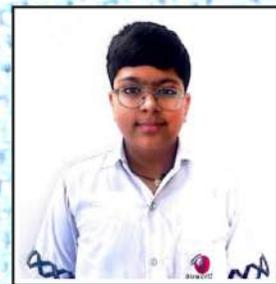

Meine Lieblingshobbys

Ich bin Arnesh Kumar Das und ich lerne in der Suncity Schule. Ich lerne in Klasse 6 E. Mein Hobby ist Klavierspielen. Ich spiele gerade "Yeh Jo Desh He Mera" auf dem Klavier, außer Klavierspielen ich gerne Cricket. Ich habe vier Goldmedaillen, zwei Bronzemedaillen und eine Silbermedaille in einem Cricketturnier gewonnen. Mein Allerliebstes Hobby ist es, etwas über Tiere und den Weltraum zu lernen. Wenn ich nichts zu tun habe, poste ich einfach ein paar meiner Klaviervideos auf Youtube. Ich sehe auch Videos von BBC über die lustige Seite der Tiere.

**ARNESH KUMAR DAS
GRADE- VI E**

Mein Name ist Yashas Garg. Ich bin ein stolzer Inder. Ich habe in vielen Ländern wie Dubai, Australien, Hongkong, Paris, Deutschland, die Schweiz, Belgien, Italien und die USA gereist. In Australien gibt es viele Kängurus. Ich mag Löwen, weil sie Hunde sehr mögen. Ich mag Löwen, denn sie sind die Könige des Waldes. Ich mag auch die Hunde, weil sie gehorsam und sehr süß sind. Ich trinke gerne Milch. Ich spiele Badminton und auch Tennis. Ich mag Bücher lesen und Geschichten und Gedichte schreiben.

Dinosaurier leben im Weltraum und Insekte sind Aliens

Dinosaurier leben im Weltraum, wenn Sie darüber nachdenken, wie kann ein Weltraumfelsen die gesamte Weltbevölkerung auslöschen? Es macht einfach keinen Sinn, dass Dinosaurier wahrscheinlich sehr schlau waren und ich wette, ihr Gehirn war viel größer als eine Walnuss. Offensichtlich haben wir Skelette von Dinosauriern gefunden, die meine Theorie gut beenden könnten, entweder die Dummen konnten es nicht in das Raumschiff schaffen und wurden zu einem Fossil, oder die Dinosaurier haben das Fossil gefälscht. Ich glaube, dass Dinosaurier noch im irgendwo im Weltraum leben.

Insekte sind vielleicht Aliens .Wenn sie jemals die Augen von Fliegen bemerkt haben, werden Sie sehen, dass sie wie eine Kamera aussehen, die verwendet wird, um uns auszuspionieren .Sie sind aus gutem Grund von Hundekot fasziniert. Wenn Insekten sterben, sterben sie nicht, sie kehren einfach zu ihrem alien Meister .

Aber ich bin mir nicht sicher, wie Aliens wirklich aussehen, aber na ja, das lasse ich für die nächste Synergie.

OUR MUSINGS IN SPANISH

El aprendizaje es experiencia, todo lo demás es información.

Learning is experience. Everything else is information.

Queridos lectores,

Saludos a todos!

Con el tiempo, todos nuestros novatos españoles se abrieron a disfrutar de la artesanía, la música y la escritura españolas. Estoy muy contento de decir que todos los años los estudiantes comunican su ventaja al elegir español y aprenderlo para convertirse en hispanohablantes profundamente arraigados. Realmente creo que aprecias leer detenidamente sus artículos y sonetos.

Saludos,

Nirmal

Greetings to all! Over time, all of our Spanish students have opened themselves to enjoy Spanish crafts, music, and writing. Spanish students have written some articles and poems over time. I am very happy to say that every year students communicate their advantage in choosing Spanish and learning it. I really think you will enjoy reading their articles and poems.

Nirmal

Sobre mí y mi familia

¡Hola! Mi nombre es Souhrid. Tengo diez años. Estudio en la escuela de Suncity. Me encanta la tortilla española. Puedo hablar cuatro idiomas: Inglés, Hindi, Español y Bengalí. Mis amigos son Arnav y Simoni. Yo vivo en India. Mi cumpleaños es el 27 de julio. Tengo cuatro familiares. Mi padre, madre, hermana y abuela. Mi padre es científico, mi madre es geofísica. ¡Me encanta mi familia!

Adiós,

VIRTUAL SUBJECTS' WEEK

BRAHMANSH THAPA VI B

SCIENCE AND VISUAL ARTS WEEK

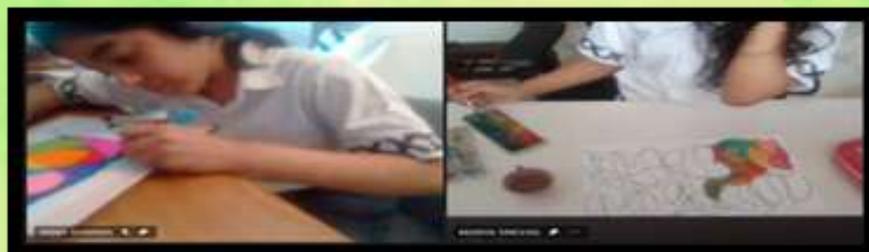

26TH JULY - 30TH JULY, 2021

The Science and Visual Arts Week was celebrated in July and it was integrated with SDG-15 'Life on Land'. Students presented special assemblies to showcase the connection between Science and Visual Arts. Ms. Vrinda Nair, a research scientist, an artist, violinist, a digital illustrator and a poet was interviewed and she shared her thoughts with the students .

NEUROGRAPHIC AND ILLUSION ART

The young explorers blended science with Visual Art. Students expressed their thought while drawing neurographic and Illusion art. Children came up with designs and paintings to showcase their innovation and curiosity.

MATHEMATICS AND PERFORMING ARTS WEEK

THEME- 'RHYTHMATHIC'- WHERE MUSIC MEETS MATHEMATICS

23rd August to 27th August, 2021

Students of Grades III and IV presented the opening assembly for the Math and Performing Arts Week, where they displayed the significance of math in our daily lives through a short skit.

Students of grades V and VI presented 'Math Rock', an amalgamation of two beautiful subjects - Math and Performing Arts by co-relating beautiful classical dance steps with math concepts.

Students dressed up as marine animals and they also quizzed their friends with story sums related to the problems faced by sea animals.

ENGLISH AND ICT WEEK

25TH TO 29TH OCTOBER, 2021

Students of grades III and IV presented the opening assembly for the English and ICT Week, where they displayed the addiction of digital gadgets through a short skit. Students of Grade V and VI presented a short skit on Tenses (Pun-intended) and their understanding and application of technology learnt during the pandemic.

The week ended with students creating a short story based on proverbs on MS Word, composed poems, presented news dressed as news anchors and conducted debates on SDG 9.

SOCIAL SCIENCE AND SPORTS WEEK

SPORTOLOGY

15th NOVEMBER -18th NOVEMBER , 2021

Social Science enables to improve knowledge of our culture and the Week introduced students to the amazing and resilient personalities of sportspersons who could be perfect role-models for the young minds.

Students of grade III enjoyed making Origami Rockets using coloured sheets of paper. Students of grade IV learnt making Gravity paintings with both warm and cool colours. Intra class quiz was conducted for grades V and VI on famous sports and SDG 6: Clean Water and Sanitation.

15th January, 2022**

AN EDUCATIONAL OUTING TO DAULATABAD POND

As part of the Design Thinking Projects undertaken by Grade VI, a few students visited the site on 29th November 2021. The objective was to understand the problem of degradation of local water bodies and to find sustainable solutions for restoration of local ponds. Later, students interacted with the organization- 'GuruJal' to brainstorm ideas and find sustainable solutions for restoration of the pond.

Interaction with the locals to understand the problems

Multiple Intelligences and me-- Apotheosis

The annual event of Suncity School, 'Multiple Intelligences and me', which focuses on the Multiple Intelligences that each child possesses, was held on the virtual platform on Friday, 28th of January, 2022. It was the vision of the school Director Mrs. Rupa Chakravarty which helped conceptualize this novel event that has reached its ninth year. The competition is based on Howard Gardner's theory of intelligences that differentiates intelligence into specific modalities, rather than seeing intelligence as dominated by a single general ability. An array of activities were specially designed that each participant was expected to participate in, to emerge as the 'MI-me' champion. Students of Classes IV to X of a total of 17 prestigious schools of the NCR participated in the 5 events- Making Connections, Kitsch Art, VUCA, Design Thinking, and Agility. The competition was judged by eminent panelists including Ms. Saleha Singh, Melbourne based communication professional, Mr. Manavendra Prasad, public policy advisor & author, the President of Japan Art Mile Foundation Mr. Atsuko Shiwaku, Director at Bellevue Education Group UK Mr. Ashok Mehngi, Jordan-based Ms. Anjali Aneja working with the UN- World Food Programme, Mr. Keshav Gupta, founder member of DAIS Foundation, Ms. Swati Ganguly, Microsoft innovative educator trainer, dance and fitness instructor Mansi Sadana and Guru Shamishta of Prayag Sangeet Samiti, Allahabad.

PARENTS' WALK-IN GRADE III

'Parent Walk-In', for Grade III, began with a soul stirring melodious song titled "Meri maati hai", in keeping with the theme of SDG#13- Climate Action. The confident Suncitizens enlightened their audience on the theme of their event- SDG 13 and informed the parents that as responsible world citizens they are trying to make a difference, and all their learning across subjects was integrated with the SDGs. They showcased their learning in a way that struck the right chord with everyone and they were able to garner support for their endeavours for achieving SDG 13- Climate Action by the parents.

PARENTS' WALK-IN GRADE IV

Lao Tzu very rightly said that 'a journey of a thousand miles begins with a single step'. Keeping that in mind, we at Suncity believe that learning is a constant process to help young minds transform themselves and contribute meaningfully to society.

The Parents' Walk-In is a novel way of Revision of Concepts as it is true that one learns more effectively by teaching. So, we have a day where the roles are reversed. Our focus is to guide the students through a transdisciplinary approach by integrating the United Nations SDG#13 Climate Action with all the subject areas for a holistic understanding of world issues at their level. This year we went on this journey on January 20, 2022.

PARENTS' WALK-IN GRADE V

For true learning to happen, concepts have to be linked to real life situations. Keeping the spirit of trying new things, the Virtual Parents' Walk-in by Grade V was held on Friday, 24th of December, 2022. The students worked hard to showcase their skills and learning experiences and shared a variety of topics learned during the month of November. SDG 6 Clean Water and Sanitation was the part of all subjects' presentations and was presented in an interwoven manner.

PARENTS' WALK-IN GRADE VI

Class VI worked on month-long different Design thinking projects with the aim to define and solve problems in a non-linear, imaginative and empathetic manner. Students worked on different projects integrating SDGs to come up with viable and sustainable solutions to the issues or problems. They followed the five basic steps of Design thinking process of Observation, Empathy, Define, Ideate and Testing.

Optimal Utilization of Space

Parents of Arihant Ojha

Just wondering, after classes when students are practicing for parent walk in is it fair to expose them to even more screen time? It's contradictory to what was shown in the presentation.

Ekaansh Shahi's father.

So nice to see children come together and put this presentation together for us parents. A big congratulations to all the students and kudos to the teachers in putting this all together.

Pooja Paul Aryan's Mom.

Congrats for putting up a great show. The entire research and presentation was excellent. There were great insights and take aways. Personally i would now going forward start to switch the router off when it is not required. Thanks once again to the entire team.

Mahira Marwah 6-f

Very informative and very well presented. Kudos to the team 🍀🍀
Thank you teachers and children

Sabina, Rannvijay's Mother.

Excellent Performance
Its nice to see each student participating and being equally involved in every aspect of this presentation under Jyoti Maam's guidance. Saw the kids research, rehearse, perform all my themselves. Kids have learnt new skills .
Thank you students and Maam for educating us.
Merry Christmas and A Happy New Year

Darsh Agarwal's Parents Feedback

Divisha's parents

Excellent presentation made by the students. The design thinking technique to handle issues was informative and its application in exploring the effects of WiFi was very informative. Thank you to all the students and teachers who participated.

Parents of Arnav Khandelwal,

Excellent presentation good to see the children conducting experiments to show the effects of Wifi. Great learning.

It was quite enlightening. Children have given us good insight of bad effects of wifi which has become a part of our life. Now we know how to use wifi wisely.

Navyaa Jain's parent's feedback

wonderfully done presentation.

The hard work put in really shone through the multiple vignettes..multiple learnings for us parents. I have personally seen a couple of plants die when kept next to the WIFI router so this was a reminder of the bad effects

DIGITAL ART BY JASKARAN SINGH- VI D

AUTODRAW

“Any sufficiently advanced technology is equivalent to magic.” This quote comes into realisation when such IT tools are explored by the little kids to turn up their imagination into reality.

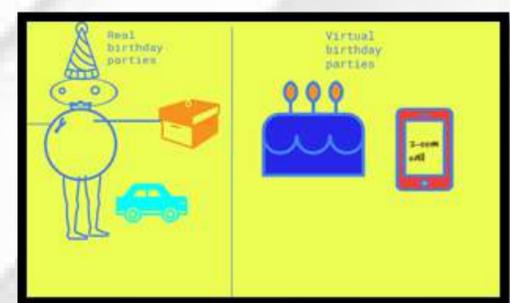

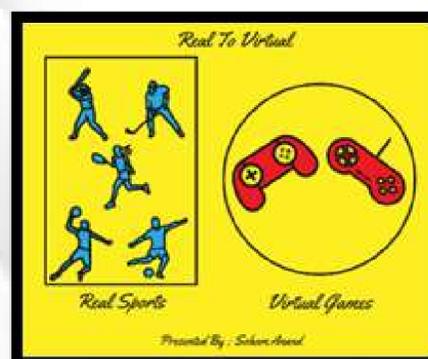

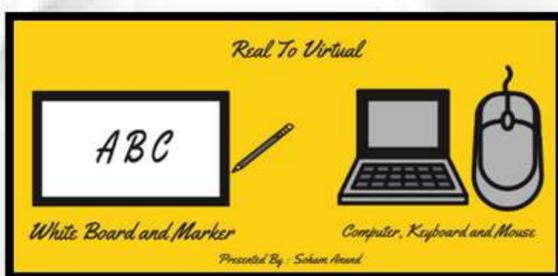

Grades I and II were introduced with Autodraw which is a new kind of drawing tool. Autodraw pairs machine learning with drawings from talented artists to help everyone create anything visual and fast.

GRADES I and II

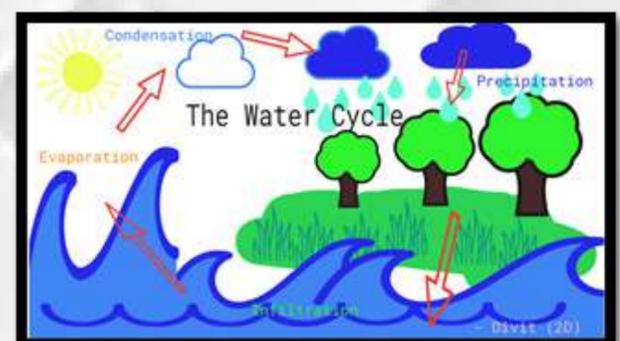

Grade I- II students made a scene about flourishing life on land, integrating SDG15 and Art. They explored about the SDG15 and used machine learning with AutoDraw to create their imagination about how they want this land to be.

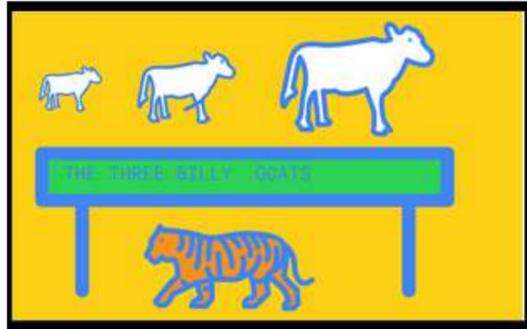

Grade I students were given a VUCA situation that before lockdown how they used to do the work in the school and then with the online classes how the things changed. So, the students thought of few related terms as we go from real to virtual and draw a painting on AutoDraw and shared with everyone.

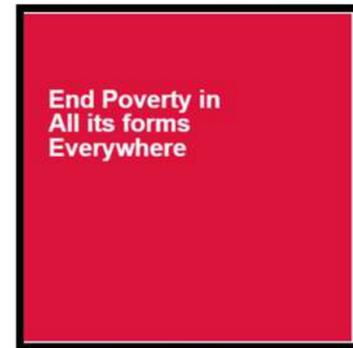

Grade I students made water cycle on Autodraw, implementing the Input-Process- Output process, integrating Science and SDG6.

Grade 2 students made storybook cover as their first soft covers on Autodraw. Theme taken was SDG11, i.e., to think of stories that convey the message to make the surroundings safe and sustainable. They came up with exciting stories about animals, humans, and the things around.

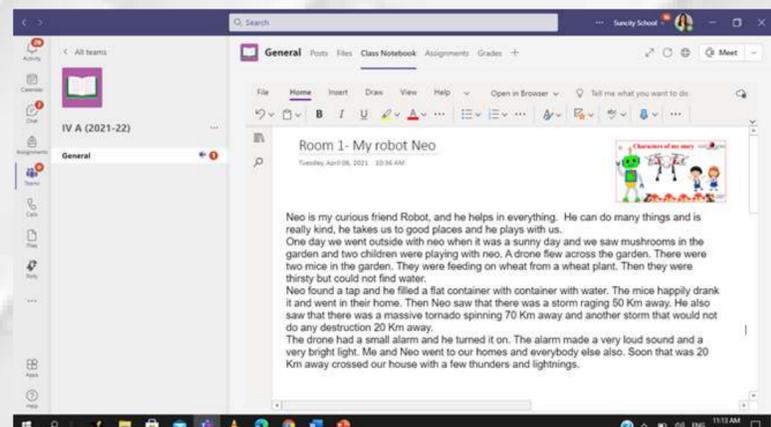

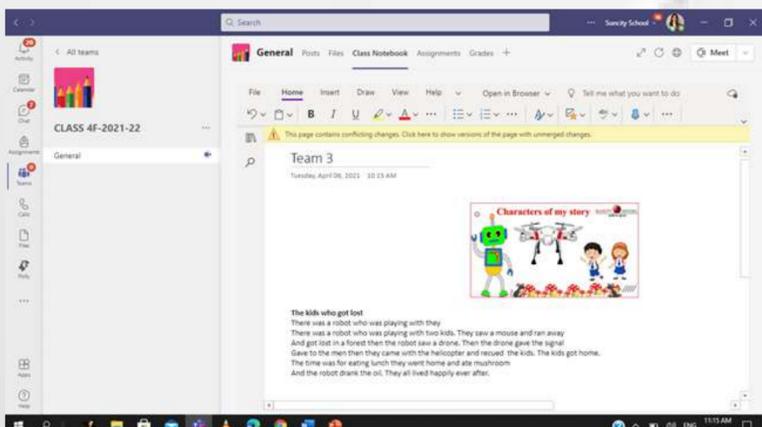

Another tool Drawisland was used to make GIFs. Drawisland is an online drawing tool where you can create nice drawings and animate images too. Students made a flipping GIF on SDG1 with a message to end poverty in all its forms, from everywhere.

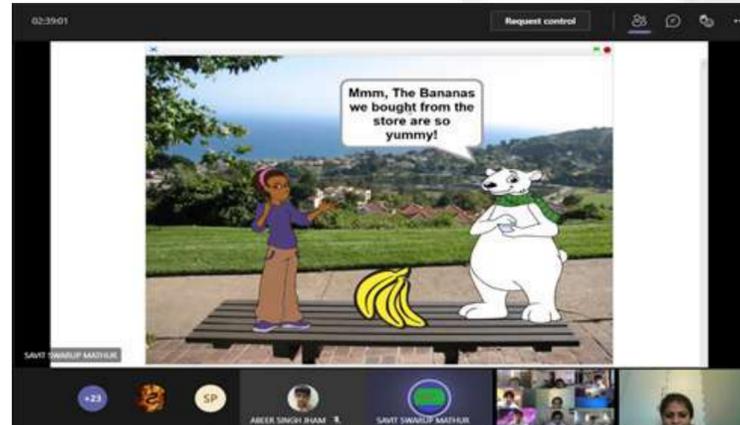

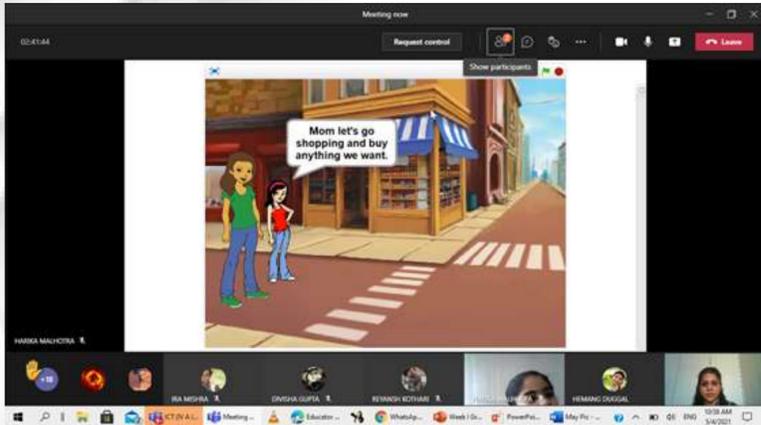

GRADES III and IV

Students had an enlightening session in the year 2021-22 where they explored a plethora of applications for various lessons and activities. A few of them are listed below with images.

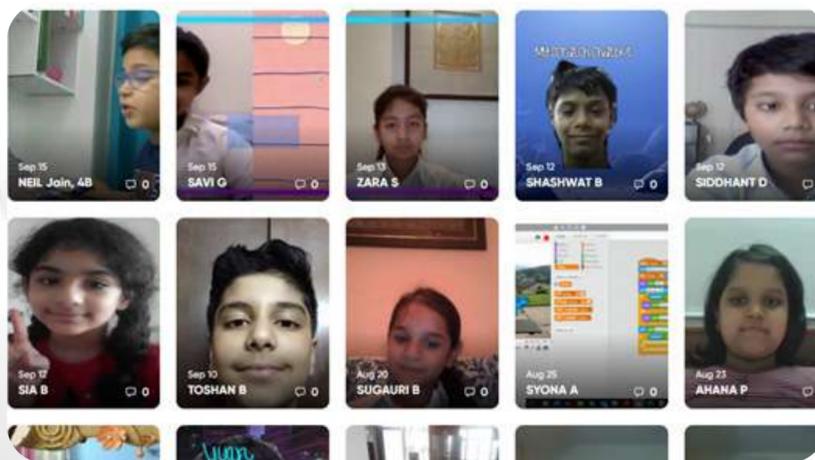

Exploring Breakout Rooms in MS Teams and collaborating within the groups using the Class Notebook on Teams. Students worked in various groups and used their thinking skills to create a story around an image shared. The activity was enjoyed in all classes and students worked in sync and collaborated with each other.

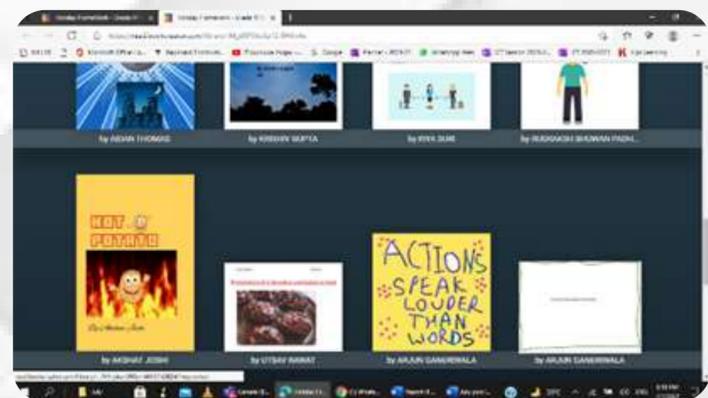

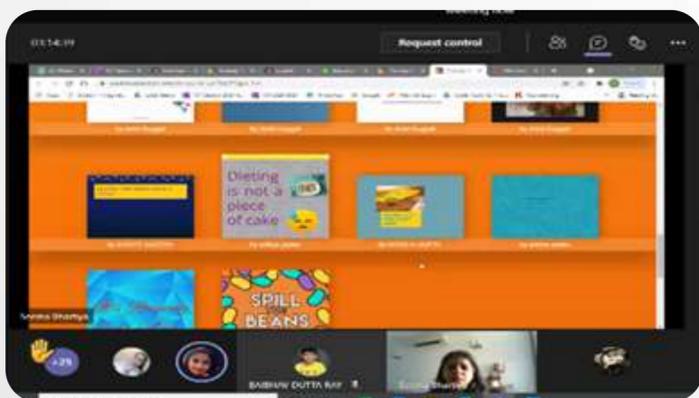

Various projects on Scratch were made by students though a VUCA situation where they had to showcase a project on Avoiding Food Wastage at home and how can they Reuse, Recycle and Reduce wastage, thus using the 3 R's. The app used was Scratch and the videos were uploaded on Flipgrid - <https://flipgrid.com/4e2ced7f>

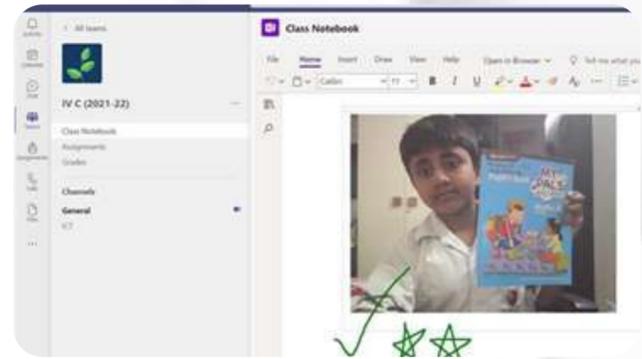

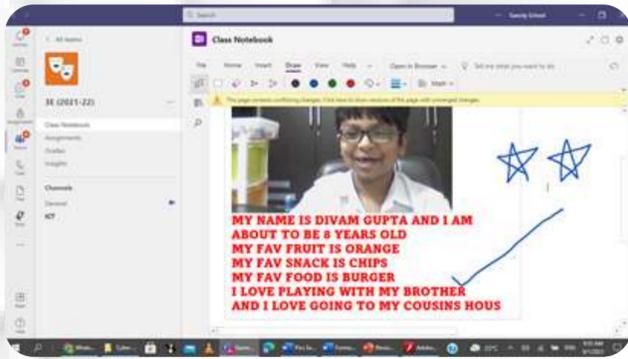

Students designed their own Chatbots an AI-based computer program that simulates human conversations using Scratch and uploaded a demo of their chatbots on Flipgrid - <https://flipgrid.com/4da66f4e>

BookCreator – Students integrated with English language and wrote stories using www.BookCreator.com. A list of idioms was given to them and students had to make a story out of it.

Students explored the Class Notebook on MS Teams and did a plethora of activities which involved clicking images from the camera option and the topics were – Myself, SDGs, My favorite subject, My favourite device.

Students explored Paint3D and enjoyed working on Augmented Reality. They captured nature and object through Paint 3D and made them LIVE through the Mixed Reality tool on Paint 3D.

COMPUTER CLUB: Grades V&VI

In Code .org is an online coding software, where students can learn and create different coding and games.

V G

'Every artist dips his brush in his own soul, and paints his own nature into his pictures.'

-Henry Ward Beecher

As the Pandemic rolled on, we at Suncity School embraced the new normal and found ourselves learning and growing more than ever.

Students experimented with different media, wet, dry, conventional and unconventional, including coffee and turmeric! From Georges Seurat to Joan Miro, from Warli art of India to Aboriginal art of Australia, the learning curve took a steep upward trajectory.

We engaged in International collaborations with classrooms and organisations across the globe.

The Tokyo Olympics offered our students a unique opportunity to send imaginative artworks for the Tokyo 2020 Nippon Festival which featured a digital showcase of art from across the world.

HOLIDAY CARD EXCHANGE PROGRAMME

From the comfort of our homes, we exchanged our traditional art forms with students in Africa, Taiwan, Slovenia and Japan. The Holiday Card Exchange taught students of grades III, IV, V about the customs of these countries through cards sent by their students. We reciprocated by sharing our rich cultural traditions. The Art Connect Project gave Grade IV a great platform to showcase our Madhubani folk art form to students in Zambia.

JAPAN ART MILE

•The Japan Art Mile Mural Exchange brought us closer to Japan as the students of grade V, VI, VII, VIII embarked on a learning journey to study the importance of SDG 14, 15 with Anjo Chubu Elementary School, their partner. Both groups exchanged their ideas of drawing the mural, coming up with interesting ways to connect their drawings as one coherent whole. Anjo Chubu Elementary School painted their half and sent the canvas to us with a set of paints, a garland of 1000 origami paper cranes for our good health and cards with messages for us. Our students then drew and painted our half of the mural in small batches, following COVID safety protocols. It is a matter of great pride that the Japan Art Mile pair of Anjo Chubu Elementary School with Suncity School has received the Ministry of Foreign Affairs Commendation Award from the Japanese Government, from amongst 52 schools from 22 countries, based on the quality of collaboration, communication and creativity of the two school groups.

ART ACHIEVEMENTS

COMPETITION	HOST SCHOOL	PARTICIPANT	CLASS	RESULT
Rabble Dabble 2021-22	Manav Rachna International school, Sector-46, Gurgaon	Pragun Prashar	IIE	2 nd Position
3D Modelling/ Makhan Chor Krishna 2021-22	The Maurya School F block Palam Vihar	Ronav Tiwari	IIE	2 nd position
EMERGENCE SERIES VII Interschool competition Onomatopoeic Words 2021-22	Cambridge International, DAV Public School, Pushpanjali Enclave, Delhi	Nyra Khandelwal	IC	1 st Position
Art and Heritage	Adarsh Public School, Delhi	Ahana Prajapati	IVD	3rd Position
Illumina: Expressions	MDI Gurgaon	Miraya Kansal	III	National 2 nd Runner up

Our budding artists participated in several inter school competitions and won laurels for the school. We sent Art submissions from grade 2-12, for the exhibition at the 2021 UN Climate Change Conference, in Glasgow in November, which mobilises youth across every continent to use Art as a powerful way to share their thoughts, feelings, and ideas with others. Students' artwork focused on the theme of climate change with a connection to youth action. The year may have ended but the journey in the VUCA world continues. As challenges mount, success is even sweeter! We look forward to interesting possibilities in the coming year, with wishes for good health and cheer for the entire Suncity family.

Director`s Article in Hindustan Times - HT

School, fights Covid-19 on its campus

a safe environment on the school premises

During the Covid-19 crisis, the school's efforts to ensure a seamless organization of the vaccination camp with the safety protocols and social distancing norms in check are worth appreciating.

PETITIVE WORLD

Small & substantial

One should look at it as an inspiration or a motivation to get back to work and climb up the ladder of success without rescinding people's efforts.

Once a limiting belief is triggered and activated, your outlook changes. You see everything through a new filter. You look for validation daily that you aren't smart enough. And of course you will always find some-

BLACK AND WHITE

'Yin and yang: This philosophy of balancing act helps us introspect and illuminate ourselves'

Nobody who grew up in the times I did will ever forget the droning and now very endearing sound of Doordarshan with a black and white interlocked insignia displayed on the screen before the programme started. It would sometimes go on for a good 5 to 15 minutes depending on when you turned on the TV. It was so grating to the ears then; but today it brings back nostalgic memories of days bygone.... Love the sound today.

But this is not what I want to highlight, I wanted to highlight the black and white spinning wheel, as it appeared to the novice eye then; but it was the yin and the yang.

If you search uncle Google, it tells you that in ancient Chinese philosophy, yin and yang is a concept of duration, describing how seemingly opposite or contrary forces may actually be complementary, interconnected and interdependent in the natural world and how they evoke each other's growth as they interrelate to one another.

The world is composed of many different, sometimes opposing forces but these can coexist and even complement each other like darkness and light, female and male and so on.

Everything contains yin and yang. The balance of yin and yang is important in life and it is perceived to exist in everything including the current unprecedented Covid-19 pandemic times.

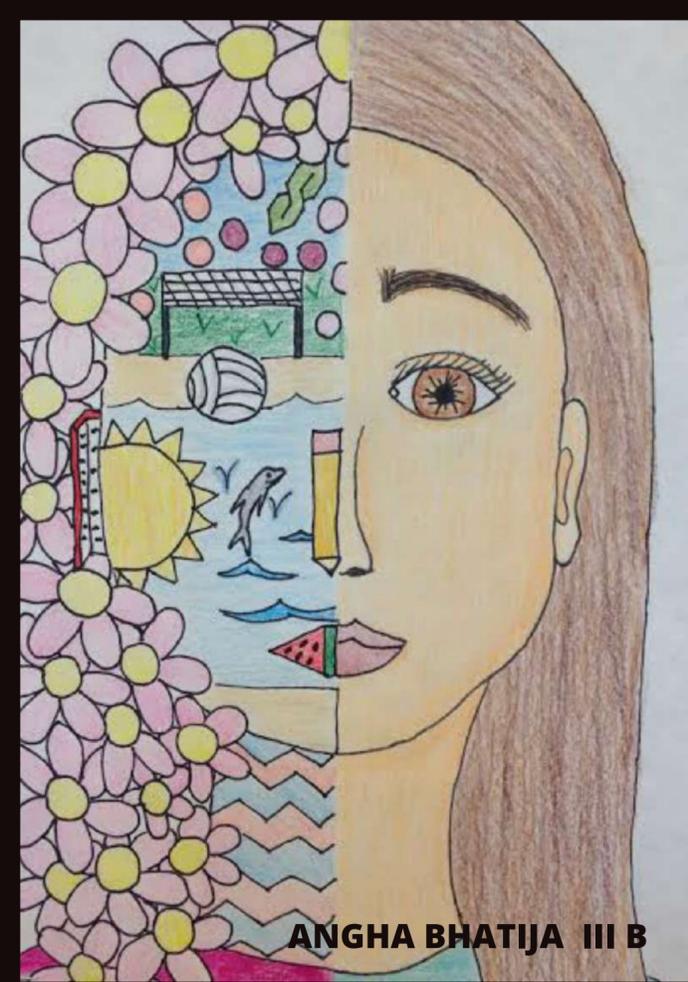

The balance of yin and yang is important in life and it is perceived to exist in everything including the current unprecedented Covid-19 pandemic times, writes director Rupa Chakravarty

which is tough and considered a symbol of endurance. Diamonds are born under intense heat and extreme pressure and just like the diamond the theory of survival of the fittest makes us resilient and radiant.

So how does the theory work? It is

to the warmth of spring.

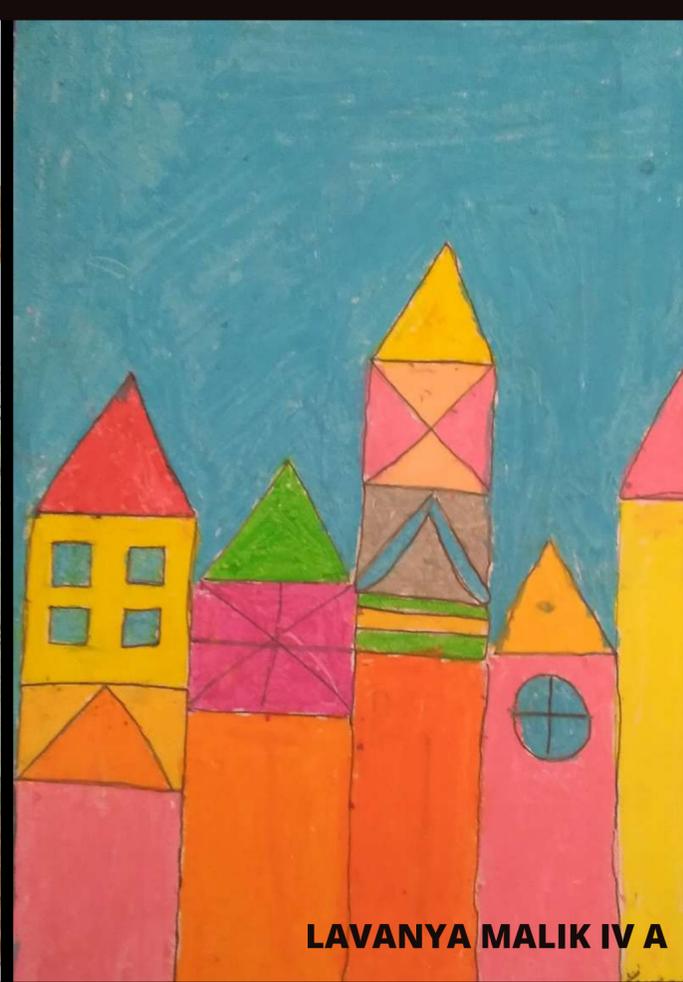

Similarly the harmony of our body, mind, and spirit needs to be adjusted and re-adjusted to circumstances in life. Life seeks to then create balance and thus harmony sometimes-even through death.

SUNCITY IN NEWS

Pari Gupta is a young achiever from our school, who balances academics and extra-curricular activities with elan. She attended a 15 day programme by Youth Action Hub Delhi, an Initiative of the United Nations Centre for Trade and Development. During the tenure she helped create awareness about the 17 SDG Goals through the completion of daily tasks. She received accolades for her efforts including the award for 'Best Change Maker storyteller'.

Pari is also a talented singer, an artist, and expresses herself creatively through articles and blogs. She served as select writer for Battein, a creative writing blog, which published her 'Letter to Sehmat'. Her article has also been published in The Hindustan Times.

LIFESTYLE IN MODERN TIMES

'We should put people and planet above profits'

The world we live in is yet another breathing maze through which we are running tirelessly from morning to evening to solve. The clock continues to tick with our hearts and pulses beat faster as the pieces that form an outcome seem to disappear with more and more people joining the rat race. It's a race that we call a modern life and luxurious lifestyle.

But while running between the two poles of this relay we forget to differentiate our misconceptions from our delusions and end up confusing a modern life for a healthy living. Living in a century where everything is available at a click of a button, we have built a small wonderland like a comfortable yet two-faced and lonely cubby hole within those apps and notifications of ours and forget to think or live beyond them.

Our minds are instructed to follow a uniform algorithm each and every day of our lives. At the end of the day, what can be more human than the fight for survival.

Playing the tug of war between the strings of taboos and myths, we forget to live up to the sole purpose for being given birth and doing good. In this world, where the existence of humanity is questioned as each milestone of development passes, we forget to rethink our actions, reflect and be kind.

This system of taboos from which we reap many benefits has enabled exploitation in the terms of ignorance to thrive. Our society still considers mental health and issues related to it to fall under the shadow of a taboo and refuse to accept the consequences that come with them which in its true sense is staggering.

We humans are considered to be simple creatures but the complexity

OUR MINDS ARE INSTRUCTED TO FOLLOW A UNIFORM ALGORITHM EACH AND EVERY DAY OF OUR LIVES. AT THE END OF THE DAY, WHAT CAN BE MORE HUMAN THAN THE FIGHT FOR SURVIVAL.

We still have time to rethink our actions and give humanity the last chance to exist, writes Pari Gupta, a student of Class 9, Suncity School, Sector 54, Gurugram

hidden within us seems to unravel as problems strike and end up affecting us mentally more than physically.

The societal issue of mental health has been hidden behind the curtain of stigma and discrimination for a while now in spite of our mental wellbeing controlling all three pillars of our well-being: physical well-being, social well-being and emotional well-being.

Living in a nocturnally dual world where deep down all of us have guilts and regrets, we have put profits above the people and planet.

As time passes, everyone at some point or the other ends up showing the visage which is yet to be unmasked.

A visage that is vulnerable and just needs a helping hand to get them through the tough times but we are so engrossed in pampering our own selves and building our empires that we consider an unheard scream for an ignored whisper.

A scream which needs itself to be heard and accepted. Be the one to lend a hand to those who are in need and not to those who are greed. Who knows that hand would be the ray of sunshine that person really needed, we still have time to rethink our actions and give humanity the last chance to exist else we might end up being the masters of our own mind but the slaves of our own soul?

Riddhika Kotia and Tanishka Kotia were felicitated on Women`s Day by the IDFC Bank

OUR WAR AGAINST THE PANDEMIC

WE ARE NOT LIVING IN FEAR,

WE ARE LIVING IN FAITH!

MY GETAWAY

The past year was tough for everyone due to the deadly and exasperating Covid virus. To be honest, wearing masks wasn't, what I would call, comfortable. So to get some freedom, my family and a few family friends, who were vaccinated, decided to take a road trip to Mukteshwar, a place on the Garhwal Mountain in Uttarakhand where, at that time, tourists were few and far in between. When we reached, the first thing that caught our attention were the Trishul and the Nanda Devi peaks of the Himalayan range. Watching the sunlight glimmer on the snow cornice was a wonderful way to start each of the three days we were there. When we went out to trek, without masks, all I did was gape in awe. Rays of mellow sunlight filtered through the lace like canopy of the tall trees in the forest and all around, amber red and lemon yellow autumnal leaves fell from the trees. We drank the local Rhododendron Juice made from the red flower, but my personal favorite was the lemon soda made from tart mountain lemons. Our hot flatbread, chicken, and spicy noodles were even more delicious than normal against the sub-zero temperatures. This trip was really my escapade from the hotch potch year that we had.

ART OF NOTE MAKING

The Corona virus pandemic trained us for online classes which are very helpful. During one of my online classes, I learnt something very important that whatever we learn we should always make notes while the teacher explains concepts, and again, as a follow up, post lessons. I used this to learn all my concepts. It made my life so much easier. My teacher also shared that we should always have our personal notes. This note making is very important as in higher classes we would have so many chapters and it would be difficult to learn them without note making.

At first, it seemed quite tough but with practice, it got easier and easier. All you need to do is listen to the teacher attentively, jot down the key words and main points. You may use a highlighter or underline them. Next, when you do self-study, refer to the notes and your book, merge the understanding together and make fresh notes in an orderly manner. There you go! A whole topic gets covered with points, sub points and key words, making learning a breeze!

2020 – A YEAR TO BE REMEMBERED

Everyone has gone through a lot this year- and I'm not just saying that because of the virus, but because of extra time at home, with our families, friends or even alone. We learned new skills; decent or unsatisfactory, like binge watching Netflix the whole year! Admit it, there are things that you didn't know you had or could do in the house itself until now! This year, all our promises; either it's to learn how to cook or lose weight, this virus forced us to do so! But our travel plans, meeting new people, having physical presence, was taken away by COVID – 19 and handed over to technology which changed our lives! String of wild fires, airplane crashes in Iraq and Pakistan, the death of great personalities, social unrest and various natural disasters- all in a year! What's the reason behind it all? A virus! A small bacterium changed our lives for good, though it wasn't that bad to force ourselves to do things which no one could ever have done; no matter who forced them and by how much, this virus made us all do what we have taken as our resolutions but left it incomplete; or didn't do at all!

This year everyone has learnt a lot, but there has been one COMMON learning... this year we all learnt how important it is to not drag ourselves completely to work, be on the phone for... ever, actually! This year has been about understanding and realizing our priorities, finishing the undone and learning to live a simple and a less complicated life.

SAISHA SAWHNEY

LET'S WAIT TO CELEBRATE

Corona virus prevention,
It's such a big tension.
If you fall prey to it,
You need medical intervention.
It can cause breathing problems,
Even lead to lack of sensation.
You are young and may recover easily,
But for your elders, have consideration.
Going out is certainly a temptation,
But let's wait for the vaccination
And then we'll all celebrate with jubilation.

VIRTUAL CLASSROOMS-A FUTURE SCHOOL FOR ALL?

Virtual classrooms are overtaking the traditional, physical classes we all know about. These have helped us to avoid an idle mind become a devil's workshop! Virtual classes are flexible, they are easier for the student-teacher balance. While learning, students shared confidently, because they feel confident and relaxed, because they know they are at their homes, as they have so many things to share. Online learning can be accessible for anyone in the whole world. For example- if a student from a different country or an author of a different country is going to interact with you in school, there is not much of a chance the he/she will come there in person, they will connect online, you can just call the person up and they will show themselves and give their time to you. There is also a variety of programmes to choose from or explore, you can learn new things, like maybe coding or learn something new in power point or word, and it is also easier for the teachers to explain their methods to students.

Virtual classes also give us a chance to get creative, we can learn new skills and make videos, PowerPoints and explore ICT tools and apps.

Kudos Virtual Classrooms!

***THE WORLD OF
IMAGINATION IS
BOUNDLESS***

THE WORLD IS A CANVAS TO OUR IMAGINATION

THE CURIOUS LITTLE ALIEN

Once there was a curious little boy on Planet Cosmos named Rocky. He was full of mischief and curiosity. He wondered whether there was life in other parts of the universe. His father made frequent visits to Space for exploration work and one day Rocky insisted on traveling with him. While they were in the space exploring a few spatial objects, one of the rocks hit the spaceship and its engine broke. The spaceship moved out of its orbit and went far into the space. While wandering in the space, Rocky saw many planets, satellites, meteors, stars and suddenly his eyes fell on a beautiful tiny little blue planet. He was curious to know what it was and as the engine of the spaceship had a problem, his father decided to do an emergency landing on the planet.

In a children's park, Raju was playing with few of his friends. Along with them was Raju's dog, Softy, having fun playing with the ball. The spaceship landed in the middle of the park and seeing a strange looking object coming down, the children ran and hid behind the bushes. Softy too managed to hide behind the kids. Rocky came out of the ship and wondered what sort of a planet they had landed upon. His eyes fell on the colorful ball that kids were playing with and he picked it up and threw it in the air. Softy jumped to catch the ball and took it back to Rocky. Seeing this the alien boy first got scared but later started enjoying playing with Softy. Seeing the harmless alien boy other kids also came out from behind the bushes and started playing with Rocky. While they were playing Raju's mother came to check on them and she was surprised to see a little alien playing with the children. She asked, "Raju, who are you playing with?" Raju said, "Mom, he is just a harmless little creature so we are playing with him." His mother's eyes fell upon the father sitting in the spaceship and watching. She went to him and asked him, "What are you doing here?"

The alien father replied that his spaceship had an engine failure so they had an emergency landed on the Earth. The mother said, "I can help you! I work in NASA, a place from where you can fly back to your planet. The mother took the aliens and they flew back to Cosmos on a rocket. From then on, they lived happily ever after.

THE DUMPLINGS

Once upon a time, in a land far far away, there lived a young girl named Meena. She was poor but she was a determined girl. Her parents had died when she was young. She lived in a small wooden hut. She had no company except a kitten who could talk French and English and was named Milky. She also had a great attraction towards the prince.

One day the emperor of the land invited all the young ladies, including Meena. The emperor announced, " Young ladies, you have been called today for an amazing opportunity. All of you will be given money to build a house of your own. In each house, there should be a dish. Whosoever's dish is the best and their house is strong and fit for my son, the prince, the prince will marry the owner of that house. And remember one important rule- No cheating." All the girls were excited to win the prince's heart including Meena. She had heard many stories of his charming looks and intelligence. She got money from the king and bought a big field for the house. She collected bricks, paint, cement and much more. She planned how to make it with her faithful pet, Milky and in a month's time, the house was ready. All that was left was furniture, paint, and the dish.

She cut wood and made comfortable furniture with it. She painted the house and within three days everything was ready except the dish. She saw other ladies had made houses of gold and had already made their dishes!

She suddenly had a faint memory of her parents, who were lovingly making dumplings and feeding her with joy. She thought to herself, "I will make dumplings with my determination and love." She went inside the house she had made and cooked beautiful white dumplings. She had made thirty dumplings. They were kept on a big silver plate which she covered with a banana leaf. On the corner of the plate, there was a small bowl of chilli sauce. She had also made a garden in the remaining parts of her land. She had grown grapes, mangoes and much more. There she put the dumplings on the small wooden table. The emperor soon arrived to see the progress. The prince came too. When the prince saw Meena's house and tasted the dumplings, he smiled and said, " Your dumplings are the best! Your house the strongest. I will marry only you." So Meena was married to the prince and lived happily ever after. And even her pet, Milky, was well fed so much that so she became very fat and was renamed 'Fatty'.

PICNIC TO THE MOON

Jane and Julia were going for a picnic. It was a pleasant day, the sun was shining bright. They were walking to their favourite park. Both were excited to take a break from school. Jane said, "I'm so thrilled to be here, I heard that a new planetarium has opened close by."

"Really!" asked Julia with a surprise. "Yes," replied Jane, "We can visit it after our picnic." The girls chatted for a while till they reached the park. They had an amazing picnic.

After a while they got up and went to the planetarium. Upon reaching the planetarium, they purchased two tickets. They entered a tall building, which was shaped like a planet. As they walked in, the black walls with white painted dots gave a 3D effect and a space like feeling. The display boxes on the wall were lit up with lights and looked beautiful. While they were admiring the planet like structures, a loud siren filled the room. The TV screen relayed a live event of a UFO heading for the Earth. Suddenly both of them felt dizzy and fainted. The next thing the girls knew was that they woke up on the moon. They were dressed in space suits. "How did we land on the moon?" screamed Julia. "I don't know!" replied Jane frantically. They saw a UFO heading their way. They both got worried on how they would get home. Then an idea struck Jane. "We can hop on the UFO to get home," she exclaimed. It was a risky one but they had no choice. When the UFO came closer, they were shocked with what they saw- Two aliens controlling the spaceship! The aliens were equally surprised to spot humans on the Moon. As they walked towards Jane and Julia, the girls' face grew pale with fear, and they stepped back. The aliens asked, "Which planet are you from?" "That one!" said Jane pointing to the Earth. "Oh, planet 07689," replied the alien. "That's where we were going," replied the other. "But Why?" asked Julia curiously. One of them started explaining, "We have detected radio signals and were going to check if life existed. You are proof enough and we do not require to go there anymore." The other one added happily, "We wanted to invite someone to our Planet which is close to the Moon. Here you are!" Julia asked, "Can you do us a favour and give us a ride to Planet Earth? I mean Planet 07689" The aliens agreed and took off for Earth. This was Jane's and Julia's best ride ever.

MY FAVOURITE GAMES

There are many many games to play

Many fun games indeed !

Ludo, Chess and Basketball

They are just what my body needs !!

In Ludo, Sixteen Schoolchildren,

Four in each school !

They all want to get home first

To win - that's the rule !!

In Chess, the game of mind

The White and Black kingdoms battle

And when one of the king falls

Only then the game is settled !

In BasketBall, there is a team

and they have to score Hoops

The one with maximum score wins

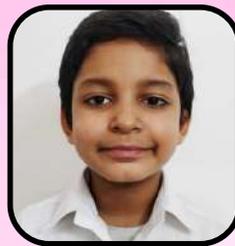

and the other lands in hot Soup!

These are my MOST favourite games

I can play them night and day

I may win some and lose some

But I will be a Champion all the way !!

MOTHER LOVES LEATHER

**I have a funny mother,
Who loves leather.**

**All her dresses are made of leather,
All her trousers are made of leather,
All her socks are made of leather,
All her shoes are made of leather,
Leather leather everywhere.**

**No wonder her name is Heather
Which also rhymes with Leather.**

**In fact, I now believe my mother
Is the only one tone of leather.**

**Yet, whenever I look into her eyes, in my leisure,
I feel her love towards me will always tether.**

**Being mischievous, I invite her terror,
Good Lord! This also rhymes with leather!
Anyway, I know she will love me forever,**

ROOT FOR YOURSELF!

'The Best person who will support you is you, make a try and go for it' -that's the advice I got from one of my friends and it remains with me always.

In one of my previous classes, I had many friends, who were good at their own hobbies, and I was good at mine. They knew I loved to sing! So one day during our classes, a Senior entered our class and asked if anyone from Pacific House wanted to audition for the Inter-House Patriotic Song Competition, and my friends simply stared at me, urging me to speak up. I got a little nervous but I finally spoke up and told her to jot down my name for the audition. My friends were excited and so they started encouraging me at lunch. I shared about my phobia of going out and singing with a group of kids. Then, one of my friends asked me, "Do you believe in yourself?" I replied assertively and she smiled and said, "The best person who will support you is you, make a try and go for it."

I stood up and participated in singing and smiled because I know I was doing something I loved, but who knew my friends were that deep?

CHRISTMAS CARNIVAL

“Wake up Aryan, wake up!” yelled my mother on a freezing Christmas morning. I was sleeping peacefully but unfortunately I couldn’t sleep any more. I sprang up on the bed and asked, “What happened? Is everything okay?” “Yes, only if you brush your teeth, take a bath, get ready for breakfast because we have to go to a Christmas Carnival!” said my mom. Before mom could finish, I came out after brushing my teeth and ran to the breakfast table. Soon my dad woke up and he knew our plans and so he was already at the breakfast table and got ready for our planned outing. I gobbled up everything and we went for the Christmas Carnival! The Christmas Carnival was so much fun, as there were many activities planned and I sang a Christmas carol with the other kids. We also danced on foot tapping- DJ music and had X-mas savories. There was an art competition and I participated in it whole heartedly. I enjoyed so much last year and will miss the enjoyment this year but let’s be hopeful that we can again enjoy Christmas in the same way next year. Merry Christmas and wish you a Happy New Year!

FOREVER FORWARD

Release the idea that things could've been any other way. In today's life, where everything around us has changed, one thing is still the same and that is mistakes. We make them all the time and we shouldn't sit back and have regrets. These mistakes that we make, help us grow in life. Some make less and some make more. We should not worry for what we have done but we should always see what can be done next.

This is where we need to pause, reflect and plan again. There is no point in wasting time over tears and regrets. They only consume time and energy with zero results. Self-pity gets us nowhere either. We might as well take the bull by the horns, deal with the concern and forever move forward.

**PRANAD SHARMA
VI-C**

ALWAYS AT A LEARNING CURVE

The capacity to learn is a gift, ability to learn is a skill and of willingness to learn is a choice. The best thing I have ever learned is that life never stops giving surprises and opportunities so we need to enjoy our life to the fullest.

This also means that we need to stop comparisons with others in life, we need to compare us with ourselves in the past and realise where and how we have grown. This also enlightens us that we must treasure each moment and live it to the fullest. Always stay calm and cool not matter what comes in our life and try to safeguard ourselves- as best as we can.

**SASHREEK JHAMB
VI-C**

MISTAKES ARE LEARNING MILESTONES

Mistakes have the power to turn you into something you never were before.

Mistakes are a very important part of daily life, whether it's something as small as breaking a cup or much bigger like failing an exam. The important part is that we have the courage to accept it and learn from them or try to make it right.

This is what I learnt not much more than a year ago. My Olympiads were right around the corner and I was very busy preparing for them. I did not go down to play nor had fun with my friends. After I stopped meeting them, they started calling me regularly but I ignored their calls and thought I will make up to them later. After I had finished my Olympiads, I went downstairs and went up to my friends to play. It was no surprise! They were mad at me but instead of apologising, I went back home.

Soon, I got a call from my aunt. She could see something was bothering me and asked what it was. I told her everything that happened. She smiled and told me that something quite similar had happened to her when she was my age. After telling me the whole story, she said that at times like these you have to swallow your pride, accept that you made a mistake and make it right. Next day, I did exactly what she told me. She was right and it also taught me an important lesson that a balancing act is important in life.

**NAIVEDYA ROY
VI-C**

NO ELEVATOR TO SUCCESS

There are no shortcuts in life and that is something I figured out recently. Just like we live in a society which has towers and floors, we avoid the staircase and take the elevator for shortcut. We don't use stairs as they take a lot of time and effort, one step at a time but one gets to gather strength, gain patience and experience it in totality. However, a lift is speedy, closed with hardly any in depth experience of our surroundings. Same goes for our goals and ambitions in life. We need to invest time, effort and experiences to enjoy the journey towards them...one step at a time.

**ANNANNYA HOLANI
VI-C**

NAUGHTY SNOTTOY

**I have a dog who is naughty
And his name is Snotty.
He runs around to soak in the sun,
Eating his delicious bun, just for fun
Whenever we scream, Snotty!
Runs away the dog, who is naughty.
When we don't give him subway,
There in anger, he huffs and puffs trying to blow the house away.
Sometimes he steals the cake,
And sometimes we just give it away... Okay Take!
Oh! That nightmare Snotty!
Undoubtedly, the creature naughty!!!!**

KNOWLEDGE..... OPENS DOORS OF OPPORTUNITIES

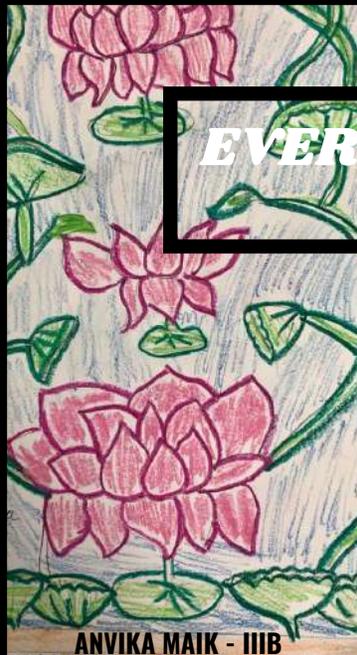

**Incredible cricket !
I love sports
And also,how the coach takes notes.
But cricket is the best,
Amongst the rest.
According to me basketball, football and other sports are not so good.
Others should also agree, oh yes, they should!
Cricket is the easiest sport to play.
Take a bat and just hit the ball away.
People get relaxed when cricket is the sport, they play
Because all they have to do is hit the ball away.
If not, you can throw the ball
To the batsman, who hits it on the wall.
Now you know cricket is the easiest sport to play,
Because all you have to do is throw or hit the ball away.
I hope now you agree, oh yes, you would
That other sports are not so good!
EAST OR WEST, CRICKET IS THE BEST!!!**

संपादिका की कलम से

प्रिय पाठक,

यह वर्ष हम सभी के लिए चुनौती पूर्ण रहा, जहाँ हम सभी ने विपरीत परिस्थितियों का सामना करते हुए अपने सकारात्मक व्यवहार व नवीन ऊर्जा से नए आयाम बनाए | घर में रहकर जहाँ बच्चों ने रिश्तों की ताकत व भावों की गरमाहट को महसूस किया वहीं विद्यालयों का संचार माध्यम से घरों तक पहुँचना नई तकनीकी का सफल प्रयास रहा है, जिसने शिक्षक व शिष्य के बीच के रिश्तों को और भी मधुरता प्रदान की | यह साल हम सभी के लिए एक यादगार वर्ष रहा है जिसमें हम सभी ने अपनी क्षमता को निखारा है | इसी सोच को अग्रसर करती है हमारी पत्रिका जिसमें छात्रों के भावों, विचारों तथा रचनात्मकता को नई ऊँचाई दी है | आशा है आपको हमारी ये प्यारी-सी कोशिश पसंद आएगी |

गंगा का पानी

गंगा का पानी जिसकी स्वच्छ थी कहानी
जिसे प्यार, आदर और सम्मान दिया हमने
फिर धीरे- धीरे वापस छीन लिया हमने
स्वच्छता और पवित्रता सिर्फ नाम में ही रह गई
हमारी गंगा अब छूने से ही मैली हो गई
कूड़ा -कचरा ,फक्ट्रियों का गंद और शवों का भार
कितना बढ़ गया जिससे इसका अस्तित्व ही मिट गया
लोगों को समझाने की अब तो हद हो गई
हमारी गंगा की पवित्रता कहीं खो गई
प्रकृति ने अब अपना ख्याल खुद रखना शुरू कर दिया
या कहे इंसान को आड़े हाथों ले लिया
कोरोना से ही सही गंगा अब स्वच्छ हो गई
महीनों सालों जो हम न कर सकें
एक महामारी कर गई
गंगा पर अब फिर से डोल्फिन का राज है
साफ़ जल और स्वच्छ आकाश अब इसके साज है
साफ़ जल और स्वच्छ आकाश अब इसके साज है ||

अनिता दास
हिंदी अध्यापिका

प्रकृति के सुंदर रंग

कभी मुस्कुराती तो कभी खूंखार बन जाती
प्रकृति के रंग देखकर हम दंग रह जाते
कहीं है बर्फ से ढकी हिमालय की चोटियाँ
तो कहीं है गंगा, यमुना, ब्रह्मपुत्र प्रकृति माँ की बेटियाँ

चिड़ियों का चहचहाना सुबह-सुबह
तो चमकते सितारों का सुंदर रात में जगमगाना
पत्तों पर ओस की बूंदें वहीं फूलों का खिलना
अनोखी, प्रकृति का हर रूप है

हर साल हम मनाएँ जन्मदिन मिलजुल कर इनका
बाकी सारे दिन भूल जाते हैं
नहीं सोचते कि जीवन क्या होगा इनके बिना हमारा
पानी फेरते चलते हैं इसके सुंदर रंग पर
पश्चाताप तो करना पड़ेगा कहीं पर

कसक तो होती होगी मन से भी इसको
तभी तो जीवन देने वाला जल कभी
उफान बन कर जाता जीना हराम
कहीं सूखा कर हमें भूखा छोड़ जाता
तो कहीं महामारी ले रही है बदला

प्रकृति के हर रूप निराले व सुंदर है
इसके हर रूप से हमें सीख लेनी है
चलो हम करें इससे खुशी का आदान प्रदान
कीमती अनमोल रंगों का रखें हमेशा मान ।

मेरे प्यारे 'पापा'

दिल जिसका का निराला 'वह मेरे पापा'
हमारे परिवार का उजाला 'वह मेरे पापा'
हर काम में अब्बल खेल हो या पढ़ाई
पर मम्मी से हो जाती कभी-कभी लड़ाई
कांधे पर बैठकर जिनके देखा मैंने जहां
ज्ञान जिनसे मिला क्या अच्छा क्या बुरा
कभी मेरे लिए घोड़ा तो कभी बने हाथी
कदम-कदम पर उनकी छाया हम पर है चमचमाती
मेरी हर गलती पर प्यार से मुझे समझाते
हार -जीत पर जश्न वह मनाते
जिंदगी खुल कर जीना सिखाते वह हैं
मेरे पापा,
मेरे प्यारे पापा ।

खेल

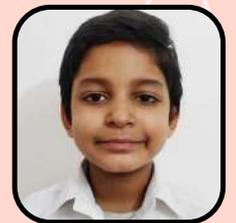

कितने सारे खेल हैं ,खेलने के लिए
क्या खेलूँ आज मैं आप मदद करिए
क्या मैं खेलूँ फुटबॉल ?
उसमें मज़ा बहुत आता है
लेकिन भाग-भाग कर मेरा
पसीना निकल आता है
या मैं कैरम खेलूँ
उसमें थकावट तो नहीं होती
लेकिन कोशिश करके भी,
रानी हाथ ही नहीं आती
खेल कोई भी मैं चुनूँ
सब में कोई तो परेशानी है
पर कोशिश करते रहने से
जीत हमें मिल जानी है
खेल-खेल कर सारे खेल
दूर हो गई सारी परेशानी
अब फुटबॉल में थकावट नहीं
और कैरम में भी मिल गई रानी ।

स्वच्छता

प्लास्टिक का आप करो त्याग
इससे सबका होगा कल्याण
यात्रा का पुण्य कमा लो
कूड़ा सिर्फ कूड़ेदान में डालो
यात्री तेरी धन्य कमाई
रास्ते की रख पूरी सफाई
धरती माता करे पुकार
आस-पास का करो सुधार
सुनो आपकी क्या कहती है आत्मा
कूड़े-कचरे का करो खात्मा
धरती पानी हवा रखो साफ ।
आने वाली पीढ़ियाँ करेंगी माफ ।

मेरी केरल यात्रा

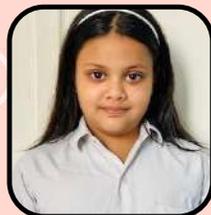

मैं अपने परिवार के साथ पिछले साल केरल घूमने गई थी | सबसे पहले हम कोची में रुके थे, मैंने नारियल के बहुत सारे पेड़ देखे अगले दिन हम मुन्नार चले गए | मुन्नार में हमने बहुत सारे चाय के बाग देखे, मैंने भी कुछ चाय की पत्तियाँ तोड़ी | उसके बाद हम चाय के कारखाने में गए | जहाँ मैंने काली, सफ़ेद और हरी चाय के बारे में सीखा | फिर हम चॉकलेट के कारखाने में काकाओ से चॉकलेट बनते हुए देखने कारखाने गए | वहाँ से हमने चॉकलेट और मसाले खरीदे | केरल मसालों के लिए बहुत मशहूर है फिर हम ने कथकली नृत्य देखा उसके बाद मैं अलेप्पी में नाव के बने घर में घूमी, जहाँ मैंने केकड़ा भी पकड़ा | हमारा आखिरी पड़ाव कोवलम था जहाँ मैंने समुंद्र देखा | यह मेरी बहुत ही मजेदार और यादगार यात्रा थी |

पंछी बन उड़ता है मन
मछली बन तैरे है मन
बादल बन बरसे है मन
ये तो है प्यारा- सा मन
बच्चों का भोला -सा मन
दिवाली पर,होली पर,क्रिसमस पर
घर से बाहर आने को तरसा है मन
कोविड ने किया है तंग
बच्चों का बचपन
छोडे हैं संग
हाय मेरा मन, हाय मेरा मन ।

मछली

मैं हूँ मछली फुदकी -फुदकी
मैं सोचती आकाश में उड़ती
समुंद्र आकाश है एक समान
यह सोच ही में पानी में फुदकी
आकाश में गई में उड़ती- उड़ती
चिड़ियों से मैं करती बातें
फिर वापस पानी में आती
लोग मुझे देखे तो बोले
वाह ! यह मछली तो बहुत है फुदकती

इक्कीसवी सदी के छात्र

इक्कीसवी सदी ने एक छात्र को कलम के साथ-साथ माउस की भी शक्ति दी है। गूगल देवता भी धरती पर प्रकट हो गए हैं और छात्रों को बहुत सारी जानकारी आसानी से प्रदान कर रहे हैं। इन सब सुविधाओं के बावजूद, इस युग के छात्र की जिंदगी में नयी तरह की कठिनाइयाँ दिखाई दे रही हैं। सब चाहते हैं की वे पढाई के साथ-साथ संगीत, खेल-कूद, कंप्यूटर प्रोग्रामिंग आदि सभी चीजों में अक्वल हों। माता-पिता और अध्यापकों की ऊँची उम्मीदें बच्चों पर दबाव डाल रही हैं। आखिर में, मैं सिर्फ यह कहना चाहूँगा की बदलती सदी की परछाई आज के छात्र में साफ़ दिखाई दे रही है। उत्तम समय के निवेश से वे अपना और दुनिया का भविष्य उज्जवल बना सकते हैं।

चिड़िया

हवा में उड़ती चिड़िया रानी
खाती खाना पीती पानी
गाना गाती पेड़ पर बैठकर
उस पर बनाती अपना घर
अपने बच्चे को दाना
खिलाती
सबको वह खुशियाँ देती
उसकी है मीठी बोली
और वह नीली पीली
आकाश में उड़ते उड़ते
लगती बहुत ही सुंदर
हवा में उड़ती चिड़िया रानी

कोरोना

कोरोना आया तो इंसान घबराया
घबराकर सारी जिंदगी को ठहराया
सब कुछ थम गया कोरोना के डर से
लेकिन जीने का ज़ज्बा ना हुआ ज़रा भी कम
जीने के नए तरीके निकल कर आए
जो कभी ना किया वो सारे तरीके आजमाए
मास्क सैनिटाइज़र को जिंदगी का हिस्सा बनाए
स्कूल और ऑफिस को भो घर से कराए
दौड़ती भागती जिंदगी में थोडा सुकून भी लाया
परिवार के साथ हँसना खेलना सिखलाया
कम किया प्रदूषण को और वातावरण को स्वच्छ बनाया
लोगों को स्वच्छता और सावधानी का नया पाठ पढ़ाया
वक्त ही तो है गुजर जाएगा कोरोना से इंसान जीत जाएगा ।

हिंदी दिवस १४ सितंबर २०२०

हिंदी दिवस की शुरुआत १४ सितंबर की सुनहरी सुबह के साथ हुई, जहाँ संचार-संपर्क माध्यम से कक्षा तीन से छह तक के छात्रों के लिए विशेष प्रार्थना सभा का आयोजन किया गया जिसमें सतत विकास लक्ष्य को लेते हुए नाटक, वृत्तचित्र, साक्षात्कार, नृत्य आदि की प्रस्तुति की गई और हिंदी दिवस के महत्त्व से उपस्थित सभाजनों को अवगत करवाया गया।

१४ सितंबर को कक्षा तीन से छह तक के नन्हें-मुन्नें छात्रों ने कक्षानुसार संचार संपर्क माध्यम से विभिन्न गतिविधियों में भाग लिया। कक्षा तीन के छात्रों ने अपनी मनपसंद हिंदी की कहानी के शिक्षा को लिखते हुए पुस्तक चिह्न बनाए। कक्षा चार के छात्रों ने कविता, नृत्य और परिधान का चुनाव करते हुए अलग-अलग राज्यों की संस्कृति और संस्कार प्रस्तुत किए। कक्षा पाँच के छात्रों ने वाक् प्रतियोगिता में दिए गए विषय पर एक मिनट तक अपने विचार व्यक्त किए। कक्षा छह ने मुहावरों पर आधारित कहानी प्रस्तुत की। छात्रों का उत्साह दर्शनीय था। हिंदी सप्ताह के दौरान आयोजित की गई गतिविधियों में भाषा को सुदृढ़ बनाने एवं छात्रों की कल्पनाशक्ति को विकसित करने का पूर्ण प्रयास किया गया। सभी गतिविधियों में छात्रों ने उत्साहपूर्वक भाग लिया।

like the body that does not eat.***

FRENCH REVERIE

L'IMPORTANCE DU SPORT

Le sport est une chose très importante pour notre vie. Il maintient notre corps en forme, fort et en bonne santé. Faire du sport est aussi important ainsi que faire des études. Il répare tous les tissus et cellules endommagés pour que nous puissions vivre confortablement. Il existe de nombreux sports comme le cricket, le football, le hockey, etc. Ces jeux qui se jouent à l'extérieur sur le terrain ou dans la cour de récréation sont appelés jeux de plein air. De nombreux autres jeux d'esprit qui utilisent l'esprit sont les échecs, le Carrom Board, le ludo et de nombreux autres jeux de cartes comme UNO, etc. Le sport joue un rôle très important dans notre vie.

MON SPORT PREFERE LE CRICKET

Mon sport préféré est le cricket. Dans ce sport, nous avons beaucoup de choses à faire comme frapper, jouer au bowling, garder le guichet et jouer sur le terrain. Je suis un lanceur et je suis bon à la batte et au champ. Il y a onze joueurs dans chaque équipe et deux capitaines. Puis ils lancent le ballon pour le batting et bowling. il existe quatre types de séries et de matches : t10 10 overs , t20 20 overs , ODI 50 et de test séries .l'équipe au baton fixe un objectif a l'équipe au baton et après la fin du premier tour de batte, l'équipe au baton joue et l'équipe au baton joue. l'equipe a la batte actuelle comptabilise les runs réalisées par l'équipe de bowling actuelle. . il existe de nombreuses séries comme : world cup, Bigbash league , indien premier league , Pakistan premier league, natwest t 20 blast and Caribbean premier league. Mes joueurs de cricket préférés sont: Sachin Tendulkar , Kapil Dev , Virat Kohli (capitaine actuel) , M.S. Dhoni, Rohit sharma , Shikhar Dhawan ,Rahul Dravid , Sourav Ganguly , VVS lakshman , Sunil Gavaskar , Yuvraj Singh , Gautam Gambhir , K.L.Rahul et Hardik Pandya. J'aime le cricket.

MES VACANCES PENDANT LE CONFINEMENT!

Pendant les vacances je vais à Dehradun. J'habite dans cette belle ville depuis Mars, après mes examinations, avec ma grand mère et mes parents à cause de confinement (lockdown)

Le temps est toujours beau ici. Même en été, nous n'utilisons pas des climatiseurs. Il pleut aussi parfois.

Ma maison en Dehradun est grande. Elle a deux étages et une grande jardin avec beaucoup des fleurs et des arbres. Je regarde les singes sur les arbres de ma fenêtre.

Je cours dans le jardin avec mon père et joue avec mes parents tout les jours. Je lis les livres aussi et parle avec mes amis sur le téléphone.

J'aime Dehradun, nous nous amusons beaucoup mais je manque aussi Gurgaon et mon école.

LAS PERSONAS QUE NOS SIRVEN

Las personas que nos sirven diariamente: las personas que nos sirven, no son nuestros relativos, sino que comparten su Wal y Woe. Se ocupan de nuestra vida cotidiana. En la MornIBG cuando todavía estás en la cama, llega el papel-chico. Lanza el papel de Thendaily, las revistas, etc. El papel-niño recibe la noticia del mundo a nuestros pasos de la puerta. Luego viene el hombre de la leche que viene de Delhi con su leche pura y cremienta de Amul. Luego viene la doncella que venían a nuestras casas, limpian los inodoros, la cocina y el resto de la casa. Luego viene el cartero, en su mayoría tenemos que esperar a que le traiga correos incluso cuando está lloviendo, trae buenas noticias.

Yuvraj Dhankhar

Mi hermana se llama Adviti Nihaliya. Ella tiene siete años. Ella es tres años menor que yo. El día que ella empezó a llamarme hermano mayor comencé a entender mi responsabilidad de ser hermano. ¡Aunque ella es muy traviesa! A ella le gusta molestarte en clase y ella también me irrita cuando estoy estudiando. Pero yo vengo bromando con ella. Mi hermana es bonita, linda y traviesa. También tenemos reuniones secretas cuando queremos bromear con papá o mamá. La ropa y los zapatos que son pequeños para mí automáticamente se vuelven suyos. ¡Que alegría tener una hermana.

SAVE
THE
PANDAS

***GLIMPSES OF
ELEMENTARY YEARS
PROGRAMME***

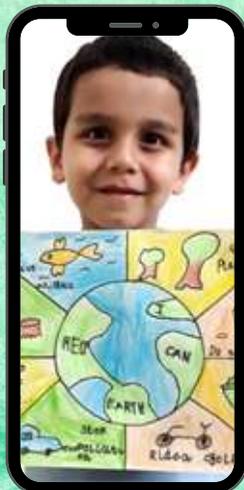

The year 2020 will forever be remembered in history as a time when all the schools, colleges and educational institutes across the world shut down due to the outbreak of pandemic coronavirus. While no one was prepared for the pandemic that hit the world, the education system was one of the most disrupted sectors. The students at Suncity School participated in a plethora of activities that were conducted during the year, on the virtual platform.

EARTH DAY

The students of the Elementary Years Programme celebrated Earth Day on Wednesday, 22nd of April 2020, on the virtual platform. They recited poems and made posters to spread awareness to save Mother Earth.

MOTHER'S DAY

Mother's Day is a special day, for all the children and mothers as, it celebrates the bond of love and affection that is everlasting. The little ones celebrated Mother's Day on the virtual platform on Friday, 8th May 2020. To make the day memorable one for all the mothers, the children gave a warm hug and wished Happy Mother's Day to their mothers. They presented a beautiful dance performance on the song 'My mom is a superstar', it was followed by a message and a beautiful poem on mothers and various activities. The mothers were overwhelmed looking at their children's performance.

FATHER'S DAY

'A father is someone you look up to no matter how tall you grow'. The little ones celebrated Father's Day with great enthusiasm on the 22nd of June 2020. They took an active part while doing yoga 'asanas' with their fathers. The event concluded with fathers expressing their feelings on the occasion.

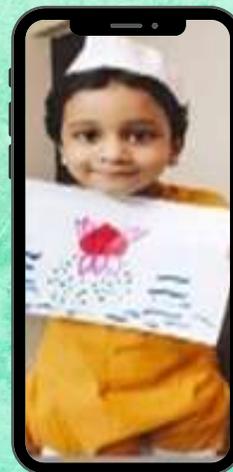

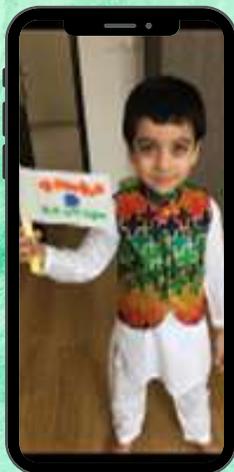

'RAKSHA BANDHAN' CELEBRATION

Raksha Bandhan is one of the most endearing ways to celebrate the bond between brothers and sisters. To strengthen this bond, the festival was celebrated the festival on the virtual platform.

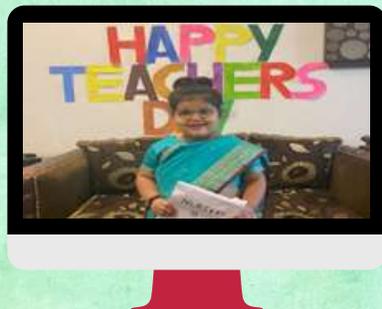

INDEPENDENCE DAY

To commemorate the 74 years of Independence, the children celebrated Independence Day with great pride and patriotic fervor. They were apprised about the significance of the celebration through an array of activities.

TEACHERS' DAY

Celebrated 'Teachers' Day on Friday, 4th of September 2020. The children expressed their love and gratitude for their teachers by making beautiful cards, singing rhymes and songs. Some of the children even dressed up as their favourite teachers.

HALLOWEEN CELEBRATION

Halloween celebration was held on Friday, 30th October 2020. The little ones had a fun-filled day with their friends.

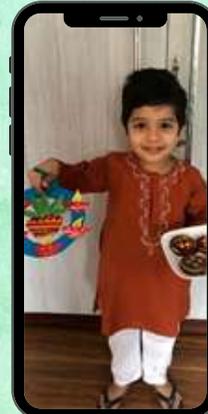

CHILDREN'S DAY

To remember Pandit Jawahar Lal Nehru and his love for children, Children's Day was celebrated on the virtual platform on Saturday, 14th November 2020. A video was shared with the students through which the teachers expressed their love and made them feel special on the occasion of Children's Day.

DIWALI CELEBRATION

Diwali, the festival of lights ushers in festivities across the nation with great pomp and excitement. To celebrate the spirit of the festival and explore the creativity of the children, myriad activities were planned for the day.

CHRISTMAS CELEBRATION

Christmas is one of the biggest festivals celebrated around the world on the 25th of December every year. The children celebrated the festival with great zeal and enthusiasm. They enjoyed the day by listening to the Nativity story, singing Christmas carols, playing a game, making a Christmas card, and preparing a yummy dessert with their peers.

BIRTHDAY CELEBRATIONS

At the heart of every birthday celebration lies the most important element which is to have fun coupled with practical life lessons. These celebrations aim at encouraging children to participate in a variety of games which imbibe in our tiny tots, a healthy spirit of competitiveness, as well as, learn how to conduct themselves in such celebrations.

RESEARCH WORK BY THE STUDENTS

'Research is formalized curiosity. It is poking and prying with a purpose.' It is a well-established fact that curiosity makes learning more effective and enjoyable. Curious students not only ask questions but also actively seek out the answers. With this agenda in mind and to take the curiosity of the children to a whole new level, the children of Nursery and Kindergarten participated in the 'Rocking Research' activity.

THE ORIENTATION PROGRAMME

An Orientation Programme was organized for the new parents on 20th February 2021. The objective of organizing the programme was to give an insight into the curriculum, teaching methodologies, co-curricular activities and, rules and regulations of the school. The programme commenced with a warm welcome note followed by prayers. The Director, Ms. Rupa Chakravarty and Ms. Sangeeta Bagchi, Headmistress-Elementary Years Programme addressed the gathering.

ON-CAMPUS INTERFACE

The Suncity school held an 'On-campus Interface' session for the students of the Elementary Years Programme on March 15th, 2021. The on-campus interface was organized ensuring COVID safety measures. The objective of organizing the session was to provide an opportunity to the little ones to meet their classmates and teachers in person.

INTER-SCHOOL COMPETITION

'Competitions teach us life skills to give our best under all circumstances.'

The little ones of the Elementary Years Programme proved the above quote right by participating in an Inter-School Virtual Competition 'Pratibimb' organized by G.D Goenka Public School, Sector- 48, Gurugram, on Saturday, 29th August 2020, with a lot of zeal and enthusiasm.

Arav Jain participated in the 'Martial Arts' category.

Tanishka Sethi participated in 'Rhythm Riders'.

Amaya Sheron participated in 'Story Spinner'.

Amaira Garg participated in 'Rhyme Recitation'.

Adwait Daga participated in 'Artistic Yoga'.

Kashvi Singh participated in the 'Shloka Gayan' category.

All the children performed with gusto and aplomb. Their performances were laudable.

Kashvi Singh won the 2nd position in the 'Shloka Gayan' and Tanishka Sethi won the 3rd position in the 'Rhythm Riders' category and brought laurels to the school.

INTER-SCHOOL COMPETITIONS

In order to be ready to face the challenges with great aplomb, the students of the **Elementary Years Programme** participated in an Inter-School Virtual Competition 'Shalom Podium' organized by Shalom Presidency, Gurugram, on 1st of March 2021. Pre-recorded videos of the children were submitted for the competition:

Siya Lamba and Vihana Sharma (Nursery) participated in the 'Art Attack' category.

Avanya Sudha and Vaanya Sharma (Nursery) participated in the 'Pitter Patter' category.

Miraya Singh and Aaradhya Agarwal (Kindergarten) participated in the 'Young Babblers' category.

Abeer Khanna and Shagun Bisht (Kindergarten) participated in the 'Buddy Creators' category.

The little ones participated wholeheartedly and brought laurels to the school. **Siya Lamba won the 1st position in 'Art Attack'**. She created a beautiful scene using dry leaves, flowers and many other creative natural things.

Avanya Sudha won the 1st position in 'Pitter Patter'. She recited a poem with voice modulation and expressions.

Aradhay Agarwal won the 3rd position in 'Young Babblers.' He dressed up as a bug, sang a rhyme and spoke a few lines to bring alive the chosen character.

Abeer Khanna won the 2nd position in 'Buddy Creators'. He created a beautiful miniature garden using fruits and vegetables.

It was an enriching experience for the children.

VIRTUAL CLASS ASSEMBLIES

Assemblies are the gateway to exposing the talent of every child and also to imbibe values in them. Every section gets an opportunity by rotation to present the class assembly. The little ones presented their class assemblies on different topics/themes. Some of the sections presented their class assemblies on saving the environment and expressing gratitude, in the session 2020-2021.

MEDITATION KEEPS US HAPPY AND FOCUSED

Meditation is a way to exercise your mind and brain. It is like a muscle, the more you exercise it, the stronger it gets and the more it can expand. In meditation you have to sit and keep your back straight and focus your mind in the center of the forehead. You should visualize those things which you want to do and make yourself feel better. You can start by doing meditation for 5 minutes and slowly increase the time. It will also help you to imbibe good habits. Children should learn meditation; it is the right time to learn because this is the foundation age of life. It will help us as well as others. Happiness and focused behaviour would help us at every step of our life.

Thank you Readers!

THE EARTH (POEM)

**The earth is in your hands
This land is my hands
The earth is our home,
Let's work together
With love and care
To make it better
The earth is in your hands
This land is my hands
Let's work together,
To make it better,
To clear blue waters,
To clean dusty air,
The earth depends on you and me!
The earth is in your hands
The land is my hands.**

THE PLACE I LOVE TO VISIT

Once upon a time, there was a man, who loved children a lot and he wanted to make them happy and full of joy. One day he went to a birthday party and saw kids not enjoying themselves enough, he asked them why they were not playing. The birthday girl said, "I don't have toys that let me have fun. The man decided to build a store 'full of toys' where kids could play and learn new things and he named this store as HAMLEYS. Kids started to visit Hamleys and they all loved the colourful and beautiful store where they could have lots and lots of fun. I will also go to Hamleys on my birthday!

MY MOM, I AND OUR LITTLE ADVENTURE

Our tickets were booked, bags were packed; finally, my mom and I were ready to start our little adventure which was 'our trip to London'.

My father had gone to London a week earlier for work; we were joining him for 2 weeks. My mom and I were travelling alone for the first time and were excited. We had a lot of fun in the flight. We reached in the afternoon and by the time we reached the hotel it was evening. The hotel was very beautiful and was near the Thames River. During our trip we visited a lot of places like London Bridge, Tower Bridge, St. Paul's Cathedral and many more places. The ride on 'London Eye' was such fun, the view was beautiful.

We used to travel using the double decker bus and eat tasty food every day; I especially remember the hot dogs we had one day from 'Borough market'. We also visited London's beautiful parks. I remember feeding ducks and pigeons with my hands at Hyde Park. I used to ask my mom to make some food for pigeons every day to feed them before leaving. That trip was amazing and I had a lot of fun, I look forward to going back as soon as possible.

ZONG ZONG AND HER MAGIC WAND

In a little town near "Wonderful World" lived a girl named Coco. One day, Coco's town ran short of water. She went to the Wonderful World and asked Zong Zong if she could take any (water). "Wait, I will help", said Zong Zong. She waved her magic wand in a circle and said, "Hokus Pokus Wingy Wangy Hy", and in a flash cans of water popped out. "Thanks, Zong Zong", said Coco. Everyone in the town thanked Zong Zong and Coco for giving them water

THE FOREST OF WISHING TREES

Once upon a time, there were two sisters, Vinny and Betsy. They lived in a small cottage with their mother. Vinny was almost nine years old, but she was not friendly. Her younger sister Betsy was four years old and very nice.

One day, their mother gave them some money and told them to go to the supermarket to buy a jar of honey to eat with pancakes. She told them to take the main street to town. Vinny was naughty and thought they could play video games instead at the plaza outside the supermarket. She was in a hurry to play and took a shortcut. Betsy was very worried and wanted to go back to the main street, but Vinny told her not to worry. After some time, they realized they were lost!

There was a grassy meadow and lovely green trees as far as their eyes could see. Betsy stepped on a hole in the ground and out came a brightly colored caterpillar. Betsy shouted in surprise, but Vinny couldn't see it. The caterpillar told Betsy that his name was Leoch and they were in the forest of wishing trees. But only nice and polite kids could see the forest. Since Vinny was so rude, she couldn't see it. Betsy told Leoch that they had to buy a jar of honey but got lost on the way. Leoch told Betsy to make a wish. She wished that she and her sister were back at home. Leoch whistled and a cute honeybee came. Her name was Boo and she was carrying a pot of golden honey. Betsy thanked Boo and Leoch and in a flash, she and Vinny were back outside their own home. Their mother was very happy. They ate the honey with pancakes. It was the most delicious honey they had ever tasted.

TOTOTEET – MY BROKEN TOOTH

Once there was a girl named Shruti. And, she really liked to walk in the morning. But one day when she was walking, she felt her tooth was loose! She felt scared and ran to tell her mother. After listening to Shruti, her mother laughed and said, "Oh my Dear! Let us name your moving tooth. Let's call it Tototeet, ok? Shruti said, "Ok mommy!"

Next day, it was her birthday. But she did not want to take a bath.

Shruti: "Mommy, can I go out for a few minutes?"

Mommy: "Ok, but only for a few minutes."

Shruti: "Ok mommy."

Mommy, "Hahaha, good girl Shruti! Now quickly go and come back soon. Wait!

Shruti: "What mommy?"

Mommy: "You can go only if you promise me something."

Shruti: "Ok Mumma."

Mommy: When you will come back home, you have to take a bath, ok?

Shruti: "Ok mom, can I go now?"

Mommy: "Sure, bye!"

Shruti comes back.

Mommy: "Are you ready to take a bath my dear?"

Shruti: "Yes mommy"

Mommy: "Good, now come with me to the bathroom. There is a big surprise for you here!"

Shruti: "Really mommy?"

Mommy: "Yes my Dear! There is a surprise. Now come, let's see what is the surprise. Happy Birthday Shruti! This is your surprise!"

Shruti: "Thank you very much you all. I love you! This was the greatest surprise in my world!"

Mommy: "Shruti, Tototeet is about to fall off!"

Shruti" "Oh no!"

Then Shruti cried so much.

Mommy: "Shruti! Shruti, don't feel scared. Now let me touch it a little, ok? Shruti, Tototeet is broken!

Shruti: "Oh no!! Tototeet? NO, NO, NO! How could it be? I am scared!

Mommy: "Don't be scared, you are a brave girl Shruti!"

Shruti: "No, I am not!"

Mommy: "Shruti, you are 7 years old, be brave!"

MY LAST TRIP BEFORE CORONA

In January 2020, I went to Sariska Wildlife Sanctuary with my family and friends. It was a road trip with a halt at a restaurant on the highway for lunch and tea. When we reached our resort, we were in the center of the forest. The place was full of greenery. There were birds chirping and colorful peacocks all over the place. At night, we danced and played and had the bonfire. I did the jungle safari in an open jeep. It was very exciting. We saw the tiger's footprints. There were many animals like deer, jackal, crocodile etc. We went to a temple as well. It was a fantastic trip with lots of fun. I hope this corona goes away soon and I can go on many trips like this.

MEMORABLE TRIP TO GOA

It was about last year I went to Goa with my family. I was eagerly waiting for the day since my father booked the ticket. Finally, the day had arrived. We boarded the flight. As the plane took off, I started feeling hungry. We took out home cooked food made by mother and grandmother. It was yummy. The flight landed and we took a taxi to the hotel. The hotel was very beautiful. It had a swimming pool in the lawn. We went to the room. The room was very beautiful with a soft and cozy bed, balcony with greenery all around. We slept to relax and then the next day we went to the beach. I played with sand on the beach, made a few sand castles and enjoyed a bath in the sea. Next day morning we took a boat ride to watch the dolphins. I was very excited to have a glimpse of the dolphin, but I could only see its fin. In the evening we boarded the cruise, It was fun on the cruise as I danced to songs. On the last day, we went to the hotel pool and relaxed there for sometime and then the time came to bid goodbye to Goa. It was a fun trip and I am waiting for another such trip.

THE UNICORN AND A DRAGON

Once there was a unicorn, who lived on an island made of candies. There were a lot of jelly-flowers, lollipop trees, chocolate swings, slides and animals on this island. One day, the unicorn was flying in the sky. All of a sudden, the sky turned black and she saw a dragon breathing fire flying in the sky. The unicorn flew back to the ground and warned everyone not to fly in the sky. The dragon flew to the ground and started destroying the island by breathing fire. Everyone started running here and there for cover. Then the unicorn used her magical powers and threw the dragon away. Everyone was happy and they had a party.

MY FAVOURITE TRIP

We went to the US during my summer vacation. I had lots and lots of fun. We stayed there for 48 days. I went to Disneyland and SeaWorld. In SeaWorld, I went on a scary boat ride. In Disneyland, I met Mickey Mouse. After that we went to my mother's friend's house in Texas. We went to Niagara Falls. It was so beautiful. After that we went to New York and visited the Statue of Liberty in a boat and took lots of photos. At last, we went to my aunt's house and we stayed there for three weeks and then we came back to India. I want Coronavirus to go away soon, so that I can visit the US again.

MY FUN FILLED 6TH BIRTHDAY

I celebrated my 6th Birthday in Goa. I went to Goa in an aero plane. I enjoyed the aero plane ride. We stayed on a beach side hut called Maya. We had lots of fun on the beach. I took bath in the sea. My parents gifted me a sand kit. I made so many sand castles and the beach was filled with sand castles. I ate pizza and drank juice by the beachside. I cut the cake in the evening in the presence of my new friends and some strangers too. Everyone wished me Happy Birthday. It was my best birthday ever!

THE FAIRY AND THE FLOWER

Once upon a time, there was a little fairy who lived in the magical fairyland. She had pink hair, a white sparkly dress and really pretty eyes. She always stayed happy and made other people happy too. She had a lot of friends who loved spending time with her. They used to play in the magical fairyland forest. The forest had trees with purple leaves and pink glitter grass. All animals were friends with the fairies. But there was a big, ugly brown flower which no one liked because it smelled so bad. The flower was sad that nobody loved it. But the pink fairy always said Hi to the flower. Once, when the fairies were playing in the forest, a bear came to catch her and her friends. They used their fairy power but it didn't work on the bear. He was coming very close. Just then, the fairy had an idea. All of them ran near the smelly flower. The flower put out its yuckiest smell. The bear was so disgusted by its smell that he ran away and all the fairies were saved. Moral of the story is we should be nice to everyone.

A MAGICAL TRIP TO ANDAMAN

**My trip to Andaman has been the best vacation of my life so far. My little cousin
who stays in Port Blair accompanied me to all the places we visited.
On the first day of the vacation, we went to Ross Island and I touched a deer for
the first time and it ate all of my coconut. I was both amused and amazed.
Next day, we went to Marina Park where I got to see one of the biggest National
Flags in India. The waves were so high that they splashed on us while walking on
the road. I played a lot with my cousin.
Then, we went to Jolly Buoy beach and saw colorful fishes and sea anemones in a
glass bottom boat. We also went to Dolphin Resort in Havelock Island on a cruise.
It was the first time that I was travelling on a cruise. The color of the ocean was
green and blue!At Havelock, we played at the beach, and there were lot of corals
and tiny crabs around. I found a heart shaped corall!My father did scuba diving and
saw a red octopus underwater. When I become 10 years old, we will go to
Andaman again so I can also do scuba diving.This was my most amazing
experience so far.**

IMPORTANCE OF CLEANLINESS AND HYGIENE

During this lockdown period, I learnt that we could take small steps at home, to stay healthy. Maintaining cleanliness is one such simple step that can help us to stay healthy. We should keep our houses and society clean as much as possible. We should not throw garbage on the floor but in the bin. If you see someone throwing something on the floor, politely tell the person not to do so. If you see chocolate or toffee wrappers lying around, please put them in the bin. One should always wear gloves and a mask while moving out of the house and should discard them once back. Wash hands thoroughly with soap before touching anything. This would save us from deadly diseases like COVID-19. It is rightly said, Cleanliness is next to Godliness. So, let's ensure that we all take this basic step towards keeping our surroundings clean, and I am sure we will soon realize the vision of "Swachh Bharat".

MY MEMORABLE TRIP TO UDAIPUR

I still remember my last trip to Udaipur. It was fun. I went to Udaipur with my parents by car. As soon as we reached the hotel, I was surprised to see that it was surrounded by water and I was amazed as I had never seen this before. From there, we took a boat to reach our hotel. First they welcomed us by showing flower petals and served us some drinks. In our hotel room, there was a separate small bed for me, also there was beautiful painting on the room wall. I saw a shadow dance and birds were chirping. There was a fort, called City Palace, near our hotel and it was visible from our room through a glass window. In night time with the lighting it was looking awesome. Next day we also visited the City Palace, a zoo and other places. I enjoyed it a lot and I would like to visit this place again.

READERS BECOME LEADERS!!!

Being a 7 year old child, I have a lot of curiosity. Some were answered by my parents, some were not. But I always had more and more questions. At the age of 5, my parents found an interesting solution to my quest of curiosity. Books!!! Whatever was the subject of my curiosity, I was handed over a book. No google, No Internet; Books. At first I wanted quick answers like saying "Ok Google, What's an Army? Hey Siri, Where is Norway located?. Even when I got an answer to these questions, I would forget almost the next day. But When I was handed over the World Atlas Book, It gave me quite a joy to explore so many different countries, continents and oceans. That's how my reading journey started.

Books are your best friends. I started reading books on various subjects; Geography, Religious, History, Fiction, short stories & many more. I would read in my free time and learn many new things about different subjects. I was able to share many new stories with my friends and relatives. I was happy, cheerful and excited before and after reading. Books became my best friends. I could read whenever I want, whatever I want and however I want with great satisfaction. During Corona time, I had to spend a lot on my laptop to attend my class. Also during lockdown the amount of time spent on TV went up significantly. It was also difficult to meet and play with my friends for seven to eight months of lockdown. In such times books were of great help in keeping myself busy and reducing my screen time. Reading is the best exercise for my mind. It helps keep my mind fresh, calm and opens new doors of knowledge for me. I have got so many new ideas because of reading. I recommend reading for all kids to make them smarter, wiser and a better person.

HOW TO LEARN TO RIDE A BICYCLE

Hi, I am Darsh Kumar and I am going to tell you how I learnt to ride my bicycle.

First I had supporters on my bike, but my father removed them. After that, I kept on crashing and did not feel like riding any more. But after some time I finally took a chance and this time it was a little bit fun. From then on I kept on riding. Days passed and every day I used to ride my bicycle, I improved! Finally, I learnt to ride a bicycle. I was so happy!

So, now I ride my bicycle every day and with practice I learnt and got better at riding it.

I'm sharing some tips that helped me to learning how to ride a bicycle:

1. Keep the steering wheel straight. Stay Focused.
2. Look in the front while you're riding.
3. When you want to stop, don't use your legs but use the brakes that are just in front of you on the handle.
4. Most important of all, never ever give up. Be strong if you want to ride a bicycle.

I've even got hurt but it does not matter much. So friends, keep Riding and Keep Enjoying!

JUST SING ALONG THIS SONG OF ONOMATOPOEIA!!

Ding ,ding, ding, rings the bell.
Ting, ting, ting goes the glass.
Meow, meow, meow says the cat,
Woof, woof, woof, barks the dog.
Yeh, Yeh, Yeh yells the crowd to hear
The boom, boom, boom sound.
And hum, hum ,hum people sing along.
Onomatopoeia, Onomatopoeia is the sound we hear all around us.
Buzz ,buzz, buzz goes the buzzer.
Tick Tok ,tick tok ,tick tok goes the clock.
We hear the Onomatopoeia, Onomatopoeia sound
everywhere all around.
So, Why don't you all sing along to this Onomatopoeia song?

MY MEMORABLE TRIP – THE GOLDEN CITY ‘JAISALMER’

Last year, I went to Jaisalmer during my winter vacation with my family. I went to the desert, but before taking a camel ride, we had to do a safari by a jeep to reach the sand dunes. The jeep went very fast, and was having so much fun. I thought it would be fun taking a camel ride but when I saw the camel, I was so scared t I hid behind my parents, but then my parents encouraged me, so I sat on the camel with my parents. I was scared when the camel stood up and started moving and while it sat. I laid on the sandy bed, it was tickling me, I had so much fun. I threw sand on my parents and I also saw a lovely sunset. When I went back to the hotel, I had some delicious Rajasthani food like-Dal bati Churma. After eating, we saw some amazing Rajasthani Folk Dance by tribal men and women dressed in colourful dresses who performed on one of the most popular Rajasthani folk song “kesariya balam padharo mhare des”. Thank you Jaisalmer for the lovely memories. I wish to visit you soon.

MY GUJARAT TRIP

During my last winter vacation, I went on a road trip to Gujarat with my family. In this trip, I visited a lot of interesting places and learnt a lot about the state's history and wildlife.

Dinosaur Fossil Park

Our first stop was the Dinosaur Fossil Park in Balasinor. I was amazed to see dinosaur fossils that were millions of years old. There were fossils of dinosaurs' feet and eggs. We also visited a museum that had models of many dinosaurs such as, Tyrannosaurus and Stegosaurus. Thus, ended my tour of the Dinosaur Fossil Park.

Lothal

Next, we visited Lothal. This is one of the sites of the Harappan civilization. I saw constructions of ancient times like their toilet and docks. One of the most impressive things that I saw was their drainage system. I also saw a large well which was once filled with water. There was a museum on the site that displayed ancient things like the ornaments and cooking utensils of the Harappan people. I went around the ancient town ending my tour of the Harappan civilization.

Gir National Park

Then came the part of the vacation that I was most looking forward to - Gir National Park. Gir is famous for its lions. This is the only place in the world where Asiatic lions can be found. I went on three safaris in the forest. I saw some jackals and langurs on our second safari. There was a baby langur tightly gripping its mother's back.

We got lucky on our third safari. As we fortunately happened to see two lions. The lions passed by our jeep. I was very excited that I finally saw the king of the jungle after searching for two days.

After the excitement of meeting the lions, our jeep came to rest near a beautiful lake where I saw water birds like storks. We also saw some crocodiles feeding. In the last part of our tour we visited the Marine National Park in the Gulf of Kutch. We can explore this national park only when the tide is low. Then, the sea goes back, and people can walk through shallow water. There we saw starfish, sea cucumber and coral. One of my most favourite memories is when I saw an octopus changing colour. This has been one of my most favourite trips. I have never seen so much wildlife before. I will remember this forever and would love to visit again.

LOCKDOWN BIRTHDAY

**April has a special day,
It is my sister's birthday.
I want to go to the mall,
To buy her a little doll.
As she is turning one,
I want to invite everyone.
Lockdown is there anyway,
We can't even go out to play.
Mom knows how to bake,
She will make a yummy cake.
We will blow a big balloon,
Host a birthday party on "ZOOM".**

THE YEAR "2020"

In the year 2020, I did many things for the first time. I witnessed the largest pandemic of my life. Corona Virus came into our life and we could not go out of our house. We all had to wear masks and wash our hands frequently. We could not go to school. We also could not go to the park to play with our friends. In this new world with Corona, everything has become Virtual. I attended online school classes, virtual birthday parties, online chess competitions and online assemblies!

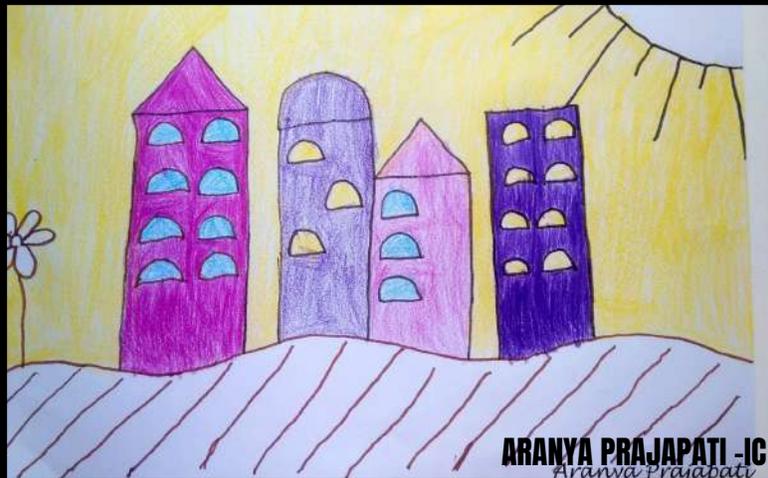

Corona gave me a lot of time to do the things I like the most. At home I did many things during this time. I made many drawings. I also made many things like swords, masks using recycled material. I helped my parents at home with household work. I baked cookies and cakes with my mother.

I really wish the Corona virus goes away so that I can go to school again, meet my teachers and play with my friends.

VIRTUAL EVENTS

GOOD TOUCH AND BAD TOUCH WORKSHOP

HELD ON 22.4.20

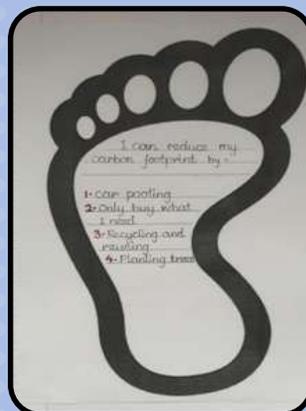

Children were taken through a presentation made by Klay where they were educated about the good touch and bad touch. They were also shown a short video by our school counsellor reiterating some main points and measures that should be taken when we feel uncomfortable.

CARBON FOOTPRINT ACTIVITY

HELD ON 17.7.20

To educate students about the importance of saving the environment ,'Carbon Footprint Activity 'was conducted .Students discussed the ways to reduce carbon footprint by carpooling, using public transport, only buying what is needed, recycling and reusing old material , planting trees, saying no to plastic etc.

TALENT SHOW

HELD ON 17.08.20

A talent show was organized to give students an opportunity to showcase their talents. All of them were super excited about it and they put their best foot forward in entertaining everyone. They danced, recited poems, sang songs, played musical instruments, painted, did gymnastics etc.

INDEPENDENCE DAY

HELD ON 15.08.2020

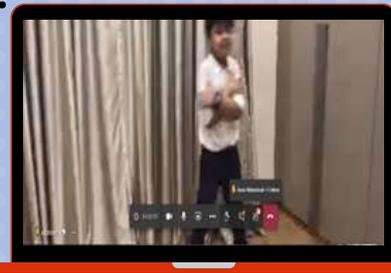

A Virtual Independence Day celebration was conducted by the students of grade I and II. They spoke eloquently about the relevance of celebrating Independence Day and dressed up beautifully as different freedom fighters like Bhagat Singh, Chandra Shekhar Azad, Mahatma Gandhi, Netaji Subhash Chandra Bose, Rani Laxmi Bai, Sarojini Naidu .

TEACHER'S DAY CELEBRATION

HELD ON 4.9.20

On Teachers' Day celebration, Students with full excitement conveyed their feelings for their teachers by doing small gestures. Some children had made attractive cards with heart touching lines written on them and sang songs in the praise of teachers.

READING GRAND PRIX

GRADE I and II

To increase students' inclination towards reading and to develop a regular reading regime, a month-long programme "Reading Grand Prix" was organized in the month of September for the learners of Grade II. A half an hour slot was allocated on a daily basis for children to read under the supervision of a teacher. It allowed students to hone their reading and comprehension skills. The month-long programme concluded with applauding children who were reading regularly and had submitted a maximum number of book reports.

HALLOWEEN CELEBRATIONS

HELD ON 30.10.2020

Students had a virtual Halloween celebrations by doing an array of activities. Children made spooky snacks and relished the same. They also created their own masks and shared their plans on how they would dress up for the occasion.

Grade-I

Grade-II

DIWALI CELEBRATION

HELD ON 9.11.20

Students shared their ideas about how they would celebrate "Diwali". They learnt to make decorative Diya holders using bangles and some decorative materials. A Mithai Making Activity was also conducted in which students tried their hands on making delicious chocolate ladoos using Marie biscuits, condensed milk and chocolate powder.

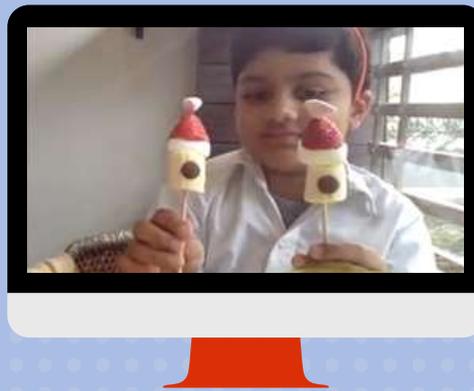

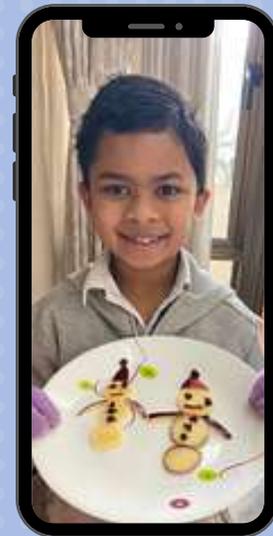

CHRISTMAS CELEBRATIONS

HELD ON 21.12.20

CHRISTMAS TREATS MAKING ACTIVITY

As the festivity was in the air and Christmas was round the corner, children were full of excitement. The session started by showing a short video on the story of Jesus Christ and discussing the importance of celebrating Christmas. Then, a power point presentation to discuss the same was shown to them. Students shared how they would celebrate Christmas -by decorating the Christmas tree, making cards for their dear ones and wishing a Merry Christmas to them. The session concluded with the Christmas Treat Making Activity. The students made Christmas Fruit Skewers using fruits like bananas, strawberries, marshmallows, gems, Choc chips etc. They thoroughly enjoyed doing the activity.

VIRTUAL ASSEMBLIES

PARENTS' ASSEMBLIES

5.11.2020

A Virtual Parent Assembly was conducted by the students of Grade-II A. It began with a prayer, followed by the thought for the day and Idiom of the week. The title of the assembly was "Idioms are Fun". The idioms were explained in a humours manner to make it age appropriate so that students could understand their meaning and usage well. They also learnt that Idioms an important part of every language and the more idioms one knows, the more fluent one's language will be. The students enthralled everyone with their excellent dance performance.

12.11.2020

The students of Class-IIB conducted the Virtual Parent Assembly. It began with a prayer, followed by the thought for the day and the word of the week. The title of the assembly was " Diwali - The Festival Of Lights".

Students shared the story about the five important days of Diwali. (Panchmohotsav) Danteras, Naraka Chaudarshi, Lakshmi Puja, Govardhan Puja and Bhai Dooj. The assembly started with lighting the lamp by a child`s grandmother (Mrs. Dabas) to bless us. Everyone in the audience could connect to the assembly well.

19.11.2020

The students of Class-IIC conducted the Virtual Parent Assembly on 19th November, 2020. It began with a prayer, followed by the thought for the day and the word of the week. The theme of the assembly was 'Time and the title was- Tempus Fugit. Students spoke about the time traveling to ancient Greece and Rome to understand how time was checked during those times. Children enjoyed learning about time by dressing up as ancient Greeks and Romans while performing in the assembly.

17.12.2020

The students of Class-IIH conducted the Virtual Parent Assembly on 17th December, 2020. It began with a prayer, followed by the thought for the day and word of the week. The title of the assembly was 'The great realization of 2020'. It was an emotional journey for all and everyone could relate to it be-it children or elders, so they all enjoyed watching it. Memories of lockdown were refreshed and people could relate to the pandemic journey very well.

VIRTUAL SUBJECT WEEKS

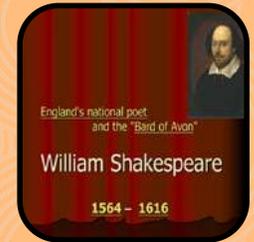

ENGLISH AND PERFORMING ARTS WEEK

THEME- "BARDS- A TRIBUTE TO THE STORYTELLERS OF YORE".

24TH TO 28TH AUGUST,2020

The English and the Performing Arts Week commenced by conducting an assembly by the students of Grade II. The theme of the assembly was "BARDS- A tribute to the storytellers of Yore". Students learnt about two famous bards, William Shakespear, 'the Bard of Avon' and Rabindra Nath Tagore, 'the Bard of Bengal', ever born in the history of English Literature and their huge contribution to the world. It was a great learning experience for all of them and they thoroughly enjoyed being a part of it.

STORY NARRATION FESTIVAL

As part of one of the activities planned for the ENGLISH AND PERFORMING ARTS WEEK, students were given an opportunity to narrate folk tales from around the world. The activity was aimed at developing their confidence and enhancing their oratorical skills. All the Students spoke with proper voice modulation and clear enunciation while narrating the story .

VAUDEVILLE VOYAGE'

29.08.2020

In the 'VAUDEVILLE VOYAGE' activity, they learnt the meaning of the word 'Vaudeville' which means a type of theatre entertainment .Then, they learnt about two all-time favourite vaudevillians Charlie Chaplin and Judy Garland. The session ended by asking students to showcase their acting skills and pantomime the scenarios given to them .

MATHS AND VISUAL ARTS WEEK

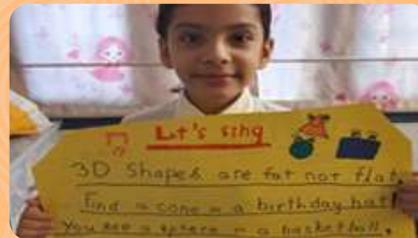

12TH TO 16TH OCTOBER, 2020.

The week started with the vibrant & exciting special assembly on the topic 'SHAPES AROUND US'. Students presented an informative poem on shapes and described the properties of 2D and 3D shapes followed by a quiz. Children also used props

GRADE I

GRADE II

The students of grade I and grade II did an activity 'FUN WITH SHAPES SUDOKU'. This activity was not only thoroughly enjoyed by the students but also helped in building their critical thinking skills, pattern recognition and enabled them to develop longer attention spans. Children tried to solve shapes Sudoku independently.

WHAT IS SUDOKU?

- Sudoku is a puzzle game.
- In a Sudoku, the objective is to fill the grid with digits so that each column and each row, contains all of the digits or shapes.

2	3	2	1	3
1		1	3	2
	1	3	2	1

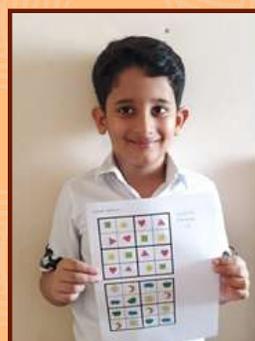

GRADE I and GRADE II

THINGS TO REMEMBER

- As per the rule if we want all the shapes to appear in each column and each row they can just appear once.

SO WORK HARD
EACH DAY TO BE A SMART PERSON IN A SCHOOL

TESSELLATIONS

Interesting activity 'TESSELLATIONS' helped children enhance their mathematical skills, loco motor skills and time management skills. This activity was a beautiful blend of Maths with Fine arts. A grid of different shapes cut outs was shared with the students before hand. Children used various shapes- triangle, hexagon etc. to create different tessellation patterns. A tessellation is created when a shape is repeated over and over again covering a plane without any gaps or overlaps.

GRADE I and GRADE II

SHOW & TELL ACTIVITY -

THE MULTIPLE HATS OF MAGICAL MATHS

FRIDAY, 16TH OCTOBER 2020

Children put on their Mathematical thinking caps and explored the world of Maths with great zeal and enthusiasm. They used various props for their presentation and spoke with great confidence.

GRADE I

GRADE II

SUSTAINABLE DEVELOPMENT GOALS

SDG 2- ZERO HUNGER

Students learnt a recipe of healthy sprout and Bengal Gram Salad that could be prepared to feed the needy people. They were motivated to make their own kitchen garden.

BEAUTIFUL FOODICATURES

SDG 12-SUSTAINABLE CONSUMPTION AND PRODUCTION GOALS

Students shared their views and discussed how they contribute in reducing plastic waste. They learnt the different ways to recycle their unwanted/ old toys.

SDG 10 -REDUCED INEQUALITIES

Students learnt about the different types of inequalities present in the world like Gender Inequality, Religion Inequality, Inequality based on age, Inequality based on race, Inequality based on economic status.

SDG 3 -GOOD HEALTH AND WELL-BEING

Dr. Nikhil Vaid, a Radiation Oncologist from Fortis Hospital, Gurgaon was invited to share very useful tips to keep our body clean during these turbulent times of a global pandemic. He shared the right way to wash our hands and spoke about good eating habits to build our immunity. Students shared and demonstrated ten ways of washing hands. They also shared the types of mask they wear .

Decoding the science of
the bizarre

SOCIAL SCIENCE AND ICT WEEK

A virtual celebration of Social Science and ICT Week was organised from 20th July to 24th of July, 2020. Students participated in various activities which integrated Social Science and ICT. As usual our students were engaged in critical thinking and the objective was to make them understand the importance of research outside of academia. This year however our students explored more on encyclopedias and retelling of history by family members rather than the easily available Guru- Google. They participated enthusiastically and gave evidences of teamwork and creativity.

VIRTUAL PARENTS' WALK-IN

Lao Tzu very rightly said , "A journey of a thousand miles begins with a single step."

The Parents' Walk-In is a novel way of Revision of Concepts as it is true that one learns more effectively by teaching.

GRADE - III

The Virtual Parents' Walk-In was organised on the 5th of February 2021 to see the students enhance their skills and gain confidence while showcasing their interdisciplinary theme-based learning. Our focus was thus to guide them, through an interdisciplinary approach, keeping the United Nations Sustainable Development Goals SDG 16 Peace, Justice and strong Institutions in mind.

Grade IV

The Virtual Parents' Walk-in by Grade IV was held on Tuesday, 9th of February, 2021. The students worked hard to showcase their skills and learning experiences and shared about a variety of topics learned during the month of January. SDG 13 Climate Action was a part of each subject presentation and was presented in an interwoven manner.

Grade V

Learners showcased glimpses of their journey to understand that Earth's climate is changing, with severe consequences for our daily lives and the resilience of our countries with a 'Virtual Parents' Walk-in' of Class V that was held on Friday, 11th December, 2020.

Grade VI

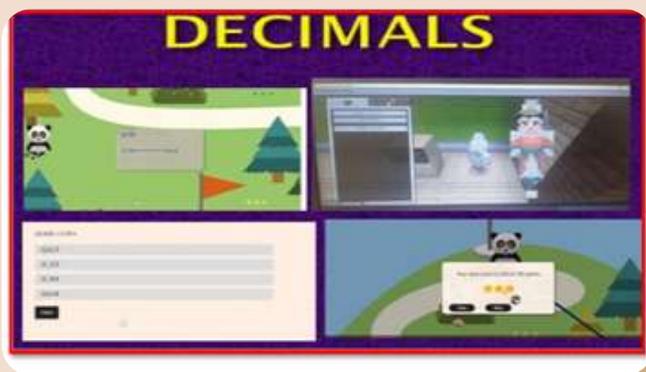

To showcase some of the interdisciplinary and thematic learning, the students worked on different projects, related to the SDG 13 of Climate Action and the theme- Air and water and presented it to the parents on 11th December 2020.

VIRTUAL MATHS AND ICT FAIR

THE NUMBER NINJA

A virtual Math and ICT Fair was organized on 22 January 2021 where parents were invited to the virtual classrooms to play digital games based on mathematical concepts designed and created by the students. It helped to foster students' interest in learning mathematics, increase their motivation and performance, encourage lifelong learning and facilitate positive interactions and relationships. The objective was to develop the core transversal competencies of critical thinking, multi literacy with emphasis on numerical, logical, digital and linguistic literacy, participation, communication and self-management. Students participated with enthusiasm and used different apps like Minecraft, Gamilab, Scratch, Flippy net, Mentimeter, CODE.org, wisc.online to design different mathematical games.

CHESS CHAMPIONSHIP

FIRST VIRTUAL INTER HOUSE (13TH) CHESS TOURNAMENT

Suncitizens showcased a scintillating display of young and sharp minds and intelligent moves to make the first-ever Virtual Inter House Chess Tournament scheduled on 25th July 2020(13th Inter House) a huge success.

The teams were divided into 4 age categories (U-10, U-12, U-14, and U-16).

VIRTUAL INTER SCHOOL CHESS TOURNAMNET

Our 20 players showcased their strategic and creative thinking, calmness under pressure, and patience while competing in the Inter school chess tournament.

Shubh Ashish of grade V secured 16th rank and Suraj Gupta of grade IV ranked 47th in the U-13 category.

1st VIRTUAL 8th INTER-HOUSE TAE-KWON-DO COMPETITION

The first-ever Virtual (8th Inter-House) Tae-kwon-do Competition was conducted successfully on 30th October 2020. Mr. Kulwant Singh, Black belt 3 Dan from South Korea, India's champion and International player, judged the participants based on various parameters such as kicks, punches and blocks.

THE INDIAN HOUSE WON THE CHAMPIONSHIP

VIRTUAL 7th INTER-HOUSE YOGA COMPETITION

**Yoga does not transform the way you see things,
it transforms the person who sees.**

-B K S Iyengar

The first-ever Virtual (7th Inter-House) Yoga Competition was conducted successfully on 21st August 2020. Participants displayed great energy, enthusiasm, strength, flexibility, and grace in performing the 'asanas'.

GLIMPSES

WORLD ELDERLY DAY CELEBRATION

“To make an elderly person happy is the noblest act a young person can ever do!” - Mehmet Murat ildan

Our Suncitizens have proved the above statement true by taking a step towards bringing a smile to the faces of elderly people on the occasion of ‘World Elderly Day’ which is celebrated on October 1 every year. On this occasion, our students of grades III to VI showcased their sanskaras, thoughts, and sentiments through videos that were specially made for elderly people. These videos were shared with NGOs such as Earth Saviours and Helpage India.

Respected Madam,

Greetings from Help Age India!

It's our privilege to be associated with your school. This precious association has undoubtedly given us the opportunity to take a step further each year for the cause of disadvantaged older persons.

HelpAge places on record its heartfelt appreciation for the efforts put in by your director, staff and the students of school for making the video for Elderly on International Day for Older Person.

Thanks and Regards

Narender Singh

HelpAge India

TABLE TENNIS DISTRICT TOURNAMENT

Our budding Table Tennis star Mahir of grade VIA made Suncity School proud by winning a Gold medal and a Bronze medal in the Table Tennis District Tournament held at Titans Academy.

SPARDHA, THE VIRTUAL INTER SCHOOL COMPETITION

Suncitizens and budding sports stars participated in 'Spardha', The Virtual Inter School competition in which 52 schools took part. Our students participated in Yoga, Kata, Pushups, and Squat challenges -Purva Bang of Grade VD participated in Yoga and Mahir Varma of Grade VI in Squat.

1st VIRTUAL INTER-HOUSE GYMNASTICS COMPETITION

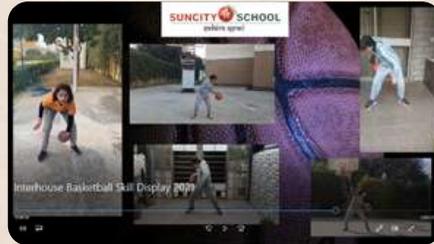

The first virtual Inter House Gymnastics competition was held on 18th December 2020.

Ms. Kavita Saini was invited to judge the participants and students felt highly motivated in her presence.

1st VIRTUAL (6th INTER HOUSE) BASKETBALL SKILL DISPLAY

The first-ever Virtual Inter House Basketball Skill Display was conducted successfully on 29th January 2021. Our budding champions showcased their skills such as Clap and Catch, around the world, Figure of 8, different types of Dribbles, etc.

JUNIOR PREMIER LEAGUE CRICKET MATCH

Our budding cricket champion Shubh of grade VH won the best fielder award in the Gurgaon Junior Premier League Match organized on 31st January 2021.

**Grihith Gumber (Grade VI)
launched the new jersey of
Delhi Capitals for IPL 2021**

58th NATIONAL ROLLER SKATING CHAMPIONSHIP 2020-21

Our Skating star Rida Bhatia of grade V represented Haryana along with other members of the girls' team in the 58th National Roller Skating Championship 2020-21 held at Chandigarh.

VISUAL ARTS

Separate we are unique individuals, but together we are one colourful creation

The above quote is so relevant to this year's theme 'Vasudhaiva Kutumbhakam'. The year was indeed a journey of expression, emotion, togetherness and empathy. All of us learnt how to teach and learn from each other virtually. We explored the new world with the help of technology and entered the era of Virtual learning. Covid-19 taught us that anything can be possible if we strive to work together for a common goal and the goal of the teachers was to keep their students happy and engaged with whatever they do. It was an emotional journey for students as they were not able to go to school and meet their friends. Here art played a very important role. Students started expressing themselves through art. They painted what they were feeling and were going through. They expressed visually how they were helping their parents at home.

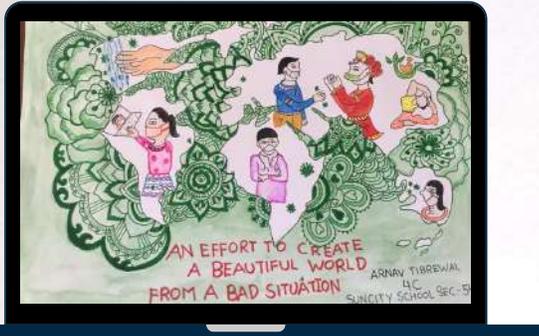

They showcased how the frontline warriors are helping us and to show them their gratitude they made beautiful cards for them.

Students made beautiful compositions in Warli art style where the theme Vasudhaiva Kutumbhakam came alive. They learnt about different art forms and art movements like Madhubani art, Notan art, Parabola art, Coffee paintings, Mandala art, Rajasthani art, Pichwai art, Cheriya painting, Pointillism, cubism, Op art etc. They also learnt about famous artists like Wassily Kandinsky, Vincent Van Gogh, Chuck Close, Giuseppe Arcimboldo, Jamini Roy, Henri Moore and more.

Students had a lot of fun while doing Roll-a-dice activity which was integrated with mathematics.

Himani Mehta
Visual arts Department

INTER-SCHOOL EVENTS

Arnav Tiberewal of IVC secured Second position in an Interschool art competition MELANGE 2020-ART-E-LLIENCE in August.

Vyana Mehta of Grade IA secured First position in poster making competition hosted by GD Goenka school in September.

Ayan Sur of Grade IVC bagged First position in a Virtual Interschool poster making competition hosted by Lancers International School in October.

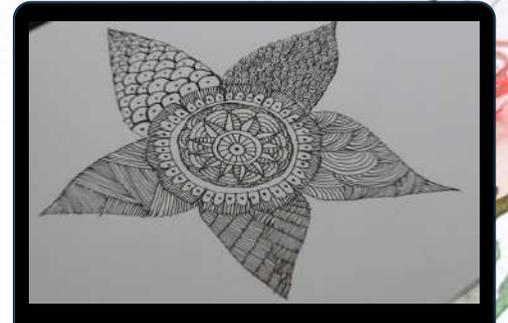

Ahana Prajapati of Grade IIID was a runner up in a best out of waste competition-The wellness edge-an Interschool event by DPS International in October.

Brahmansh Thapa of VE secured Second Position in an Interschool sketch on paper competition hosted by Lancers International School in October.

SUNCITIZEN VISHANK BHARDWAJ

To explain online safety our alumnus- Suncitizen, Vishank Bhardwaj who is a graduate of Indian Institute of Technology, Guwahati, under Bachelor of Technology, Mechanical Engineering presented a presentation on Artificial intelligence. His presentation was very informative.

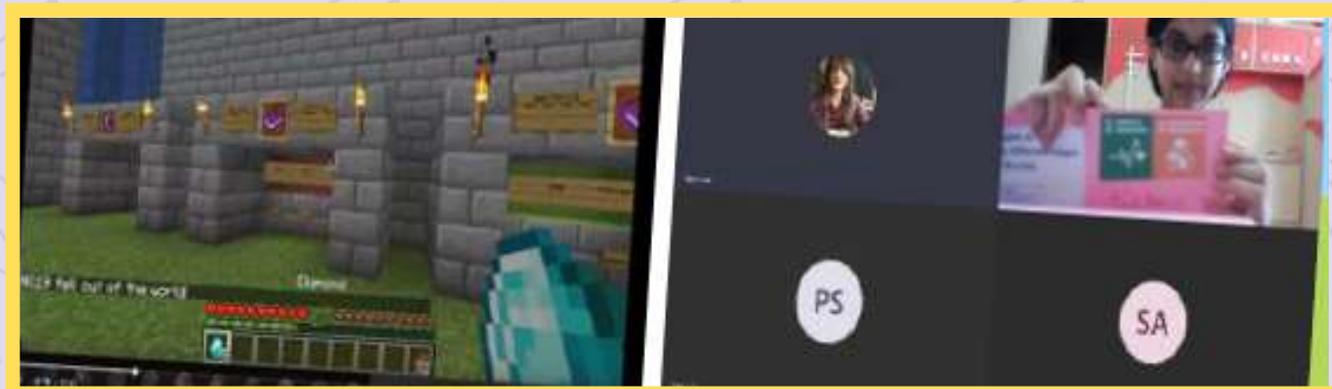

PRESENTATION

Presentation was given by Jaskaran Singh of VA to showcase the custom map created using Google maps for Taj Mahal. It also included the locations like Yamuna River Viewpoint, Taj Mahal Garden, Taj Museum and many more locations in the nearby area of the Taj Mahal. He also showcased his poster on 'Role of AI in smart cities to achieve SDG Goal 11'.

Presentation was given by Naisha Gupta to showcase the Minecraft game designed by her to play a quiz on Covid-19. The game had three levels and before entering the next level, the player was supposed to answer all the questions correct. She also showcased a poster on 'Role of AI in fighting Covid-19'. She incorporated SDG Goal 3 and 11 in the poster.

ACTNOW.BOT

ActNow is the United Nations global call to individual action on climate change. It is an effort to raise awareness, ambition, and action for climate change- Primarily an online and social media campaign.

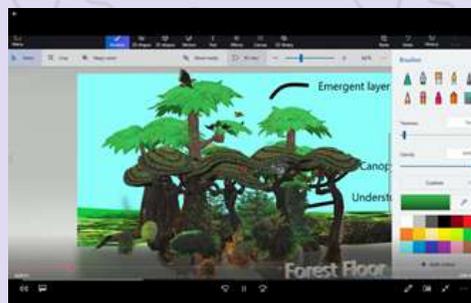

ActNow harnesses advances in Artificial Intelligence (AI) to spur behaviour change. The ActNow bot recommends daily actions to reduce our carbon footprints – like traveling more sustainably, saving energy or eating less meat. It highlights the impact that collective action can have at this critical moment in our planet’s history. The more people act, the bigger the impact.

Paint 3D:

Parent’s walk-in held successfully on 29th January 2021– Integration with Social Science. Different layers of a tree were explained to the parents using Microsoft tool known as Paint 3D. Visual impact of layers of a tree in equatorial region was demonstrated using this tool. Students have space on the canvas to make them doodle which makes it easy to unleash students` creativity and bring their ideas to life. Few Projects made by students during the Parents` Walk-in:

SELECTION FOR SILICON VALLEY CHALLENGE

Manya Singhal of IVA, has been selected for the Silicon Valley challenge to help kids discover the world by scanning one object at a time. Manya has designed an app called Pickaboo.

It helps kids scan real-life objects to their names. The article regarding the same was published in the Indian Express.

Delhi: Class IV student creates apps for toddlers

To help kids discover the world one object at a time, Manya Singhal, 8, has designed an app. Called Pickaboo, it helps kids scan real-life objects to hear their names

Recognising new toys, new words, new foods, new animals. can overwhelm toddlers. To help kids discover the world one object at a time, Manya Singhal, 8, has designed an app called Pickaboo. It helps kids to scan real-life objects to hear their names.

Manya, a student of Class IV at Suncity School, Gurguram, loves to teach her little sister everything she knows. But she also finds it time-consuming. "My two-and-a-half-year-old sister is always curious to learn about the things she sees around her and often asks questions to my parents and family members. So, I wanted to create something that would help make her independent." The app takes a picture of the object and sends it to a Microsoft Image Processing API. Once the API returns the description, it is sent to a Translator API (based on language settings). The result is then sent to a text-to-speech converter and a translator engine that spells out the scanned object's name in five different languages - English, Hindi, Spanish, French and German." I don't realise how time passes by when I am coding." The best thing about coding, for Manya, is that the subject can be used to simplify any aspect of life.

MANYA IN CONVERSATION WITH MR. RANGANATHAN MADHAVAN: POPULAR FILM ACTOR

Virtual celebration of 74th Independence Day.

15th August 2020

Suncity School celebrated the 74th Independence Day on a virtual platform on 15th August, 2020 with patriotic fervour.

The Director unfurled the National Flag in real time in the school playfield. The principal along with the Head mistresses and administrative staff were present to honour the occasion.

World Pollution Day.

2nd December 2020

Students of classes III, IV, V and VI celebrated World Pollution Day to commemorate the day. They planted and gifted air purifying plants.

They had various activities organised.

The students had a poster making competition and they planted and gifted plants which enhance the air quality to ensure decrease of pollution on planet Earth.

PLANTING AIR-PURIFYING PLANTS AT HOME

SHARING THE NAMES AND FEATURES OF THE PLANTS IN THE CLASS

GIFTING THE PLANTS TO FRIENDS AND NEIGHBOURS

Gurgaon school hosts science exhibition

Gurgaon's Suncity School hosted the annual National Science Exhibition 2019-20 on behalf of Central Board for Secondary Education (CBSE). It showcased the projects and research of the students from more than 600 schools across the country. These schools have emerged victorious at the regional levels of this event. This year the theme was 'Science and technology for

sustainable development with a thrust on water conservation'. The event was inaugurated by Anita Karwal, Chairman, CBSE.

The event was aimed at providing a platform to the students to demonstrate such learning which encourages construction of knowledge by connecting new ideas to existing concepts.

विज्ञान और प्रौद्योगिकी को भूमिका रही। प्रदर्शनी में प्रतिभागियों ने मुख्य थीम के साथ-साथ आयोजन के केंद्र में रखे गए सब-थीम सतत कृषि प्रथाओं, स्वच्छता और स्वास्थ्य, संसाधन प्रबंधन, औद्योगिक विकास, भविष्य के परिवहन और

संचार, रौंधिक खेल जैसे विषयों पर अपनी परियोजनाओं का बखूबी प्रदर्शन किया। इस आयोजन का मुख्य उद्देश्य प्रतिभाशाली छात्रों को एक मंच देना था जहां वो अपने नए-नए आइडिया को प्रदर्शित कर सके।

The Tribune

CBSE NATIONAL SCIENCE EXHIBITION

Gurgaon: Over 500 schools across the country participated at the 3-day National Exhibition held at Suncity School, Sector 54, Gurgaon. Entries from states, including Tamil Nadu, Jammu and Kashmir, Telangana, Rajasthan, West Bengal, Meghalaya and Madhya Pradesh were received at the event. The theme of the exhibition was 'Science and technology for sustainable development' with a thrust on water conservation and had seven sub-themes such as: sustainable agricultural practices, cleanliness and health, resource management, industrial development, future transport and communication, educational games and mathematical modelling. It showcased the exhibits/projects of winners at region-level from across the country. The exhibition aimed to encourage students to work towards sustainable development.

वर्चुअल क्लासेज से पढ़ रहे छात्र

■ एनबीटी न्यूज़, गुड़गांव : नए शैक्षणिक सत्र के लिए स्कूल वर्चुअल क्लासेज और ऑनलाइन पढ़ाई की तैयारी में जुट गए हैं। ब्लू वेल्स ग्रुप ऑफ स्कूल्स और सनसिटी स्कूल सभी कक्षा के बच्चों का ई-लर्निंग के जरिए ज्ञानवर्धन कर रहे हैं। अन्य स्कूलों में भी लोकप्रियता के कारण स्कूल की गतिविधियां तो बंद हैं लेकिन शिक्षकों ने ई-लर्निंग प्रोग्राम को विकसित करने के लिए घर से काम करना शुरू कर दिया है। शिक्षकों ने हर क्लास के पाठ्यक्रम से संबंधित एक टाइम टेबल और वीडियो तैयार किया है। ब्लू वेल्स ग्रुप ऑफ स्कूल्स की डिप्टी डायरेक्टर अंशुका अनेजा ने कहा कि ई-लर्निंग प्रोग्राम शुरू कर दिया है। विडियो कॉन्फ्रेंसिंग के माध्यम से सभी कक्षाओं के लिए ऑनलाइन टीचिंग सेशन आयोजित कर रहे हैं। शिक्षक घर से काम कर रहे हैं और आवश्यक अध्ययन सामग्री व अससिंक्रमेट तैयार कर स्टूडेंट्स के रफ़ेरेंस के लिए पोस्ट कर रहे हैं।

SPECTACULAR DISPLAY OF TALENT AND FERVOUR

Bharatiya Vidya Bhawan's Mehta Vidyalaya, KG Marg celebrated its 62nd Annual Day. The chief

guest was Major General Prasad Sainhal (Retd) and his spouse Preema Sainhal was the guest of honour.

The chief guest praised the institution for inculcating ethics and moral values in the students and believed that Bhawan's students will be solid assets for the nation.

School principal, Dr Anil Tandon presented the School's Annual Report highlighting the academic and co-curricular achievements of the school. The annual magazine "Bhavidya" was released by the

chief guest.

This year seven teachers were conferred the Saraswati Samman for rendering 25 years of dedicated

service to the institution. Commemorial prizes were conferred upon four teachers for outstanding contribution and motivating students to score

perfect 100 in Class XII and X Board Exams 2019-20.

Certificates and cash prizes were awarded to the meritorious students in the prize distribution ceremony.

The cultural programme was woven around the theme Ranglo Metro Deah with folk dance presentations, classical music and instrumental music presentations.

The Vote of Thanks was proposed by Alka Jayaram, school vice principal and the programme concluded with the National Anthem.

Spreading awareness against use of manjha

The Eco-Club of Hemal Public School, Bahini organised a virtual awareness programme against the use of Sharp Manjha in the name of Shree Kishore Das Gupta. The programme was held on the 13th of November, 2020. The students of primary, middle and senior wing presented colourful activities to highlight the cause and became advocates for the mute animals.

Students presented a small skit highlighting the trauma of birds caught in the manja. Activities like poster making, slogan writing were also conducted. Young ones of primary made video messages and urged the people to not use harmful manjha. Presentations and speeches were presented by the senior wing. School manager, Hishu Bajaj applauded the efforts of the students and teachers in making the virtual programme a success and also gave a message of harmonious existence.

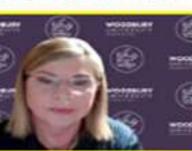

"The future belongs to those who believe in the beauty of their dreams."

Kanain Public School, Bahini had organised a Mega Career Fair 2020 for 21 days. A total of 22 specific career wise sessions were held in a well-structured manner.

The success of the events lies in the fact that 28 Universities Representatives from Abroad and more than 20 Indian Premier Universities Representatives took the sessions as per their assigned courses. A total of 47 University Representatives and 987 students showed their presence throughout the sessions.

The event provided a platform to the Senior Secondary students from all streams to explore different professional and undergraduate education opportunities available in various renowned universities in India & Abroad. The Com-

missioner of Chhatrabadi, Mahendra Singh Tanwar, along with the speakers and career counsellors Jain Chawla and Dr Pooja Jain presented over the event as the chief guests. They interacted with the participants emphasizing the importance of raising awareness about the right vocational paths to develop the next generation of human resources.

The sessions facilitated the interaction between the students and the university representatives about Specific Career Choices, Application Processes, Eligibility Admission Criteria etc. along with the "campus life" experience of the representatives.

Multiple Intelligences and Me-Apotheosis

Sunehy School, Sector 14, Gurgaon organised the eighth edition of the Inter-school composition "Me-Apotheosis". Based on the theory of Multiple Intelligences by Dr Howard Gardner, the event was conducted on a virtual platform. Learners from several schools such as Mayo College (Ajmer), Scotch High International School, Shri Nadar School, Lotus Valley International School (Noida) and Gurugram, and other schools participated in the event.

The Me event comprised of five components - Making Con-

nections based on linguistic intelligence, Arts to Associates based on interpersonal and naturalistic intelligence, Design thinking related to musical intelligence and technological know-

ledge. Callisthenics which encouraged students to showcase their kinesthetic intelligence and VUCA, WUOLU, Unlearn, Complex and Ambiguous based on logical thinking.

The competition started with a lamp lighting ceremony conducted by the Director of Sunehy School, Rupa Chakravarty. This was followed by an Indian classical group dance performance based on the theme of Vasudeva Kurumbakam. The panel of judges included Pragati Agarwal, Founder 'Art From Home' Kumar, a textile designer and author, Anand Prasad, Founder and Managing Director of educational organisation, Vamsidhar Lankar, Managing Director of Sunehy School, Rupa Chakravarty and many other eminent personalities.

Rupa Chakravarty, school director thanked the participating schools for their contribution in making "Me-Apotheosis 2020" a success. The Overall Championship trophy was awarded to Scotch High International School.
